Herbalife Ltd. Announces Record Fourth-Quarter Net Sales of \$487.4 Million

Full Year 2006 Net Sales Increase 20.3 Percent to \$1.9 Billion

LOS ANGELES--(BUSINESS WIRE)--

Herbalife Ltd. (NYSE:HLF) today reported fourth-quarter net sales of \$487.4 million, an increase of 19.2 percent compared to the same period of 2005. This record performance was largely attributable to continued growth in several of the company's largest markets, including Mexico and the U.S., which reported net sales growth of 35.1 percent and 25.0 percent, respectively, versus the fourth quarter of 2005. The company's chief executive officer, Michael O. Johnson, said, "2006 marked another tremendous year for our independent distributors and our company. We believe our commitment to supporting successful distributor methods of operations, and providing innovative business tools, high-quality products and training events will enable us to sustain momentum in many of our key markets."

During 2006, a record 197,000 distributors qualified as new supervisors, an increase of 25.3 versus the full year of 2005. Total supervisors, as of December 31, 2006, increased 22.1 percent versus 2005 and the company's President's Team increased 15.0 percent year-over-year to 988 members. During the fourth quarter, the company also welcomed its fourth Chairman's Club member from Mexico, bringing the worldwide total of this exclusive group to 30 distributorships. Additionally, based on its January 2007 re-qualification results, the company retained 42.5 percent of its distributor supervisors, up from 41.5 percent in 2006.

Financial Performance

For the quarter ended December 31, 2006, the company reported net income of \$41.7 million, or \$0.56 per diluted share, compared to \$30.0 million, or \$0.41 per diluted share in the fourth quarter of 2005. The increase in net income was primarily attributable to strong net sales growth and a lower effective tax rate during the period, partially offset by \$4.9 million in after-tax, employee-related costs incurred during the quarter relating to the company's realignment for growth initiative. Excluding the impact of these realignment costs and other items(1), fourth quarter 2006 net income increased 47.9 percent to \$44.3 million, or \$0.59 per diluted share, compared to \$0.41 per diluted share in the fourth quarter of 2005.

For the twelve months ended December 31, 2006, the company reported net income of \$143.1 million, or \$1.92 per diluted share, compared to \$93.1 million, or \$1.28 per diluted share for full year 2005. Excluding the impact of certain items(1), year-to-date net income increased 39.0 percent to \$153.7 million, or \$2.06 per diluted share, compared to \$1.52 per diluted share in the same period of 2005.

The company invested \$17.8 million in capital expenditures during the fourth quarter,

primarily related to the relocation of the company's regional headquarters in Los Angeles, enhancements to its management information systems and additional infrastructure investments in China.

Fourth Quarter 2006 Business Highlights

Consistent with its distributor strategy, the company continued to support the development and training of its distributors during the fourth quarter, by hosting over 50,000 distributors at more than 40 local and regional events. Highlights include three World Team School/Leadership Development events in the U.S., South Korea, and Portugal, a regional Extravaganza in Brazil and an eight-city Wellness Tour in Mexico. Additionally, the company opened Peru as its 63rd country in December, and attracted over 3,500 attendees to the grand opening celebration.

The company also continued to support distributor business methods by enhancing product packaging, such as the development of sample packs for its NouriFusion(TM) personal care line, launching innovative, compelling products such as Best Defense, an effervescent immunity defense beverage, and increasing investment in promotional tools and literature. "Over the past year, we have become increasingly focused on the importance of aligning our strategic initiatives with distributor daily methods of operations and how to make prudent investments that we believe will accelerate the globalization of these methods," said Greg Probert, the company's president and chief operating officer.

During the quarter, the company commenced the second phase of its realignment for growth initiative, which is geared towards refining the company's core processes, internal organizational structure and operating model to further streamline decision making in order to improve responsiveness to its distributors. As previously communicated, the company expects to incur a total of approximately \$8.0 to \$10.0 million in pre-tax costs to facilitate this initiative, of which approximately \$7.5 million was incurred during the fourth quarter of 2006.

Regional Performance

EMEA reported net sales of \$134.1 million in the fourth quarter, up 5.0 percent versus the same period of 2005. However, excluding currency fluctuations, net sales decreased 1.0 percent. The performance was primarily attributable to growth in several of the region's top markets, including Portugal, up 57.5 percent, Spain, up 23.4 percent, France, up 18.8 percent, and Italy, up 10.8 percent, in each case compared to the fourth quarter of 2005. These gains were partially offset by declines in other core markets including Germany and the Netherlands, which were down 17.9 percent and 11.7 percent, respectively, versus the comparable period of 2005. Total supervisors in the region, as of December 31, 2006, decreased 0.5 percent versus the same period in 2005. For the twelve months ended December 31, 2006, net sales in the region increased 0.5 percent to \$548.2 million, as compared to the same period in 2005. However, excluding currency fluctuations, full year 2006 net sales in the region increased 0.6 percent, versus 2005.

Mexico and Central America reported net sales of \$95.7 million in the fourth quarter, up 36.4 percent versus the same period of 2005. Excluding currency fluctuations, net sales increased 38.6 percent. "Mexico posted another remarkable year in 2006 and has been a strong contributor to our top-line growth over the past two years," said Probert. "Although we revised our outlook for 2007, resulting primarily from infrastructure, distributor training and

compliance challenges, we remain optimistic about our prospects in this large and important market. We continue working with our local management team and distributor leadership and have implemented more comprehensive training programs and policies to increase compliance with our rules and help stimulate growth in the marketplace. We have also commenced the first phase of our infrastructure strategy, which we believe will enable us to increase penetration in key cities outside of Mexico City and Guadalajara." Total supervisors in the region, as of December 31, 2006, increased 82.2 percent as compared to the same period in 2005. For the twelve months ended December 31, 2006, net sales in Mexico and Central America increased 71.4 percent to \$376.7 million, as compared to the full year of 2005. Excluding currency fluctuations, full year 2006 net sales in the region increased 72.0 percent, versus 2005.

North America reported net sales of \$91.1 million in the fourth quarter, up 23.5 percent versus the same period of 2005. Excluding currency fluctuations, net sales increased 23.4 percent. "The U.S. continues to exceed our expectations and we are encouraged that our distributors are not only fostering the expansion of nutrition clubs, but are also blending the clubs with other distributor best practices such as product sampling and the wellness evaluation," said Probert. "This philosophy creates opportunities for our distributors by helping to enhance their retailing, recruiting and retention efforts," he continued. Total supervisors in the region, as of December 31, 2006, increased 14.6 percent versus the same period in 2005. For the twelve months ended December 31, 2006, net sales in North America increased 17.8 percent to \$357.8 million, as compared to the full year of 2005. Excluding currency fluctuations, full year 2006 net sales in the region increased 17.4 percent, versus 2005.

SAM/SEA reported net sales of \$56.6 million in the fourth quarter, up 53.5 percent versus the same period of 2005. Excluding currency fluctuations, net sales increased 49.4 percent. The growth in the region was primarily attributable to an 82.6 percent increase in the company's South American markets and incremental revenue in Malaysia, which opened in the first quarter of 2006. Total supervisors in the region, as of December 31, 2006, increased 41.3 percent versus the same period in 2005. For the twelve months ended December 31, 2006, net sales in the region increased 51.8 percent to \$199.1 million, as compared to the same period in 2005. Excluding currency fluctuations, full year 2006 net sales in the region increased 49.8 percent, versus 2005.

Brazil reported net sales of \$38.8 million in the fourth quarter, up 11.3 percent versus the same period of 2005. Excluding currency fluctuations, net sales increased 6.5 percent. Total supervisors, as of December 31, 2006, increased 15.0 percent versus the same period in 2005. For the twelve months ended December 31, 2006, net sales in Brazil increased 23.9 percent to \$138.3 million, as compared to the same period in 2005. Excluding currency fluctuations, full year 2006 net sales in the region increased 11.1 percent, versus 2005.

Greater China reported net sales of \$38.2 million in the fourth quarter, up 28.9 percent versus the same period of 2005. Excluding currency fluctuations, net sales increased 26.4 percent. The increase was primarily attributable to incremental sales in China, and 13.9 percent growth in Taiwan. Total supervisors in the region, as of December 31, 2006, increased 18.5 percent versus the same period in 2005. For the twelve months ended December 31, 2006, net sales in Greater China increased 16.5 percent to \$130.6 million, as compared to the same period in 2005. There was no impact from currency on the full year

2006 net sales results.

North Asia reported net sales of \$32.9 million in the fourth quarter, down 8.8 percent versus the same period of 2005. Excluding currency fluctuations, net sales decreased 12.3 percent. The performance reflects a 19.0 percent decline in Japan, partially offset by a 10.3 percent increase in South Korea. Total supervisors in the region, as of December 31, 2006, increased 8.6 percent versus the same period in 2005. For the twelve months ended December 31, 2006, net sales in North Asia decreased 5.6 percent to \$134.9 million, as compared to the same period in 2005. Excluding currency fluctuations, full year 2006 net sales in the region decreased 5.0 percent, versus 2005.

First Quarter and Full Year 2007 Guidance

Based on its current business trends, the company is raising its first quarter 2007 diluted earnings per share guidance to the range of \$0.52 to \$0.57. Additionally, for the full year 2007, the company is raising its diluted earnings per share estimates to the range of \$2.43 to \$2.50. The company's first quarter and full year 2007 diluted earnings per share estimates exclude expenses expected to be incurred relating to its realignment for growth initiative and any potential impact from the adoption of FIN 48, which the company does not expect to be material.

Additional Announcements

The company announced that its Board of Directors has scheduled the Annual Meeting of Shareholders on April 26, 2007. The Board has established March 9, 2007 as the date of record.
