First Quarter 2015 Distributable Net Investment Income Per Share of \$0.54 Per Share

Net Asset Value Per Share Increased 5% During the First Quarter of 2015

HOUSTON, May 7, 2015 /PRNewswire/ -- Main Street Capital Corporation (NYSE: MAIN) ("Main Street") announced today its financial results for the first quarter ended March 31, 2015.

First Quarter 2015 Highlights

Total investment income of \$37.2 million, representing a 21% increase from the first quarter of 2014 Distributable net investment income of \$24.8 million (or \$0.54 per share), representing a 15% increase from the first quarter of 2014 ⁽¹⁾

Net investment income of \$23.5 million (or \$0.51 per share), representing a 13% increase from the first quarter of 2014

Maintained industry leading ratio of total operating expenses, excluding interest expense, as a percentage of quarterly average total assets ("Operating Expense to Assets Ratio"), of 1.4% in the first quarter of 2015 Net increase in net assets resulting from operations of \$35.4 million (or \$0.77 per share), representing a 30% increase from the first quarter of 2014

Net asset value of \$21.87 per share at March 31, 2015, representing an increase of \$1.02 per share, or 5%, compared to \$20.85 per share at December 31, 2014

Completed \$47.1 million in total lower middle market ("LMM") portfolio investments, including investments totaling \$35.2 million in two new LMM portfolio companies, which after aggregate repayments on debt principal and return of invested equity capital from several LMM portfolio investments resulted in a net increase of \$40.2 million in total LMM portfolio investments

Net increase of \$82.1 million in middle market portfolio investments

Net increase of \$37.5 million in private loan portfolio investments

Completed an underwritten public offering of shares of common stock at 149% of the then latest reported net asset value per share for approximately \$127.8 million in total net proceeds

In commenting on Main Street's results, Vincent D. Foster, Main Street's Chairman, President and Chief Executive Officer, stated, "We are pleased that our operating results for the first quarter of 2015 continued to demonstrate the unique benefits of our differentiated investment strategy and cost efficient operating structure. During the first quarter, we generated distributable net investment income per share which exceeded our regular monthly dividends paid during the quarter by over 5%, with this positive result coming after the impact of the 4.4 million additional shares of common stock we issued in our successful March equity offering. As a result, this quarter represents the seventeenth consecutive quarter through March 31, 2015 during which we generated distributable net investment income per share which exceeded our regular monthly dividends per share paid in the quarter and maintained our track record of never having paid a distribution that represented a return of capital. Our successful March equity offering also allowed us to improve our conservative capital structure, while maintaining significant liquidity available to facilitate the future growth of our investment portfolio."

Three Months Ended March 31

The \$6.4 million increase in total investment income was principally attributable to (i) a \$4.3 million increase in interest income primarily from higher average levels of portfolio debt investments, (ii) a \$1.1 million increase in dividend income from investment portfolio equity investments and (iii) a \$0.8 million increase in fee income.

The increase in total investment income in the first quarter ended March 31, 2015 included a \$0.6 million net decrease in the amount of total investment income related to accelerated prepayment and repricing activity for certain investment portfolio debt investments when compared to the same period in 2014.

Cash operating expenses (total operating expenses excluding non-cash, share-based compensation expense) increased to \$12.4 million in the first quarter of 2015 from \$9.2 million for the corresponding period of 2014. This comparable period increase in cash operating expenses was principally attributable to (i) a \$2.5 million increase in interest expense, primarily as a result of (a) the issuance of our 4.50% Notes due 2019 (the "4.50% Notes") in November 2014, and (b) an increase in interest expense from our Small Business Investment Company ("SBIC") debentures due to a higher average interest rate when compared to prior year, and (ii) a \$1.1 million increase in compensation expense related to increases in the number of personnel, base compensation and incentive compensation accruals. These operating expense increases were partially offset by a \$0.5 million increase in the expenses charged to our external investment manager, a wholly owned portfolio company and registered investment advisor that provides investment management services to third parties (the "External Investment Manager"), for services provided to the External Investment Manager. Our Operating Expense to Assets Ratio was 1.4% on an annualized basis for the quarter ended March 31, 2015, which is consistent with the ratio on an annualized basis for the quarter ended March 31, 2014 and for the year ended December 31, 2014.

The \$3.2 million increase in distributable net investment income, which is net investment income before non-cash, share-based compensation expense, was primarily due to the higher level of total investment income, partially offset by higher operating expenses as discussed above. Distributable net investment income on a per share basis for the first quarter ended March 31, 2015 reflects (i) a decrease of approximately \$0.02 per share from the comparable period in 2014 attributable to the net decrease in the comparable levels of accelerated prepayment and repricing activity for certain investment portfolio debt investments and (ii) a greater number of average shares outstanding compared to the corresponding period in 2014 primarily due to the April 2014 and March 2015 equity offerings.

The \$0.4 million decrease in distributable net realized income, which is net realized income before non-cash, share-based compensation expense, was primarily attributable to the \$3.2 million increase in total distributable net investment income as discussed above, offset by a \$3.6 million decrease in the net realized gain (loss) from investments from the comparable period in the prior year due to a net realized loss from investments of \$2.1 million for the first quarter ended March 31, 2015. The net realized loss from investments was primarily attributable to the net realized loss of \$2.6 million on the restructuring of an investment in our middle market portfolio, partially offset by net realized gains on several portfolio investments.

The \$8.2 million positive change in the net increase in net assets resulting from operations was primarily the result of (i) a \$2.8 million increase in net investment income, (ii) a \$7.0 million increase in the net change in unrealized

appreciation to \$13.8 million for the first quarter ended March 31, 2015 and (iii) a \$2.0 million decrease in the income tax provision from the prior year to an income tax benefit of \$0.3 million for the first quarter ended March 31, 2015, with these changes partially offset by a \$3.6 million decrease in the net realized gain (loss) from investments to a net realized loss of \$2.1 million for the first quarter ended March 31, 2015.

The following table provides a summary of the total net change in unrealized appreciation of \$13.8 million for the first quarter of 2015:

	Three Months Ended March 31, 2015

Net unrealized appreciation relating to marketable securities									0.3
Unrealized depreciation relating to SBIC debentures (c)									(0.7)
Total net unrealized appreciation								\$	13.8

- (a) LMM includes unrealized appreciation on 22 LMM portfolio investments and unrealized depreciation on 13 LMM portfolio investments.
- (b) Other includes \$9.3 million of unrealized appreciation relating to the External Investment Manager and \$0.4 million of net unrealized appreciation relating to the other portfolio.
- (c) Relates to unrealized depreciation on the SBIC debentures held by Main Street Capital II, LP which are accounted for on a fair value basis

The income tax benefit for the first quarter ended March 31, 2015 of \$0.3 million principally consisted of (i) a deferred tax benefit of \$0.7 million, which is primarily the result of deferred taxes on net unrealized depreciation on our portfolio investments held in our taxable subsidiaries and due to the change in net operating loss carryforwards, both of which are non-cash in nature, and (ii) other current taxes of \$0.4 million, which is primarily related to accruals for U.S. federal income and excise taxes, state and other taxes.

Liquidity and Capital Resources

As of March 31, 2015, we had \$22.0 million in cash and cash equivalents, \$9.9 million in marketable securities and idle funds investments and \$408.5 million of unused capacity under our long-term revolving credit facility ("Credit Facility"), which we maintain to support our investment and operating activities.

During the quarter ended March 31, 2015 and shortly thereafter, we took steps to enhance our capital structure. In March 2015, we completed a public equity offering of 4,370,000 shares of common stock, including the underwriters' full exercise of their option to purchase 570,000 additional shares, resulting in total net proceeds, including the exercise of the underwriters' option to purchase additional shares and after deducting underwriting discounts and estimated offering expenses payable by us, of approximately \$127.8 million. In April 2015, we increased the commitments and accordion capacity under our Credit Facility to \$597.5 million and \$750.0 million, respectively.

Several details regarding our capital structure as of March 31, 2015 are as follows:

Our Credit Facility contained \$572.5 million in total commitments from a diversified group of fifteen participating lenders plus an accordion feature which allows us to increase the total commitments under the facility up to \$650.0 million.

\$164.0 million in outstanding borrowings under our Credit Facility, bearing interest at an annual interest rate of 2.2%.

\$225.0 million of outstanding SBIC debentures through our two wholly owned SBIC subsidiaries. These debentures are guaranteed by the U.S. Small Business Administration, which had a weighted average annual fixed interest rate of approximately 4.2% as of March 31, 2015 and mature ten years from original issuance. The first maturity related to our SBIC debentures does not occur until 2017, and the remaining weighted average duration was approximately 6.3 years as of March 31, 2015.

\$175.0 million of five year 4.50% Notes outstanding that bear interest at a rate of 4.50% per year (the "4.50% Notes"). The 4.50% Notes mature on December 1, 2019 and may be redeemed in whole or in part at any time at our option subject to certain make whole provisions.

\$90.8 million of ten year 6.125% Notes outstanding that bear interest of 6.125% per year (the "6.125% Notes"). The 6.125% Notes mature on April 1, 2023, and may be redeemed in whole or in part at our option on or after April 1, 2018. The 6.125% Notes are listed on the New York Stock Exchange and trade under the symbol "MSCA."

Our net asset value totaled \$1,083.9 million, or \$21.87 per share.

Investment Portfolio Information as of March 31, 2015 (2)

The following table provides a summary of Main Street's investments in the LMM portfolio, middle market portfolio and private loan portfolio as of March 31, 2015:

	As of March 31, 2015					
		LMM (a)	Mid	dle Market	Pri	vate Loans
			(dollai	s in millions)		
Weighted-average annual effective yield (b)		68		89		37
Fair value	\$	778.3	\$	627.8	\$	247.7
Cost	\$	640.7	\$	642.8	\$	261.8
% of total investments at cost - debt		70.3%		99.1%		96.1%
% of total investments at cost - equity		29.7%		0.9%		3.9%
% of debt investments at cost secured by first priority lien		89.8%		85.2%		87.2%
Weighted-average annual effective yield (b)		13.1%		7.9%		9.9%
Average EBITDA (c)	\$	5.4	\$	95.8	\$	12.1

- (a) We had equity ownership in 94% of our LMM portfolio companies, and the average fully diluted equity ownership in those portfolio companies was approximately 36%.
- (b) The weighted-average annual effective yields were computed using the effective interest rates for all debt investments at cost as of March 31, 2015, including amortization of deferred debt origination fees and accretion of original issue discount but excluding fees payable upon repayment of the debt instruments and any debt investments on non-accrual status.
- (c) Average EBITDA is calculated using a simple average for the LMM portfolio and a weighted-average for the middle market and private loan portfolios. These calculations exclude three LMM portfolio companies, one middle market portfolio company and five private loan portfolio companies as EBITDA is not a meaningful valuation metric for our investments in these portfolio companies.

The fair value of our LMM portfolio company equity investments was approximately 187% of the cost of such equity investments. Our LMM portfolio companies had a median net senior debt (senior interest-bearing debt through our debt position less cash and cash equivalents) to EBITDA (Earnings Before Interest, Taxes, Depreciation and Amortization) ratio of 2.0 to 1.0 and a median total EBITDA to senior interest expense ratio of 4.0 to 1.0. Including all debt that is junior in priority to our debt position, these median ratios were 2.4 to 1.0 and 3.7 to 1.0, respectively. (2) Based upon our internal investment rating system, with a rating of "1" being the highest and a rating of "5" being the lowest, and with all new investments initially rated a "3", the weighted average investment rating for our total LMM investment portfolio was 2.2 as of March 31, 2015 and December 31, 2014.

As of March 31, 2015, we had other portfolio investments in six companies, collectively totaling approximately \$58.7 million in fair value and approximately \$55.6 million in cost basis and which comprised approximately 3.4% of our investment portfolio at fair value.

As of March 31, 2015, there was no cost basis in our investment in the External Investment Manager and this investment had a fair value of \$24.8 million, which comprised 1.4% of our investment portfolio at fair value.

As of March 31, 2015, we had five investments on non-accrual status, which comprised approximately 1.2% of the total investment portfolio at fair value and 3.9% of the total investment portfolio at cost. Our total portfolio

investments at fair value were approximately 109% of the related cost basis as of March 31, 2015.

External Investment Manager

The External Investment Manager maintains an investment sub-advisory relationship with HMS Income Fund, Inc., a non-publicly traded Business Development Company ("HMS Income"), and earns management fees for the services provided to HMS Income. During the first quarter of 2015, the External Investment Manager generated \$1.4 million of fee income from this relationship, and HMS Income ended the first quarter of 2015 with over \$700 million of total assets. The relationship with HMS Income benefited our net investment income by \$1.2 million in the first quarter of 2015 through a \$0.8 million reduction of our operating expenses for expenses we charged to the External Investment Manager for services we provided to the External Investment Manager and \$0.4 million of dividend income from the External Investment Manager. We expect the management fees earned by the External Investment Manager from the HMS Income relationship, and our related benefits, will continue to increase in 2015 as HMS Income continues its fund raising and portfolio investment activities.

First Quarter 2015 Financial Results Conference Call / Webcast

Main Street has scheduled a conference call for Friday, May 8, 2015 at 10:00 a.m. Eastern Time to discuss the first quarter 2015 financial results.

You may access the conference call by dialing 412-902-0030 at least 10 minutes prior to the start time. The conference call can also be accessed via a simultaneous webcast by logging into the investor relations section of the Main Street web site at http://www.mainstcapital.com.

A telephonic replay of the conference call will be available through Friday, May 15, 2015 and may be accessed by dialing 201-612-7415 and using the passcode 13607210#. An audio archive of the conference call will also be available on the investor relations section of the company's website at http://www.mainstcapital.com shortly after the call and will be accessible for approximately 90 days.

For a more detailed discussion of the financial and other information included in this press release, please refer to the Main Street Form 10-Q for the quarterly period ended March 31, 2015 to be filed with the Securities and Exchange Commission (www.sec.gov) and Main Street's First Quarter 2015 Investor Presentation to be posted on the investor relations section of the Main Street website at http://www.mainstcapital.com.

- (1) Distributable net investment income and distributable net realized income are net investment income and net realized income, respectively, as determined in accordance with U.S. Generally Accepted Accounting Principles, or U.S. GAAP, excluding the impact of share-based compensation expense which is non-cash in nature. Main Street believes presenting distributable net investment income, distributable net realized income, and related per share measures is useful and appropriate supplemental disclosure for analyzing its financial performance since share-based compensation does not require settlement in cash. However, distributable net investment income and distributable net realized income are non-U.S. GAAP measures and should not be considered as a replacement for net investment income, net realized income, and other earnings measures presented in accordance with U.S. GAAP. Instead, distributable net investment income and distributable net realized income should be reviewed only in connection with such U.S. GAAP measures in analyzing Main Street's financial performance. A reconciliation of net investment income and net realized income in accordance with U.S. GAAP to distributable net investment income and distributable net realized income is detailed in the financial tables included with this press release.
- (2) Portfolio company financial information has not been independently verified by Main Street.
