Viveve Announces Closing of Public Offering of Shares of Common Stock

ENGLEWOOD, Colo., Dec. 11, 2018 (GLOBE NEWSWIRE) -- Viveve Medical, Inc. ("Viveve") (NASDAQ: VIVE), a medical technology company focused on women's intimate health, today announced the closing of its previously announced underwritten public offering of 13,333,334 shares of its common stock at a public offering price of \$1.50 per share. The net proceeds to Viveve from the offering were approximately \$18.8 million, after deducting underwriting discounts and commissions (but before deducting estimated offering expenses payable by the Company). Viveve intends to use the net proceeds from this offering to support the continued commercialization of its products in North America and internationally, to obtain additional regulatory clearances and to conduct the VIVEVE II Sexual Function and LIBERATE – International and LIBERATE – U.S. stress urinary incontinence (SUI) clinical trials, and for general corporate and working capital purposes.

In addition, Viveve has granted the underwriters a 30-day option to purchase up to an additional 1,999,999 shares of common stock.

Cowen acted as sole book-running manager of the offering. Raymond James acted as lead manager for the offering. Mizuho Securities acted as co-manager for the offering.

This announcement shall not constitute an offer to sell or a solicitation of an offer to buy these securities nor shall there be any offer or sale of these securities in any state or jurisdiction in which such an offer, solicitation or sale would be unlawful.

The securities described above were offered by Viveve pursuant to Viveve's registration statements on Form S-3 (File Nos. 333-221432 and 333-213682) previously filed and declared effective by the U.S. Securities and Exchange Commission (the "SEC"). Copies of the final prospectus supplement and accompanying prospectuses filed with the SEC can be obtained from Cowen and Company, LLC, c/o Broadridge Financial Solutions, 1155 Long Island Avenue, Edgewood, New York 11717, Attn: Prospectus Department, or by email at PostSaleManualRequests@broadridge.com, or by accessing the SEC's website, www.sec.gov.

About Viveve

Viveve Medical, Inc. is a women's intimate health company committed to advancing new solutions to improve women's overall well-being and quality of life. The internationally patented Viveve® System, that delivers the Viveve treatment, incorporates cryogen-cooled, monopolar radiofrequency (CMRF) technology to uniformly deliver volumetric heating while gently cooling surface tissue to generate neocollagenesis in a single in-office session.

International regulatory approvals and clearances have been received for vaginal laxity and/or improvement in sexual function indications in over 50 countries. In the second quarter of 2018, Viveve initiated VIVEVE II, a multicenter, randomized, double-blind, sham-controlled

clinical trial to assess improvement of sexual function in women following vaginal childbirth after receiving approval of an Investigational Device Exemption (IDE) application from the U.S. Food and Drug Administration (FDA) in March of 2018. If successful, this trial could support a marketing application for a new U.S. commercial indication. Currently, in the United States, the Viveve System is cleared by the FDA for use in general surgical procedures for electrocoagulation and hemostasis.

Viveve has initiated LIBERATE-International, one of two planned independent, multicenter, randomized registration trials for the improvement of SUI in women and plans to re-submit an IDE to the FDA for LIBERATE-U.S., after conducting certain safety testing in the third quarter of 2019. The results of these two trials, if successful, could support marketing applications in the U.S. and additional countries around the world for this new commercial indication.
