This represents our 13th consecutive quarter of positive cash flow from continuing operations and our 9th consecutive quarter of positive free cash flow. Revenue from continuing operations remained stable year-over-year, supported by consistent performance across our key Northeast markets of New Jersey, Maryland, and Pennsylvania. In New Jersey, we maintained our leadership position, according to BDSA, and in Pennsylvania, four of our six stores ranked among the top ten statewide. In Maryland, our success story continues with a 14.8% increase in revenue year-over-year and gross margin in the high 50’s,” said Jason Wild, Executive Chairman of TerrAscend.

“Since announcing our decision to exit the Michigan market, we have made significant progress and remain on track to complete these divestitures by year-end. At the same time, we continue to evaluate strategic opportunities through a disciplined M&A approach. Our fundamentals are improving, our balance sheet remains strong with increased cash and no material debt maturities for several years, and we are well-positioned to benefit from potential state and federal regulatory developments,” concluded Mr. Wild.

About TerrAscend

TerrAscend is a leading TSX-listed cannabis company with interests across the North American cannabis sector, including operations in Pennsylvania, New Jersey, Maryland, Ohio, and California through TerrAscend Growth Corp. and retail operations in Canada. TerrAscend operates The Apothecarium and other dispensary retail locations as well as scaled cultivation, processing, and manufacturing facilities in its core markets. TerrAscend's

cultivation and manufacturing practices yield consistent, high-quality cannabis, providing industry-leading product selection to both the medical and legal adult-use markets. The Company owns or licenses several synergistic businesses and brands including The Apothecarium, Cookies, Ilera Healthcare, Kind Tree, Legend, State Flower, Wana, and Valhalla Confections. For more information visit www.terrascend.com.

Caution Regarding Cannabis Operations in the United States

Investors should note that there are significant legal restrictions and regulations that govern the cannabis industry in the United States. Cannabis remains a Schedule I drug under the U.S. Controlled Substances Act, making it illegal under federal law in the United States to, among other things, cultivate, distribute or possess cannabis in the United States. Financial transactions involving proceeds generated by, or intended to promote, cannabis-related business activities in the United States may form the basis for prosecution under applicable US federal money laundering legislation.

While the approach to enforcement of such laws by the federal government in the United States has trended toward non-enforcement against individuals and businesses that comply with medical or adult-use cannabis programs in states where such programs are legal, strict compliance with state laws with respect to cannabis will neither absolve TerrAscend of liability under U.S. federal law, nor will it provide a defense to any federal proceeding which may be brought against TerrAscend. The enforcement of federal laws in the United States is a significant risk to the business of TerrAscend and any proceedings brought against TerrAscend thereunder may adversely affect TerrAscend's operations and financial performance.

Definition and Reconciliation of Non-GAAP Measures

In addition to reporting the financial results in accordance with GAAP, the Company reports certain financial results that differ from what is reported under GAAP. Non-GAAP measures used by management do not have any standardized meaning prescribed by GAAP and may not be comparable to similar measures presented by other companies. The Company believes that certain investors and analysts use these measures to measure a company's ability to meet other payment obligations or as a common measurement to value companies in the cannabis industry, and the Company calculates: (i) Free cash flow from net cash provided by operating activities from continuing operations less capital expenditures for property and equipment, which management believes is an important measurement of the Company's ability to generate additional cash from its business operations, and (ii) EBITDA from continuing operations and Adjusted EBITDA from continuing operations as net loss, adjusted to exclude provision for income taxes, finance expenses, depreciation and amortization, share-based compensation, loss on extinguishment of debt, (gain) loss from revaluation of contingent consideration, unrealized and realized (gain) loss on investments, unrealized and realized foreign exchange (gain) loss, loss (gain) on fair value of derivative liabilities, impairment of property and equipment and right of use assets, gain on lease termination, and certain other items, which management believes is not reflective of the ongoing operations and performance of the Company. Such information is intended to provide additional information and should not be considered in isolation or as a substitute for measures of performance prepared in accordance with GAAP.
