Third Quarter 2013 Financial Results

Net revenues in the third quarter of 2013 increased 33% to \$148.0 million compared to \$111.1 million in the third quarter of 2012. The increase was due primarily to the continued build in the Company's co-employed client count and same-store sales growth.

Total non-GAAP gross revenues in the third quarter of 2013 increased 37% to \$764.1 million compared to \$558.0 million in the third quarter of 2012 (see "Reconciliation of Non-GAAP Financial Measures" below).

Net income in the third quarter of 2013 increased 55% to \$9.0 million compared to net income of \$5.8 million in the year-ago quarter. Diluted earnings per share in the third quarter of 2013 increased 49% to \$1.21 compared to \$0.81 per diluted share in the year-ago quarter.

At September 30, 2013, the Company's cash, cash equivalents and marketable securities totaled \$48.0 million, compared to \$72.4 million at December 31, 2012. During the second quarter of 2013, the Company posted \$63.9 million in restricted certificates of deposit to collateralize a letter of credit issued to satisfy a surety requirement for its self-insured workers' compensation program in the state of California. At September 30, 2013, the Company had no outstanding borrowings on its revolving credit facility.

Management Commentary

"During the third quarter, gross revenues grew by more than 30% for the seventh consecutive quarter and were the highest in the company's history by nearly \$90 million,"

said Michael Elich, president and CEO of BBSI. "We continue to mature BBSI's brand in the marketplace complemented by our strong referral channels helping to drive new business as well as healthy organic growth from our existing client base. Our three-tier partnership platform and operational focus also continues to drive an industry-leading 90+% retention rate. While we are pleased with the quarter's strong results, it is important to note that we continue to reinvest in our company to ultimately support a much larger and more mature organization."

Fourth Quarter 2013 Outlook

For the fourth quarter of 2013, the Company expects gross revenues to increase at least 30% to between \$780 million and \$790 million compared to \$596.7 million in the fourth quarter of 2012. Diluted income per common share in the fourth quarter of 2013 is expected to increase at least 43% to between \$1.15 and \$1.20 compared to \$0.80 in the fourth quarter of 2012.
