- Q3 2024 Net income of \$19.6 Million, or \$0.74 per Diluted Share -

VANCOUVER, Wash., Nov. 06, 2024 (GLOBE NEWSWIRE) -- Barrett Business Services, Inc. ("BBSI" or the "Company") (NASDAQ: BBSI), a leading provider of business management solutions, reported financial results for the third quarter ended September 30, 2024.

All share and per share amounts presented herein have been retroactively adjusted to reflect the impact of the four-for-one stock split that was distributed in the form of a stock dividend in June 2024 (the "Stock Split").

Third Quarter 2024 Financial Summary vs. Year-Ago Quarter

- Revenues up 8% to \$294.3 million.
- Gross billings up 9% to \$2.14 billion.
- Average worksite employees ("WSEs") up 5%.
- Net income of \$19.6 million, or \$0.74 per diluted share, compared to net income of \$18.2 million, or \$0.67 per diluted share.

"The momentum of our business strengthened in the third quarter, with billings growth ahead of our expectations and a record number of gross WSE additions from new clients," said BBSI President and CEO Gary Kramer. "Once again, these results are attributed to various strategies to increase our sales funnel, strong client retention and the continued rollout of value-added offerings like BBSI Benefits. Our performance highlights the value we deliver to our clients, which in turn drives robust shareholder returns. We are excited to build on this momentum as we end 2024 and believe we are well-positioned for a strong 2025."

Third Quarter 2024 Financial Results

Revenues in the third quarter of 2024 increased 8% to \$294.3 million compared to \$273.3 million in the third quarter of 2023.

Total gross billings in the third quarter of 2024 increased 9% to \$2.14 billion compared to \$1.96 billion in the same year-ago quarter (see "Key Performance Metrics" below). The increase was driven by growth in professional employer ("PEO") services, specifically resulting from increased WSEs from net new clients and client hiring and higher average billings per WSE.

Workers' compensation expense as a percent of gross billings was 2.3% in the third quarter of 2024 and benefited from favorable prior year liability and premium adjustments of \$4.3 million. This compares to 2.7% in the third quarter of 2023, which included favorable prior

year liability and premium adjustments of \$2.2 million.

Key Performance Metrics

We report PEO revenues net of direct payroll costs because we are not the primary obligor for wage payments to our clients' employees. However, management believes that gross billings and wages are useful in understanding the volume of our business activity and serve as important performance metrics in managing our operations, including the preparation of internal operating forecasts and establishing executive compensation performance goals. We therefore present for purposes of analysis gross billings and wage information for the three and nine months ended September 30, 2024 and 2023.
