## **NON-GAAP FINANCIAL MEASURES**

Certain statements in this report contain non-GAAP financial measures. GAAP refers to generally accepted accounting principles in the United States. A "non-GAAP financial measure" is a numerical measure of a registrant's historical or future financial performance, financial position, or cash flows that excludes amounts, or is subject to adjustments that have the effect of excluding amounts, that are included in the most directly comparable measure calculated and presented in accordance with GAAP in the statements of operations, balance sheets, or statements of cash flows of the company; or includes amounts, or is subject to adjustments that have the effect of including amounts, that are excluded from the most directly comparable measure so calculated and presented. Operating and statistical measures and certain ratios and other statistical measures are not non-GAAP financial measures.

Brunswick's management believes that non-GAAP financial measures and the information they provide are useful to investors because they permit investors to view Brunswick's performance using the same tools that Brunswick uses and to better evaluate Brunswick's ongoing business performance. Diluted earnings per common share (EPS), as adjusted refers to diluted earnings (loss) per common share from continuing operations, excluding the earnings per share impact of restructuring, exit, and impairment charges; purchase accounting amortization; acquisition and IT-related costs; pension settlement charges; transaction financing charges; special tax items; and other applicable charges. Brunswick defines adjusted operating earnings as operating earnings (loss), excluding the earnings impact of restructuring, exit, and impairment charges; purchase accounting amortization; acquisition and IT-related costs; and other non-recurring or applicable charges. Brunswick defines free cash flow as cash flow from operating and investing activities of continuing operations (excluding cash provided by or used for acquisitions, investments, purchases or sales/maturities of marketable securities and other investing activities) and the effect of exchange rate changes on cash and cash equivalents.

Brunswick does not provide forward-looking guidance for certain financial measures on a GAAP basis because it is unable to predict certain items contained in the GAAP measures without unreasonable efforts. These items may include restructuring, exit, and impairment charges, special tax items, acquisition-related costs, and certain other unusual adjustments. To reflect the impact of changes in currency exchange rates on net sales, Brunswick may use constant currency reporting. To present this information, net sales transacted in currencies other than U.S. dollars are translated to U.S. dollars using prior year exchange rates for the comparative period, using the average exchange rates in effect during that period. The percentage change in net sales expressed on a constant currency basis may better reflect changes in the underlying business trends, excluding the impact of translation arising from foreign currency exchange rate fluctuations.

## **FORWARD-LOOKING STATEMENTS**

Certain statements in this Annual Report are forward looking as defined in the Private Securities Litigation Reform Act of 1995. Such statements are based on current expectations, estimates, and projections about our business. Forward-looking statements by their nature address matters that are, to different degrees, uncertain and often contain words such as "may," "could," "expect," "intend," "plan," "seek," "estimate," "believe," "predict," "potential," "continue," "project," "target," or "forecast." These statements are not guarantees of future performance and involve certain risks and uncertainties that may cause actual results to differ materially from expectations as of the date of this report. For a description of these risks, see the Risk Factors section and forward-looking statements section in the Management's Discussion and Analysis in the attached Annual Report on Form 10-K for the fiscal year ended December 31, 2020.
