First quarter 2012 Operating Results

For the first quarter of 2012, total investment income was \$20.6 million, a 54% increase over the \$13.4 million of total investment income for the corresponding period of 2011. This comparable period increase was principally attributable to (i) a \$6.9 million increase in interest income from higher average levels of both portfolio debt investments and interest-bearing marketable securities investments, (ii) a \$0.2 million increase in fee income due to the increased size of the investment portfolio and (iii) a \$0.1 million increase in dividend income from portfolio equity investments. The increase in investment income included (i) \$1.8 million of non-recurring investment income associated with repayment and financing activities associated with two lower middle market ("LMM") portfolio investments and (ii) a \$0.3 million increase in investment income associated with higher levels of accelerated prepayment activity for certain middle market portfolio debt investments and marketable securities investments.

The \$0.6 million of share-based compensation expense recognized during the first quarter of 2012 related to non-cash amortization expense for restricted share grants. Cash operating expenses (total operating expenses excluding non-cash, share-based compensation expense) increased to \$7.1 million in the first quarter of 2012 from \$5.5 million in the corresponding period of 2011. This comparable period increase in operating expenses was principally attributable to (i) higher interest expense of \$1.0 million as a result of the issuance of an additional \$30 million in SBIC debentures during the first quarter of 2011 and \$10 million in SBIC debentures subsequent to March 31, 2011, and increased borrowing activity under Main Street's credit facility (the "Credit Facility") and (ii) higher compensation and other operating expenses of \$0.6 million related to the increase in investment income and

portfolio investments compared to the corresponding period of 2011. The ratio of total operating expenses, excluding interest expense, as a percentage of average total assets for the three months ended March 31, 2012 was 2.0% on an annualized basis, compared to 2.5% on an annualized basis for the corresponding period of 2011 and 2.2% for the year ended December 31, 2011.

Distributable net investment income, which is net investment income before non-cash, share-based compensation expense, increased 71% to \$13.4 million, or \$0.50 per share, in the first quarter of 2012 compared with \$7.8 million, or \$0.40 per share, in the corresponding period of 2011. (1) (2) The increase in distributable net investment income was primarily due to the higher level of total investment income partially offset by higher interest and other operating expenses, due to the changes discussed above. Distributable net investment income on a per share basis for the first quarter of 2012 reflects (i) approximately \$0.07 per share of investment income attributable to non-recurring investment income associated with two LMM portfolio investments, (ii) approximately \$0.01 per share of investment income attributable to higher levels of accelerated prepayment activity for certain middle market portfolio debt investments and marketable securities investments and (iii) a greater number of average shares outstanding compared to the corresponding period in 2011 primarily due to the March 2011 and October 2011 follow-on stock offerings.

Distributable net realized income, which is net realized income before non-cash, share-based compensation expense, increased 175% to \$21.6 million, or \$0.80 per share, in the first quarter of 2012 compared with distributable net realized income of \$7.8 million, or \$0.40 per share, in the corresponding period of 2011. (1) (2) This increase was due to (i) the higher level of total distributable net investment income in the first quarter of 2012 and (ii) the higher level of total net realized gain from investments during the first quarter of 2012 compared to the corresponding period of 2011. The \$8.1 million net realized gain from investments during the first quarter of 2012 was primarily attributable to (i) realized gains totaling \$11.9 million recognized on the partial exit of equity investments in an LMM portfolio company and net realized gains related to middle market debt and marketable securities investments, partially offset by (ii) realized losses totaling \$3.8 million on the full exit of equity investments in an LMM portfolio company and a loss on a debt investment related to the full exit of an LMM portfolio company.

The net increase in net assets resulting from operations attributable to common stock was \$23.8 million, or \$0.89 per share, in the first quarter of 2012, representing an increase of 130% compared with \$10.3 million, or \$0.54 per share, in the corresponding period of 2011. (2) The \$4.7 million net change in unrealized appreciation during the first quarter of 2012 was principally attributable to (i) unrealized appreciation on 19 LMM portfolio investments totaling \$9.6 million, partially offset by unrealized depreciation on 5 LMM portfolio investments totaling \$1.7 million, (ii) \$3.7 million of net unrealized appreciation on the middle market investment portfolio, (iii) accounting reversals of net unrealized appreciation related to the net realized gains recognized during the first quarter of 2012 totaling \$7.1 million for portfolio investments and marketable securities investments, (iv) \$0.3 million of net unrealized appreciation attributable to SBIC debentures held by MSC II, and (v) \$0.1 million in unrealized depreciation attributable to Main Street's investment in the affiliated Investment Manager. The noncontrolling interest of \$0.1 million recognized during the first quarter of 2012 reflects the pro rata portion of the net increase in net assets resulting from operations for MSC II attributable to the equity interests in MSC II that were not owned by Main Street, During the first guarter of 2012. Main Street acquired the remaining noncontrolling interests in MSC II and now owns 100% of MSC II. For the first quarter of 2012, Main Street also recognized a net income tax provision of \$1.9 million principally related to deferred taxes on net unrealized appreciation of equity investments held in its taxable subsidiaries and an accrual for excise taxes on its estimated spillover taxable income in 2012.

Liquidity and Capital Resources

As of March 31, 2012, Main Street had approximately \$89.0 million in cash and cash equivalents and \$14.3 million in marketable securities and idle funds investments. Main Street also had \$97.0 million of availability under the Credit Facility.

In the second quarter of 2012, Main Street expanded the total commitments under the Credit Facility from \$235 million to \$277.5 million. The \$42.5 million increase in total commitments included increases by three lenders currently participating in the Credit Facility. The amended Credit Facility contains an upsized accordion feature that allows for a further increase in total commitments under the facility up to \$350 million from new and existing lenders on the same terms and conditions as the existing commitments. The Credit Facility will mature in September 2014, although the Credit Facility contains two, one year extension options which could extend the maturity to September 2016. Borrowings under the Credit Facility bear interest on a per annum basis equal to the applicable LIBOR rate plus 2.5%. As of March 31, 2012, Main Street had \$138.0 million in outstanding borrowings under the Credit Facility, bearing interest at an annual interest rate of 2.8%.

As of March 31, 2012, Main Street had \$220 million of SBIC debenture leverage outstanding which bears a weighted average fixed interest rate of approximately 5.1%, paid semi-annually, and matures ten years from original issuance. The weighted average remaining duration for the existing SBIC leverage is approximately 6.4 years as of March 31, 2012.

Lower Middle Market ("LMM") Portfolio Information (all as of March 31, 2012) (3)

Main Street had debt and equity investments in 53 LMM companies collectively totaling approximately \$388.1 million in fair value with a total cost basis of approximately \$322.3 million. Approximately 77% of Main Street's LMM portfolio investments at cost were in the form of secured debt investments, and 98% of these debt investments were secured by first priority liens on the assets of portfolio companies. The weighted average annual effective yield on Main Street's LMM portfolio debt investments was 14.9%. (4)

Based on information provided by Main Street's LMM portfolio companies, which Main Street has not independently verified, the portfolio companies had a weighted average net senior debt (senior interest-bearing debt through Main Street's debt position less cash and cash equivalents) to EBITDA (Earnings Before Interest, Taxes, Depreciation and Amortization) ratio of approximately 2.0 to 1.0 and a total EBITDA to senior interest expense ratio of approximately 3.9 to 1.0.⁽⁵⁾ Including all debt that is junior in priority to Main Street's debt position, these ratios were approximately 2.4 to 1.0 and 3.6 to 1.0, respectively.⁽⁵⁾

Main Street had equity ownership in 92% of its LMM portfolio companies, and the average fully diluted equity ownership in those portfolio companies was approximately 33%. The fair value of Main Street's LMM portfolio company equity investments at March 31, 2012 was approximately 195% of the cost of such equity investments.

Based upon Main Street's internal investment rating system, with a rating of "1" being the highest and a rating of "5" being the lowest, the weighted average investment rating for Main Street's total LMM investment portfolio was 2.1 at March 31, 2012 compared to 2.2 at December 31, 2011.

Middle Market Portfolio Information (all as of March 31, 2012) (6)

Main Street had middle market portfolio investments in 62 companies collectively totaling approximately \$251.0 million in fair value with a total cost basis of approximately \$249.8 million. Middle market portfolio investments primarily include investments made through direct or secondary purchases of interest-bearing debt securities in companies that are generally larger in size than Main Street's LMM portfolio companies and are included in the "Non-Control/Non-Affiliate investments" section of Main Street's balance sheet. The weighted average revenues for the 62 middle market portfolio company investments was approximately \$476 million. Main Street's middle market portfolio investments are primarily in the form of debt investments, and 86% of such debt investments at cost were secured by first priority liens on portfolio company assets. The weighted average annual effective yield on Main Street's middle market portfolio debt investments was approximately 9.2%. (4)

Portfolio Quality

As of March 31, 2012, Main Street had no investments with positive fair value on non-accrual status and two fully impaired investments which comprised approximately 0.9% of the investment portfolio at cost. Main Street's total portfolio investments at fair value were approximately 111% of the related cost basis as of March 31, 2012.

- (1) Distributable net investment income and distributable net realized income are net investment income and net realized income, respectively, as determined in accordance with U.S. Generally Accepted Accounting Principles, or GAAP, excluding the impact of share-based compensation expense which is non-cash in nature. Main Street believes presenting distributable net investment income, distributable net realized income, and related per share measures is useful and appropriate supplemental disclosure for analyzing its financial performance since share-based compensation does not require settlement in cash. However, distributable net investment income and distributable net realized income are non-GAAP measures and should not be considered as a replacement for net investment income, net realized income, and other earnings measures presented in accordance with GAAP. Instead, distributable net investment income and distributable net realized income should be reviewed only in connection with such GAAP measures in analyzing Main Street's financial performance. A reconciliation of net investment income and net realized income in accordance with GAAP to distributable net investment income and distributable net realized income is detailed in the financial tables included with this press release.
- (2) Per share amounts exclude the earnings that were attributable to the remaining noncontrolling equity interest in Main Street Capital II, LP prior to Main Street's acquisition of the remaining noncontrolling equity interests during the first guarter of 2012.
- (3) All LMM portfolio information is calculated exclusive of Main Street's middle market portfolio investments, other portfolio investments, marketable securities and idle funds investments, and Main Street's investment in Main Street Capital Partners, LLC, the wholly owned Investment Manager. LMM portfolio company financial information has not been independently verified by Main Street.
- (4) Weighted average annual effective yield includes amortization of deferred debt origination fees and accretion of original issue discount, but excludes any liquidation fees payable upon repayment and any debt investments on non-accrual status.
- (5) Excludes one investment that is in the "rapid growth" phase of its business life cycle with high customer acquisition costs.
- (6) All middle market portfolio information is calculated exclusive of Main Street's LMM portfolio investments, other portfolio investments, marketable securities and idle funds investments, and Main Street's investment in Main Street Capital Partners, LLC, the wholly owned Investment Manager. Middle market portfolio company financial information has not been independently verified by Main Street.

ABOUT MAIN STREET CAPITAL CORPORATION

Main Street (www.mainstcapital.com) is a principal investment firm that primarily provides long-term debt and equity capital to lower middle market companies and debt capital to middle market companies. Main Street's portfolio investments are typically made to support management buyouts, recapitalizations, growth financings, refinancings and acquisitions of companies that operate in diverse industry sectors. Main Street seeks to partner with entrepreneurs, business owners and management teams and generally provides "one stop" financing alternatives within its lower middle market portfolio. Main Street's lower middle market companies generally have annual revenues between \$10 million and \$150 million. Main Street's middle market debt investments are in middle market businesses that are generally larger in size than its lower middle market portfolio companies.
