Forward Looking Statements

This presentation includes certain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, including statements about business strategies, market potential and expansion, the success of new products and services, the launch of Brinks Home's consumer financing solution; the anticipated benefits of the Brinks Home’s rebranding; customer retention; account creation and related cost; anticipated account generation; future financial performance; debt refinancing; recovery of insurance proceeds and other matters that are not historical facts. These forward-looking statements involve many risks and uncertainties that could cause actual results to differ materially from those expressed or implied by such statements, including, without limitation, possible changes in market acceptance of our services, technological innovations in the alarm monitoring industry, competitive issues, continued access to capital on terms acceptable to us, our ability to capitalize on acquisition opportunities, general market and economic conditions, including global economic concerns due to the COVID-19 outbreak, and changes in law and government regulations. These forward-looking statements speak only as of the date of this presentation, and we expressly disclaim any obligation or undertaking to disseminate any updates or revisions to any forward-looking statement contained herein to reflect any change in our expectations with regard thereto or any change in events, conditions or circumstances on which any such statement is based. Please refer to the publicly filed documents of Monitronics International, Inc., including the most recent Forms 10-K and 10-Q for additional information about us and about the risks and uncertainties related to our business which may affect the statements made in this presentation.

Non-GAAP Measures

Adjusted EBITDA is a non-GAAP financial measure. See the Appendix of this presentation for related disclosures and calculations.

Brinks Home is a Leading Provider of Smart Home Security

**Market Presence**

- Top 3 smart home security provider\(^1\)
- *Nationally recognized brand* closely identified with safety and security
- High quality, national subscriber base across all 50 states, Puerto Rico and Canada
- Diverse and expanding sales channels:
  - Leading *Independent Dealer network* and growing *Authorized Rep* program
  - *DTC Phone Sales* with developing *Field Sales* and *Authorized Partner* capabilities
- Extensive *suite of new technologies and services* to meet customers’ evolving demands, including a focus on home automation

**Product Offerings**

**Platinum Grade Protection**

- 24x7 Central Monitoring with back-up capabilities
- 24x7 Call Center
- 600+ Customer Facing Employees
Brinks Home is Built with a Differentiated Go-To-Market Strategy…

Creating profitable accounts at scale and holding for life

Premium Brand
- Up market brand proposition supported by best-in-class integrator and service provider
- Attractive blend of core security and innovative connected home solutions
- Seamless platform simplifies the smart home experience

Digital tech and Data Analytics
- Deploying AI/ML across the organization for tech enabled business support
- Enterprise data platform to track entire customer journey
- Enables real-time business decisions to unlock value and reduce cost to serve

Customer Centric Model
- Proactive focus on providing platinum grade protection to the customers
- Industry leading customer lifecycle management
- Micro-segmentation of customer base enables targeted services and personalized offers

Complementary Channels
- Direct to Consumer focus engages the customer the way they want to interact
- Reinvigorated Dealer network structured to align financial interests
- Opportunistic bulk purchases to accelerate scale
... and Underpinned by Strong Fundamentals in 2020

### Commentary

- ~2.5x reduction in net leverage since 2018
- No meaningful maturities until 2024
- Strong liquidity position allowing for investments in growth and infrastructure for improving unit economics

### Maturity Schedule

| ($ in millions) |
|-----------------|-----------------|-----------------|-----------------|-----------------|-----------------|-----------------|
|                 | 2021 | 2022 | 2023 | 2024 | 2025 | Thereafter |
| **Total Debt**  | $8.2 | $8.2 | $8.2 | $954.5 |      |            |
| **Net Debt**    | 6.3  | 3.6  | 3.8  |      |      |            |

(1) Includes $1.0m and $0.6m letter of credit for 2019 and 2020 respectively
(2) See Appendix for reconciliation from Net Income to Adjusted EBITDA.
Focused on Protecting the Core and Driving Profitable Growth

1. Premium, *nationally recognized brand* with *significant scale* in a *growing market*

2. Retooled management team positioning the business for success

Protect and strengthen the core business

3. Recurring revenue model with exemplary customer profile

4. Improving customer attrition and stable margin profile

Drive profitable growth

5. Capital efficient growth strategy by optimizing sales channels and opportunistic bulk buys
Market Overview

- $32bn US home security market\(^1\) growing at 7% per annum\(^1\)...with increasing complexity as consumers demand smart home integration
- Brinks currently holds only ~2% of the market share\(^1\), with ample opportunity to grow
- Innovation, sales effectiveness, and price are key success drivers

Changing Dynamics

- As home automation matures, **customer experience and increased service offerings will become more critical**
- **Differentiated platforms** that successfully integrate products and services will **command a premium price point**
- Price competition is expected to intensify in basic security, but consumers are still willing to pay for premium services or compelling value proposition
- Success in the premium value segment will be led by players such as Brinks Home, ADT, and Vivint as Smart Home Automation and Security drives need for professional installation

Future State of Play: A Truly Connected Home

Commentary

- Core focus on unit economics, scaling, and enhancing the customer experience...which drives decreases in attrition and cost to serve
- Continued reduction in core unit attrition at 14.9%, a 210bps improvement YoY and 50bps sequentially (see next page for how Brinks Home has achieved this)
  - Consistently achieved a 30-60 bp reduction in attrition for 7 straight quarters
  - Due to improved pool curves and data-driven retention initiatives that map customer data to enable real-time decisions
- EBITDA margins driven by continued investment
  - Investments in business intelligence and analytics that reduce cost to serve and drive profitable unit growth

Note:
(1) Core Unit Attrition excludes Protect America and Select Security subscribers

Well Designed Retention Program Ranges from Proactive Retention to Post Cancellation Winback

Machine Learning to continuously monitor and flag customers based on unified set of features that indicate satisfaction levels, attrition risk, upsell opportunities, referral opportunities and winback opportunities.

- **Proactive Care**
  - Address emerging risk to proactively build loyalty, secure referrals, upsell add-ons to create stickiness

- **Proactive Retention**
  - Proactive contract extension offers based on customer risk level and attrition drivers, offers tailored to customer preferences and NPV optimized by AI

- **Customer Retention**
  - Retention offers through higher skilled employees trained to handle cancel requests

- **Pending Cancel Winback**
  - Aggressive last-chance offers through much higher skilled, specialist winback agents

- **Cancelled Customer Winback**
  - Systematically market and re-acquire homes with equipment already installed (better economics than new customer acquisition)
Optimizing Sales Channels to Increase Capital Efficiency

Dealer Network

- Primary channel, creation multiples historically high
- Includes Independent Dealer Network and Authorized Representatives
- Restructured dealer contracts to become more capital efficient
  - Successfully negotiated ~5x reductions to the largest dealer accounts comprising ~50% of the channel volume

Direct to Consumer (DTC)

- Includes Phone Sales, Field Sales, and Authorized Partner
- Core initiative to grow the internal sales engine
- More attractive creation multiples, while remaining focused on scale
  - Control the multiple with discretionary marketing spend
- Exploring new partnerships to help direct channel expand over time

Renegotiated dealer contracts and a growing direct to consumer channel reduce the capital required to secure new accounts
Establishing Critical Partnership to Efficiently Scale the DTC Channel

Pilot with best-in-class digital marketing company

- Extensive portfolio with established search engine optimization (SEO) value and lead generation capabilities
- Paid media team with proven ability to scale rapidly and precisely
- Robust domain and industry expertise
- Compelling e-commerce, lead scoring, and analytics solutions

Favorable Long-Term Economics

- Significant New Account Creation
- Low Upfront Creation Cost
- Higher ARPU\(^1\)
- Increased Revenue Share

Partnership at a Glance

- Aligned Incentives
- Quality Accounts
- Shared Attrition Risk
- Favorable Economics
- Balance Sheet Friendly

---

(1) ARPU: Average Revenue per User
Core Subscribers Supplemented by Opportunistic Bulk Acquisitions

- June 2020 asset purchase agreement to acquire 114k contracts
  - ~$4.6m in RMR
  - $15m upfront payment and 50-month earnout structure
  - Structured to minimize attrition risk

  **Strong Account Performance**

  - Acquired customer base remains in line with expectations
  - Launched proactive retention program
    - Uses predictive churn model to target high risk customers
    - Self-learning AI model to maximize NPV
  - First call resolution and traditional retention are in line with overall base

- December 2020 asset purchase agreement to acquire 30k residential and small business and 8k large commercial contracts
  - ~$2m in RMR
  - $10m upfront payment and 50-month earnout structure
  - Structured to share and mitigate attrition risk
  - Retained Select’s commercial engine

Opportunistic bulk purchases to supplement traditional sales and accelerate growth, structured to minimize capital outlay and downside risk
The 2023 Vision

Restructuring for Success
- Completed financial recapitalization on August 30, 2019
- Strengthened balance sheet by eliminating over $800mm of debt

Investment in Core Business
- Sales and service platform investments
- Establish a Transformation Office
- Re-tool Management Team

Strengthening the Foundation
- Capital efficient core subscriber and revenue growth
- Establish brand proposition and GTM strategy

Deliver Sustainable Results
- Scaling profitable core unit production
- Operating efficiencies with margin expansion

Premium Brand Status
- Customer centric brand with reimagined commercial engine
- Sustainable and profitable growth
- Optimal cost structure

+22.8%

2019 2020

Commentary

- Analyzed subscriber base to focus on highest quality customers
- Chose to acquire customers in bulk vs dealers given more favorable economics (while working on improving dealer economics)
- Increased ARPU via modest price increases and enhanced services
- Quality of portfolio continues to improve as attrition declines

(1) Protect America 114k subscribers added mid-June, 113k remaining at the end of June

Note: See Appendix for reconciliation from Net Income to Adjusted EBITDA.
Measures and Reconciliations

We evaluate the performance of our operations based on financial measures such as revenue and "Adjusted EBITDA." Adjusted EBITDA is a non-GAAP financial measure and is defined as net income (loss) before interest expense, (net of interest income), income taxes, depreciation, amortization (including the amortization of subscriber accounts, dealer network and other intangible assets), gain on restructuring, stock-based compensation, and other non-cash or non-recurring charges. We believe that Adjusted EBITDA is an important indicator of the operational strength and performance of our business. In addition, this measure is used by management to evaluate operating results and perform analytical comparisons and identify strategies to improve performance. Adjusted EBITDA is also a measure that is customarily used by financial analysts to evaluate the financial performance of companies in the security alarm monitoring industry and is one of the financial measures, subject to certain adjustments, by which our covenants are calculated under the agreements governing our debt obligations. Adjusted EBITDA does not represent cash flow from operations as defined by generally accepted accounting principles in the United States ("GAAP"), should not be construed as an alternative to net income or loss and is indicative neither of our results of operations nor of cash flows available to fund all of our cash needs. It is, however, a measurement that we believe is useful to investors in analyzing our operating performance. Accordingly, Adjusted EBITDA should be considered in addition to, but not as a substitute for, net income, cash flow provided by operating activities and other measures of financial performance prepared in accordance with GAAP. As companies often define non-GAAP financial measures differently, Adjusted EBITDA as calculated by Monitronics should not be compared to any similarly titled measures reported by other companies.
