In commenting on Main Street's results, Dwayne L. Hyzak, Main Street's Chief Executive Officer, stated, "We are pleased with our operating results for the third quarter, a quarter during which the performance, quality and diversity of our investment portfolio and the leverage of our efficient, low cost operating structure facilitated favorable operating performance and financial results. Despite the current market conditions, we've continued to focus our efforts on sourcing transactions that are consistent with our historical investment profile and on the aspects of our business where we have more control and influence. As a result of our performance, we again generated distributable net investment income per share in excess of our regular monthly dividends, exceeding the regular monthly dividends paid during the quarter by approximately 7%. We believe that the advantages of our differentiated investment strategy and efficient operating structure, and our conservative capital structure and

significant liquidity position, have us very well positioned for continued future success."

Third Quarter 2019 Operating Results

The following table provides a summary of our operating results for the third quarter of 2019:

	Three Months Ended September 30,			
	2019	2018	Change (\$)	Change (%)
Interest income	\$ 46,192	\$ 46,351	\$ (159)	(0%)

Fee income	1,384	3,402	(2,018)	(59%)
Total investment income	\$ 60,068	\$ 58,263	\$ 1,805	3%
Net investment income	\$ 39,012	\$ 38,075	\$ 937	2%
Net investment income per share	\$ 0.62	\$ 0.63	\$ (0.01)	(2%)
Distributable net investment income ⁽¹⁾	\$ 41,584	\$ 40,222	\$ 1,362	3%
Distributable net investment income per share ⁽¹⁾	\$ 0.66	\$ 0.66	\$ -	0%
Net increase in net assets resulting from operations	\$ 33,902	\$ 68,740	\$ (34,838)	(51%)
Net increase in net assets resulting from operations per share	\$ 0.54	\$ 1.13	\$ (0.59)	(52%)

The \$1.8 million increase in total investment income in the third quarter of 2019 from the comparable period of the prior year was principally attributable to a \$4.0 million increase in dividend income from investment portfolio equity investments, partially offset by (i) a \$2.0 million decrease in fee income and (ii) a \$0.2 million decrease in interest income. The \$1.8 million increase in total investment income in the third quarter of 2019 is net of the negative impact of a decrease of \$1.9 million related to lower accelerated prepayment, repricing and other activity for certain investment portfolio debt investments.

Cash operating expenses (total operating expenses excluding non-cash, share-based compensation expense) increased to \$18.5 million in the third quarter of 2019 from \$18.0 million for the corresponding period of 2018. This increase in cash operating expenses was principally attributable to a \$2.0 million increase in interest expense, partially offset by a \$1.5 million decrease in compensation expense primarily due to a decrease in incentive compensation accruals. The \$2.0 million increase in interest expense was primarily due to our 5.20% Notes, partially offset by decreased interest expense related to our revolving credit facility ("Credit Facility"). Our Operating Expenses to Assets Ratio for the third quarter of 2019 was 1.2% on an annualized basis, compared to 1.5% for the third quarter of prior year and 1.4% for the year ended December 31, 2018.

The \$0.9 million increase in net investment income in the third quarter of 2019 was principally attributable to the increase in total investment income, partially offset by higher operating expenses both as discussed above.

The \$1.4 million increase in distributable net investment income, which is net investment income before non-cash, share-based compensation expense, in the third quarter of 2019 was primarily due to the higher level of total investment income, partially offset by higher operating expenses both as discussed above. Distributable net investment income on a per share basis for the third quarter of 2019 includes the impacts of (i) a decrease of approximately \$0.03 per share from the comparable period in 2018 attributable to the decrease in the comparable levels of accelerated prepayment, repricing and other activity for certain investment portfolio debt investments as discussed above and (ii) a greater number of average shares outstanding compared to the corresponding period in 2018 primarily due to shares issued through our at-the-market, or ATM, program, shares issued pursuant to our equity incentive plans and shares issued pursuant to our dividend reinvestment plan.

The \$34.8 million decrease in the net increase in net assets resulting from operations in the third quarter of 2019 was primarily the result of (i) a \$28.2 million decrease in net unrealized appreciation (depreciation) from portfolio investments, including the impact of accounting reversals relating to realized gains/income (losses), and (ii) a \$15.1 million decrease in the net realized gain (loss) from investments, with these decreases partially offset by (i) a \$7.8 million benefit from the change in the income tax benefit (provision) and (ii) a \$0.9 million increase in net investment income as discussed above. The net realized loss from investments of \$5.9 million for the third quarter of 2019 was primarily the result of (i) the realized loss of \$7.0 million from the restructure of a middle market investment and (ii) the realized loss of \$6.9 million resulting from the exit of a middle market investment, with these realized losses partially offset by the realized gain of \$7.7 million resulting from the exit of two LMM investments.

The following table provides a summary of the total net unrealized depreciation of \$3.2 million for the third quarter of 2019:

	Three Months Ended September 30, 2019				
	LMM (a)	Middle Market	Private Loan (dollars in millions)	Other	Total
Accounting reversals of net unrealized (appreciation) depreciation recognized in prior periods due to net realized (gains / income) losses recognized during the current period	\$ (8.2)	\$ 13.9	\$ (0.9)	\$ -	\$ 4.8
Net unrealized appreciation (depreciation) relating to portfolio investments	2.7	(12.2)	1.5	0.3 (b)	(7.7)
Total net unrealized appreciation (depreciation) relating to portfolio investments	\$ (5.5)	\$ 1.7	\$ 0.6	\$ 0.3	\$ (2.9)
Unrealized depreciation relating to SBIC debentures (c)					(0.3)
Total net unrealized depreciation					\$ (3.2)

- (a) LMM includes unrealized appreciation on 27 LMM portfolio investments and unrealized depreciation on 17 LMM portfolio investments.
(b) Other includes (i) \$0.8 million of unrealized appreciation relating to the External Investment Manager, as defined below, partially offset by \$0.5 million of net unrealized depreciation relating to the other portfolio.
(c) Relates to unrealized appreciation on the Small Business Investment Company ("SBIC") debentures previously issued by Main Street Capital II, LP which are accounted for on a fair value basis.

Liquidity and Capital Resources

As of September 30, 2019, we had \$52.3 million in cash and cash equivalents, \$555.0 million of unused capacity under our Credit Facility, which we maintain to support our investment and operating activities, and \$35.2 million of remaining SBIC debenture capacity.

Several details regarding our capital structure as of September 30, 2019 are as follows:

Our Credit Facility included \$705.0 million in total commitments from a diversified group of seventeen participating lenders, plus an accordion feature which allows us to increase the total commitments under the facility to up to \$800.0 million.

\$150.0 million in outstanding borrowings under our Credit Facility, with an interest rate of 3.9% based on LIBOR as of September 30, 2019 and effective as of the contractual reset date on October 1, 2019.

\$311.8 million of outstanding SBIC debentures through our three wholly owned SBIC subsidiaries. These debentures, which are guaranteed by the U.S. Small Business Administration, had a weighted-average annual fixed interest rate of approximately 3.6% and mature ten years from original issuance. The first maturity related to our SBIC debentures occurs in 2020, and the weighted-average remaining duration was approximately 5.4 years.

\$250.0 million of notes outstanding that bear interest at a rate of 5.20% per year. The 5.20% Notes mature on May 1, 2024 and may be redeemed in whole or in part at any time at our option subject to certain make-whole provisions.

\$185.0 million of notes outstanding that bear interest at a rate of 4.50% per year (the "4.50% Notes due 2022"). The 4.50% Notes due 2022 mature on December 1, 2022 and may be redeemed in whole or in part at any time at our option subject to certain make-whole provisions.

\$175.0 million of notes outstanding that bear interest at a rate of 4.50% per year (the "4.50% Notes due 2019"). The 4.50% Notes due 2019 mature on December 1, 2019 and may be redeemed in whole or in part at any time at our option subject to certain make-whole provisions.

Our net asset value totaled \$1,532.1 million, or \$24.20 per share.

Investment Portfolio Information as of September 30, 2019 (2)

The following table provides a summary of the investments in our LMM portfolio, middle market portfolio and private loan portfolio as of September 30, 2019:

	As of September 30, 2019		
	LMM (a)	Middle Market (dollars in millions)	Private Loan
Number of portfolio companies	68	52	62
Fair value	\$ 1,199.6	\$ 548.7	\$ 627.9
Cost	\$ 987.7	\$ 589.4	\$ 662.3
% of portfolio at cost - debt	66.3%	95.0%	93.7%
% of portfolio at cost - equity	33.7%	5.0%	6.3%
% of debt investments at cost secured by first priority lien	98.1%	89.8%	94.4%
Weighted-average annual effective yield (b)	12.0%	8.9%	9.8%
Average EBITDA (c)	\$ 4.9	\$ 93.5	\$ 56.3

- (a) We had equity ownership in 99% of our LMM portfolio companies, and the average fully diluted equity ownership in those portfolio companies was approximately 41%.
- (b) The weighted-average annual effective yields were computed using the effective interest rates for all debt investments at cost, including amortization of deferred debt origination fees and accretion of original issue discount but excluding fees payable upon repayment of the debt instruments and any debt investments on non-accrual status.
- (c) The average EBITDA is calculated using a simple average for the LMM portfolio and a weighted-average for the middle market and private loan portfolios. These calculations exclude certain portfolio companies, including two LMM portfolio companies, two middle market portfolio companies and three private loan portfolio companies, as EBITDA is not a meaningful valuation metric for our investments in these portfolio companies, and those portfolio companies whose primary purpose is to own real estate.

The fair value of our LMM portfolio company equity investments was approximately 175% of the cost of such equity investments and our LMM portfolio companies had a median net senior debt (senior interest-bearing debt through our debt position less cash and cash equivalents) to EBITDA (Earnings Before Interest, Taxes, Depreciation and Amortization) ratio of 3.1 to 1.0 and a median total EBITDA to senior interest expense ratio of 2.9 to 1.0. Including all debt that is junior in priority to our debt position, these median ratios were 3.2 to 1.0 and 2.7 to 1.0, respectively.^{(2) (3)}

As of September 30, 2019, we had other portfolio investments in eleven companies, collectively totaling \$110.6 million in fair value and \$119.4 million in cost basis, which comprised approximately 4.3% of our investment portfolio at fair value.

As of September 30, 2019, there was no cost basis in our investment in the External Investment Manager and this investment had a fair value of \$70.3 million, which comprised approximately 2.8% of our investment portfolio at fair value.

As of September 30, 2019, we had seven investments on non-accrual status, which comprised approximately 1.6% of the total investment portfolio at fair value and approximately 4.4% at cost. Our total portfolio investments at fair value were approximately 108% of the related cost basis as of September 30, 2019.

External Investment Manager

The External Investment Manager is a wholly owned portfolio company and registered investment advisor that provides investment management services to third parties. The External Investment Manager maintains an investment sub-advisory relationship with HMS Income Fund, Inc., a non-listed business development company ("HMS Income"), and earns management fees for the services provided to HMS Income. During the third quarter of 2019, the External Investment Manager generated \$2.9 million of fee income from this relationship, which consisted of \$2.7 million of base management fees and \$0.2 million in incentive fees, and HMS Income ended the third quarter of 2019 with total assets of approximately \$1.1 billion. The relationship with HMS Income benefited our net investment income by \$2.6 million in the third quarter of 2019 through a \$1.7 million reduction of our operating expenses for expenses we allocated to the External Investment Manager for services we provided to it and \$1.0 million of dividend income we received from the External Investment Manager.

Endnotes

(1) Distributable net investment income is net investment income as determined in accordance with U.S. Generally Accepted Accounting Principles, or U.S. GAAP, excluding the impact of share-based compensation expense which is non-cash in nature. Main Street believes presenting distributable net investment income and the related per share amount is useful and appropriate supplemental disclosure for analyzing its financial performance since share-based compensation does not require settlement in cash. However, distributable net investment income is a non-U.S. GAAP measure and should not be considered as a replacement for net investment income and other earnings measures presented in accordance with U.S. GAAP. Instead, distributable net investment income should be reviewed only in connection with such U.S. GAAP measures in analyzing Main Street's financial performance. A reconciliation of net investment income in accordance with U.S. GAAP to distributable net investment income is detailed in the financial tables included with this press release.

(2) Portfolio company financial information has not been independently verified by Main Street.

(3) These credit statistics exclude certain portfolio companies for which EBITDA is not a meaningful metric for the statistic.
