AI-Powered TranscribeGlass Solution Selects Vuzix Z100 Smart Glasses for Launch of Real-Time Speech-to-Text Transcription Service

- *AI-driven transcription enhances accessibility for the deaf or hard of hearing, delivering real-time closed captions in nearly any environment*

ROCHESTER, N.Y., Feb. 27, 2025 /PRNewswire/ -- Vuzix® Corporation (NASDAQ: VUZI) ("Vuzix" or the "Company"), a leading supplier of smart glasses, waveguides and augmented reality (AR) technology, and [TranscribeGlass](#), a Connecticut-based company specializing in real-time speech-to-text transcription solutions, today announced the launch of their AI-powered transcription service using Vuzix Z100™ smart glasses.

Designed to enhance accessibility for the deaf or hard of hearing, the TranscribeGlass solution leverages AI to convert speech into text with sub-300 millisecond latency, ensuring fast and accurate closed captions. The system connects via Bluetooth to a customer's existing smartphone or tablet and functions seamlessly in both quiet and noisy environments. Additionally, speaker identification technology allows users to follow conversations more easily in group settings.

"This moment has been seven years in the making," said Madhav Lavakare, Founder and CEO of TranscribeGlass. "TranscribeGlass empowers individuals with hearing impairments

by placing real-time closed captions directly in their field of view, transforming accessibility and communication. The Vuzix Z100 enables us to deliver this experience in an all-day wearable format, making it a game-changer for our users."

"The Z100 smart glasses provide an ideal platform for TranscribeGlass's cutting-edge AI-powered transcription," said Paul Travers, President and CEO of Vuzix. "Our collaboration will drive adoption and innovation in the smart glasses industry, reinforcing Vuzix' leadership in AI-enabled wearable technology."
