

Main Street Announces Second Quarter 2019 Results

Second Quarter 2019 Net Investment Income of \$0.63 Per Share

Second Quarter 2019 Distributable Net Investment Income of \$0.67 Per Share

HOUSTON, Aug. 8, 2019 /PRNewswire/ -- Main Street Capital Corporation (NYSE: MAIN) ("Main Street") is pleased to announce its financial results for the second quarter of 2019.

Second Quarter 2019 Highlights

Net investment income of \$39.6 million (or \$0.63 per share), compared to \$39.5 million (or \$0.66 per share) in the second quarter of 2018

Distributable net investment income ⁽¹⁾ of \$42.0 million (or \$0.67 per share), compared to \$41.9 million (or \$0.70 per share) in the second quarter of 2018

Total investment income of \$61.3 million, compared to \$59.9 million in the second quarter of 2018 Industry leading ratio of total non-interest operating expenses as a percentage of quarterly average total assets ("Operating Expenses to Assets Ratio") of 1.4% on an annualized basis for the quarter and 1.3% for the trailing twelve month ("TTM") period ended June 30, 2019

Net increase in net assets resulting from operations of \$38.3 million (or \$0.61 per share)

Net asset value of \$24.17 per share at June 30, 2019, representing an increase of \$0.08 per share, or 0.3%, compared to \$24.09 per share at December 31, 2018, or an increase of \$0.33 per share, or 1.4%, after excluding the effect of the semi-annual supplemental cash dividend paid in June 2019

Return on equity⁽²⁾ of 10.1% for the quarter and 10.6% for the TTM period ended June 30, 2019

Declared regular monthly dividends totaling \$0.615 per share for the third quarter of 2019, or \$0.205 per share for each of July, August and September 2019, representing a 7.9% increase from the regular monthly dividends paid for the third quarter of 2018

Completed \$31.7 million in total lower middle market ("LMM") portfolio investments, including an investment of \$15.1 million in one new LMM portfolio company, which after aggregate repayments of debt principal and return of invested equity capital from several LMM portfolio investments resulted in a net decrease of \$11.9 million in total LMM portfolio investments

Net decrease of \$41.1 million in middle market portfolio investments

Net increase of \$54.0 million in private loan portfolio investments

Further diversified our capital structure by issuing \$250.0 million of 5.20% Notes due 2024 ("5.20% Notes")

In commenting on Main Street's results, Dwayne L. Hyzak, Main Street's Chief Executive Officer, stated, "We are pleased with our operating results for the second quarter, a quarter during which the continued execution of our differentiated investment strategy and the leverage of our efficient, low cost operating structure facilitated favorable operating performance and financial results. As a result of our performance, we again generated distributable net investment income per share in excess of our regular monthly dividends, exceeding the regular monthly dividends paid during the quarter by approximately 12%. We believe that the advantages of our differentiated investment strategy and efficient operating structure, and our conservative capital structure and significant liquidity position, have us very well positioned for continued future success."

Second Quarter 2019 Operating Results

The following table provides a summary of our operating results for the second quarter of 2019:

	Three Months Ended June 30,

Net increase in net assets resulting from operations per share	\$ 0.61	\$ 0.93	\$ (0.32)	(34%)					

The \$1.4 million increase in total investment income in the second quarter of 2019 from the comparable period of the prior year was principally attributable to a \$3.0 million net increase in interest income primarily related to higher average levels of investment portfolio debt investments and an increase in the average effective yields, partially offset by (i) a \$0.9 million decrease in dividend income from investment portfolio equity investments and (ii) a \$0.6 million decrease in fee income. The \$1.4 million increase in total investment income in the second quarter of 2019 is net of the negative impacts of (i) a decrease of \$3.5 million related to elevated dividend income activity from certain investment portfolio equity investments that is considered to be less consistent on a recurring basis or non-recurring and (ii) a decrease of \$0.4 million related to lower accelerated prepayment, repricing and other activity for certain investment portfolio debt investments, both when compared to the same period in 2018.

Cash operating expenses (total operating expenses excluding non-cash, share-based compensation expense) increased to \$19.3 million in the second quarter of 2019 from \$17.9 million for the corresponding period of 2018. This comparable period increase in cash operating expenses was principally attributable to a \$1.5 million increase in interest expense, primarily due to the issuance of our 5.20% Notes, partially offset by decreased interest expense related to our revolving credit facility ("Credit Facility"). Our Operating Expenses to Assets Ratio for the second quarter of 2019 was 1.4% on an annualized basis, compared to 1.6% for the second quarter of prior year and 1.4% for the year ended December 31, 2018.

The \$0.1 million increase in net investment income in the second quarter of 2019 was principally attributable to the increase in total investment income, partially offset by higher operating expenses both as discussed above.

The \$0.1 million increase in distributable net investment income, which is net investment income before non-cash, share-based compensation expense, in the second quarter of 2019 was primarily due to the higher level of total investment income, partially offset by higher operating expenses both as discussed above. Distributable net investment income on a per share basis for the second quarter of 2019 includes the impacts of (i) a decrease of approximately \$0.06 per share from the comparable period in 2018 attributable to the net effect of the lower dividend income activity that is considered less recurring or non-recurring and the decrease in the comparable levels of accelerated prepayment, repricing and other activity as discussed above and (ii) a greater number of average shares outstanding compared to the corresponding period in 2018 primarily due to shares issued through our at-the-market, or ATM, program, shares issued pursuant to our equity incentive plans and shares issued pursuant to our dividend reinvestment plan.

The \$17.2 million decrease in the net increase in net assets resulting from operations in the second quarter of 2019 was primarily the result of (i) a \$28.1 million decrease in net unrealized appreciation (depreciation) from portfolio investments, including the impact of accounting reversals relating to realized gains/income (losses), and (ii) a \$2.1 million increase in the income tax provision, with these decreases partially offset by (i) a \$11.4 million improvement in the net realized gain (loss) from investments and (ii) a \$1.5 million decrease in the net realized loss on extinguishment of debt. The net realized loss from investments of \$2.6 million for the second quarter of 2019 was primarily the result of the realized loss of \$5.3 million resulting from the exit of a middle market investment, with this realized loss partially offset by (i) the realized gain of \$2.3 million resulting from the exit of a LMM investment and (ii) the realized gain of \$0.4 million resulting from the partial exit of a private loan investment.

The following table provides a summary of the total net unrealized appreciation of \$4.6 million for the second quarter of 2019:

- (a) LMM includes unrealized appreciation on 21 LMM portfolio investments and unrealized depreciation on 15 LMM portfolio investments.
- (b) Other includes (i) \$3.8 million of unrealized appreciation relating to the External Investment Manager, as defined below, and (ii) \$0.1 million of unrealized appreciation relating to the deferred compensation plan.
- (c) Relates to unrealized appreciation on the Small Business Investment Company ("SBIC") debentures previously issued by Main Street Capital II, LP which are accounted for on a fair value basis.

Liquidity and Capital Resources

As of June 30, 2019, we had \$70.5 million in cash and cash equivalents, \$583.0 million of unused capacity under our Credit Facility, which we maintain to support our investment and operating activities, and \$25.2 million of remaining SBIC debenture capacity.

Several details regarding our capital structure as of June 30, 2019 are as follows:

Our Credit Facility included \$705.0 million in total commitments from a diversified group of seventeen participating lenders, plus an accordion feature which allows us to increase the total commitments under the facility to up to \$800.0 million.

\$122.0 million in outstanding borrowings under our Credit Facility, bearing interest at an annual interest rate of 4.3%.

\$321.8 million of outstanding SBIC debentures through our three wholly owned SBIC subsidiaries. These debentures, which are guaranteed by the U.S. Small Business Administration, had a weighted-average annual fixed interest rate of approximately 3.6% and mature ten years from original issuance. The first maturity related to our SBIC debentures occurs in 2020, and the weighted-average remaining duration was approximately 5.5 years.

\$250.0 million of notes outstanding that bear interest at a rate of 5.20% per year. The 5.20% Notes mature on May 1, 2024 and may be redeemed in whole or in part at any time at our option subject to certain makewhole provisions.

\$185.0 million of notes outstanding that bear interest at a rate of 4.50% per year (the "4.50% Notes due 2022"). The 4.50% Notes due 2022 mature on December 1, 2022 and may be redeemed in whole or in part at any time at our option subject to certain make-whole provisions.

\$175.0 million of notes outstanding that bear interest at a rate of 4.50% per year (the "4.50% Notes due 2019"). The 4.50% Notes due 2019 mature on December 1, 2019 and may be redeemed in whole or in part at any time at our option subject to certain make-whole provisions.

Our net asset value totaled \$1,521.1 million, or \$24.17 per share.

Investment Portfolio Information as of June 30, 2019 (3)

The following table provides a summary of the investments in our LMM portfolio, middle market portfolio and private loan portfolio as of June 30, 2019:

	As of Julie 30, 2019								
		LMM (a)		dle Market	Private Loan				
	(dollars in millions)

Weighted-average annual effective yield (b)		12.1%		9.4%		10.2%			
Average EBITDA (c)	\$	4.7	\$	93.1	\$	53.0			

(a) We had equity ownership in 99% of our LMM portfolio companies, and the average fully diluted equity ownership in those portfolio companies was approximately 41%.

As of June 30, 2010

- (b) The weighted-average annual effective yields were computed using the effective interest rates for all debt investments at cost, including amortization of deferred debt origination fees and accretion of original issue discount but excluding fees payable upon repayment of the debt instruments and any debt investments on non-accrual status.
- (c) The average EBITDA is calculated using a simple average for the LMM portfolio and a weighted-average for the middle market and private loan portfolios. These calculations exclude certain portfolio companies, including two LMM portfolio companies, three middle market portfolio companies and three private loan portfolio companies, as EBITDA is not a meaningful valuation metric for our investments in these portfolio companies, and those portfolio companies whose primary purpose is to own real estate.

The fair value of our LMM portfolio company equity investments was approximately 177% of the cost of such equity investments and our LMM portfolio companies had a median net senior debt (senior interest-bearing debt through our debt position less cash and cash equivalents) to EBITDA (Earnings Before Interest, Taxes, Depreciation and Amortization) ratio of 3.3 to 1.0 and a median total EBITDA to senior interest expense ratio of 2.7 to 1.0. Including all debt that is junior in priority to our debt position, these median ratios were 3.7 to 1.0 and 2.6 to 1.0, respectively.⁽³⁾ (4)

As of June 30, 2019, we had other portfolio investments in eleven companies, collectively totaling \$111.1 million in fair value and \$119.3 million in cost basis, which comprised approximately 4.4% of our investment portfolio at fair value.

As of June 30, 2019, there was no cost basis in our investment in the External Investment Manager and this investment had a fair value of \$69.6 million, which comprised approximately 2.8% of our investment portfolio at fair value.

As of June 30, 2019, we had seven investments on non-accrual status, which comprised approximately 1.5% of the total investment portfolio at fair value and approximately 4.4% at cost. Our total portfolio investments at fair value were approximately 109% of the related cost basis as of June 30, 2019.

External Investment Manager

The External Investment Manager is a wholly owned portfolio company and registered investment advisor that provides investment management services to third parties. The External Investment Manager maintains an investment sub-advisory relationship with HMS Income Fund, Inc., a non-listed business development company ("HMS Income"), and earns management fees for the services provided to HMS Income. During the second quarter of 2019, the External Investment Manager generated \$4.1 million of fee income from this relationship, which consisted of \$2.8 million of base management fees and \$1.3 million in incentive fees, and HMS Income ended the second quarter of 2019 with total assets of approximately \$1.1 billion. The relationship with HMS Income benefited our net investment income by \$3.6 million in the second quarter of 2019 through a \$1.7 million reduction of our operating expenses for expenses we allocated to the External Investment Manager for services we provided to it and \$1.9 million of dividend income we received from the External Investment Manager.

Endnotes

- (1) Distributable net investment income is net investment income as determined in accordance with U.S. Generally Accepted Accounting Principles, or U.S. GAAP, excluding the impact of share-based compensation expense which is non-cash in nature. Main Street believes presenting distributable net investment income and the related per share amount is useful and appropriate supplemental disclosure for analyzing its financial performance since share-based compensation does not require settlement in cash. However, distributable net investment income is a non-U.S. GAAP measure and should not be considered as a replacement for net investment income and other earnings measures presented in accordance with U.S. GAAP. Instead, distributable net investment income should be reviewed only in connection with such U.S. GAAP measures in analyzing Main Street's financial performance. A reconciliation of net investment income in accordance with U.S. GAAP to distributable net investment income is detailed in the financial tables included with this press release.
- (2) Return on equity equals the net increase in net assets resulting from operations divided by the average quarterly total net assets for the applicable period.
- (3) Portfolio company financial information has not been independently verified by Main Street.
- (4) These credit statistics exclude certain portfolio companies for which EBITDA is not a meaningful metric for the statistic.
