CLS Holdings Announces Opening of THC Extraction and Production Facility

LAS VEGAS, NV, Dec. 05, 2019 (GLOBE NEWSWIRE) -- via NEWMEDIAWIRE -- CLS Holdings USA, Inc. (OTCQB: CLSH, CSE: CLSH) ("CLS" or the "Company"), a diversified cannabis company operating as Cannabis Life Sciences, is pleased to announce that, through its 100% owned City Trees subsidiary, it has completed the buildout and licensing for phase 1 of its North Las Vegas processing facility.

The new, state-of-the-art extraction and production facility allows CLS to produce its own THC oil for use in all City Trees branded products. CLS also expects to partner with 3rd party organizations interested in having their products manufactured at the newly licensed facility.

The new manufacturing facility passed inspection with the North Las Vegas Fire Department for its phase 1 Hydrocarbon extraction and processing. This marks two key paths forward for the Company to capture and produce live and cured resin products for the burgeoning Nevada market and to utilize this manufacturing method to separate cannabis derived terpenes for current and future products.

"We continue to strategically enhance our City Trees brand and our new manufacturing facility represents yet another milestone to our Las Vegas operations," commented Andrew Glashow, President and COO of CLS Holdings. "By producing our own full spectrum of THC oil and THC distillate, we anticipate expanding the City Trees branded product offerings while never wavering from delivering safe products in accordance with our high quality and purity standards."
