

# BBSI Reports Strong Second Quarter 2021 Financial Results and Raises Full-Year Outlook

- Q2 Net Revenues Increase 16% to \$233 Million with Gross Billings Up 17% -

VANCOUVER, Wash., Aug. 04, 2021 (GLOBE NEWSWIRE) -- Barrett Business Services, Inc. ("BBSI" or the "Company") (NASDAQ: BBSI), a leading provider of business management solutions, reported financial results for the second quarter ended June 30, 2021.

#### Second Quarter 2021 Financial Summary vs. Year-Ago Quarter

- Net revenues up 16% to \$233.2 million versus \$201.0 million.
- Gross billings up 17% to \$1.60 billion.
- Average worksite employees ("WSEs") up 10%.
- Net income increased to \$17.1 million, or \$2.24 per diluted share, compared to \$11.5 million, or \$1.51 per diluted share.

"The momentum in our business strengthened in the second quarter with positive financial and operational results," said BBSI President and CEO Gary Kramer. "Our gross billings and gross margin continue to improve, and our overall performance is trending ahead of plan, leading us once again to raise our full-year outlook. I am also very pleased with our progress in de-risking the business through the favorable restructure of our workers' compensation program. Moving to a new fully-insured model is a milestone for BBSI that speaks to the tremendous progress we have made in our workers' compensation operations."

#### Second Quarter 2021 Financial Results

Net revenues in the second quarter of 2021 increased 16% to \$233.2 million compared to \$201.0 million in the second quarter of 2020.

Total gross billings in the second quarter increased 17% to \$1.60 billion compared to \$1.37 billion in the same year-ago quarter (see "Key Performance Metrics and Non-GAAP Financial Measures" below). The increase was primarily due to higher average billings per WSE and an increase in average WSEs.

Non-GAAP gross workers' compensation expense as a percent of gross billings was 2.9% in the second quarter and benefited from a favorable one-time adjustment of prior accident year liability of \$5.5 million, which included a gain of approximately \$1 million on a loss portfolio transfer. This compares to 3.8% in the second quarter of 2020.

Net income for the second quarter of 2021 increased to \$17.1 million, or \$2.24 per diluted share, compared to \$11.5 million, or \$1.51 per diluted share, in the year-ago quarter. The

increase is attributable to the strong net revenue performance in the quarter.

#### Liquidity

As of June 30, 2021, unrestricted cash and investments decreased to \$109.8 million compared to \$142.7 million in the prior quarter. The decrease in unrestricted cash is primarily attributable to the cyclical timing of payroll tax payments in April as well as an agreement reached in the quarter to replace an existing letter of credit with other collateral assets, which resulted in the transfer of \$25 million of unrestricted cash into restricted trust accounts. Separately, due to the timing of payments related to the loss portfolio transfer, approximately \$13 million was transferred from restricted trust accounts to unrestricted cash in July 2021.

BBSI remains debt free apart from the \$3.6 million mortgage on its corporate headquarters.

#### **Capital Allocation**

BBSI's board of directors has confirmed its regular quarterly cash dividend of \$0.30 per share. The cash dividend will be paid on September 3, 2021 to all stockholders of record as of August 20, 2021. The Company also repurchased an additional 42,342 shares in the second quarter at an average price of \$74.18 per share. Approximately \$35.6 million remains available on its \$50 million share repurchase program.

#### Outlook

In light of the strong performance in the quarter, BBSI is revising its outlook for the year and now expects the following:

- Gross billings growth of 6% to 8%, increased from 5% to 7% in the prior outlook
- Growth in the average number of WSEs remains 2% to 4%
- Outlook for gross margin as a percent of gross billings of 3.0% to 3.1%, increased from 2.9% to 3.1%
- Effective annual tax rate of 22% to 24%, increased from 21% to 23%

#### **Key Performance Metrics and Non-GAAP Financial Measures**

We report PEO revenues net of direct payroll costs because we are not the primary obligor for wage payments to our clients' employees. However, management believes that gross billings and wages are useful in understanding the volume of our business activity and serve as an important performance metric in managing our operations, including the preparation of internal operating forecasts and establishing executive compensation performance goals. We therefore present for purposes of analysis gross billings and wage information for the three and six months ended June 30, 2021 and 2020.

PEO and staffing wages	\$ 1,384,861	\$ 1,177,855	\$ 2,656,253	\$ 2,410,435		

Because safety incentives represent consideration payable to PEO customers, safety incentive costs are netted against PEO revenue in our consolidated statements of operations. Management considers safety incentives to be closely connected to our workers' compensation program because they encourage client companies to maintain safe work practices and minimize workplace injuries. We therefore present below for purposes of analysis non-GAAP gross workers' compensation expense, which represents workers' compensation costs including safety incentive costs. We believe this non-GAAP measure is useful in evaluating the total costs of our workers' compensation program.

In monitoring and evaluating the performance of our operations, management also reviews the following ratios, which represent selected amounts as a percentage of gross billings.

Management believes these ratios are useful in understanding the efficiency and profitability of our service offerings.

We refer to employees of our PEO clients as WSEs. Management reviews average and ending WSE growth to monitor and evaluate the performance of our operations. Average WSEs are calculated by dividing the number of unique individuals paid in each month by the number of months in the period. Ending WSEs represents the number of unique individuals paid in the last month of the period.
