

## Enabling Connectivity Across the Globe

Supplying Essential Semiconductor Solutions Worldwide

Our product portfolio includes capital equipment and related consumables for the entire range of semiconductor fabrication, advanced packaging and electronics manufacturing - starting with substrate processing and extending to electronics assembly

**Amtech Systems, Inc.** is a leading, global manufacturer of equipment and consumables for semiconductor fabrication and packaging. We sell process equipment and services used in the fabrication of semiconductor devices, such as silicon carbide (SiC), silicon power, electronic assemblies and modules to semiconductor device and module manufacturers worldwide, particularly in Asia, North America and Europe. Our strategic focus is on growth opportunities which leverage our strengths in thermal and substrate processing. Amtech's products are recognized under the leading brand names BTU International, Entrepix, Inc., PR Hoffman™ and Intersurface Dynamics, Inc.

Focused on manufacturing innovation in two end markets:

### Thermal Processing Solutions (TPS):

equipment used in key thermal processes for packaging and assembling chips

- Successful development of new generation reflow equipment/technologies
- Successful development of 300mm Analog/Power Chip diffusion furnace

### Semiconductor Fabrication Solutions (SFS):

SiC/GaN, Si, LED, lapping and polishing consumables and machines
