XTI Aerospace Schedules Fourth Quarter and Full Year 2025 Earnings Webcast

Company to Provide 4Q2025 & FY2025 Earnings Update and 2026 Guidance

ENGLEWOOD, Colo., April 10, 2026 /PRNewswire/ -- XTI Aerospace, Inc. (Nasdaq: XTIA) ("XTI" or the "Company"), an aerospace technology company focused on building and scaling its Drone Nerds, LLC ("Drone Nerds") subsidiary, a drone platform serving enterprise and government customers, today announced that it will release its fourth quarter and full year 2025 financial results on April 14, 2026, after market close.

In conjunction with the earnings release, management will host an earnings webcast on April 15, 2026, at 3:30 PM CT (4:30 PM ET), which will consist of a video-based question and answer session with Scott Pomeroy, Chief Executive Officer, and Brooke Turk, Chief Financial Officer.

Rather than reading scripted remarks during the call, XTI will post prepared remarks, providing additional detail and context regarding the Company's financial results and business update, to the Investor Relations section of its website at xtiaerospace.com under "IR News & Events" on April 15 after the release is issued, allowing more time in the call for live questions and answers.

To participate in the call, please register in advance using this link [XTI Aerospace April 15 earnings call](#). The registration link is also available in the Investor Relations section of the Company's website under "IR News & Events." Dial-in information will be provided upon registration.

A replay of the event will be available in the Investor Relations section of the Company's website under "IR News & Events" following the conclusion and will remain available for at least 30 days.

About XTI Aerospace, Inc.

XTI Aerospace, Inc. (Nasdaq: XTIA) is an aerospace technology company focused on the advancement of vertical flight. Through its Drone Nerds business, acquired in November 2025, XTIA is a premier provider of unmanned aircraft systems ("UAS"), solutions, services and hardware. Through its XTI Aircraft business, the Company is engaged in the development of advanced vertical takeoff and landing ("VTOL") aircraft with the range and speed of planes and the take-off and landing capability of helicopters.
