Graphic Packaging Holding Company (NYSE: GPK), (the "Company"), a leading provider of sustainable fiber-based consumer packaging solutions to food, beverage, foodservice, and

other consumer products companies, today reported Net Income for second quarter 2021 of \$38 million, or \$0.13 per share, based upon 295.8 million weighted average diluted shares. This compares to second quarter 2020 Net Income of \$52 million, or \$0.19 per share, based upon 280.5 million weighted average diluted shares.

The second quarters of 2021 and 2020 were negatively impacted by a net \$38 million and a net \$20 million of special charges, respectively. The charges are detailed in the Reconciliation of Non-GAAP Financial Measures table attached. When adjusting for charges, Adjusted Net Income for the second quarter of 2021 was \$76 million, or \$0.26 per diluted share. This compares to second quarter 2020 Adjusted Net Income of \$72 million, or \$0.26 per diluted share.

Michael Doss, the Company's President and CEO said, "Strong demand continued across our markets in the second quarter as consumer preferences are driving conversions to our fiber-based packaging solutions. Increased consumer mobility and consumption outside of the home resulted in higher sales in our Foodservice markets up 22% year over year, while Food, Beverage and Consumer markets continued to show healthy growth of 4%. Our teams worked tirelessly to meet customer demand, and we swiftly implemented pricing actions to offset rising commodity input costs which impacted our results in the quarter. We expect to generate significantly higher Adjusted EBITDA in the second half of 2021 driven by price-cost recovery from the successful execution of approximately \$400 million of implemented and recognized pricing actions, and continued momentum from organic sales growth and strong productivity. As we address the near-term inflationary headwinds, we remain unwavering in our commitment to introduce new and innovative packaging solutions across global markets supportive of the move to a more circular economy."

Doss added, "Sustainable packaging is increasingly a factor for consumers when deciding what products to purchase. We are focused on providing the best packaging solutions for consumers through our innovative 'design for the environment' approach and extending our capabilities and geographic reach with strategic acquisitions. We recently closed the Americraft Carton acquisition, gaining seven well-capitalized converting facilities in North America, and I am pleased to welcome this outstanding group of talented employees to our Company. The regulatory approval processes for our announced acquisition of AR Packaging are underway and we anticipate closing that transaction by year end."
