TÜV SÜD America Inc. (TÜV SÜD) conducted the verification of the Old Dominion Freight Line, Inc. (Old Dominion) 2024 GHG Inventory according to the requirements found in ISO 14064-3:2019, 14065:2020, and 17029:2019. The objective of this verification was to ensure that the GHG statement is materially correct and conforms to all relevant criteria. The GHG statement is the responsibility of Old Dominion. A summary of the GHG statement is as follows:

- GHG-related activity: Old Dominion 2024 GHG Inventory
- GHG statement period: Calendar Year (CY) 2024
- Criteria:
 - o ISO 14064-3:2019 “Greenhouse gases – Part 3: Specification with guidance for the validation and verification of greenhouse gas statements”
 - o World Resources Institute and World Business Council for Sustainable Development’s Greenhouse Gas Protocol Corporate Accounting and Reporting Standard (GHG Protocol)
 - o GHG Protocol Scope 2 Guidance

The data and information supporting the GHG statement were estimated and historical in nature.

Based on the examination of the evidence, nothing comes to TÜV SÜD’s attention which gives cause to believe that the GHG statement is not a fair representation of GHG data and information. TÜV SÜD concludes that there is sufficient and appropriate evidence to support Old Dominion’s GHG statement and is issuing an Unmodified Opinion.

TÜV SÜD has verified Old Dominion’s 2024 GHG Inventory to a limited level of assurance, and confirms that there is no evidence that the GHG statement:

- Is not materially correct, and
- Has not been prepared in accordance with all applicable criteria.

The verified GHG statement is summarized below.

CY 2024 Emissions Verified	Metric Tons CO ₂ e
Scope 1	1,158,559
Scope 1 – Biogenic	73,139
Scope 2 – Location Based	25,232
Scope 2 – Market Based	27,490
