## **SEI Adds \$450 Million in Nonprofit Institutional Assets in First Half of Year**

### **Growth Signals Continued Nonprofit Investment Outsourcing Trend**

OAKS, Pa., Aug. 9 /PRNewswire-FirstCall/ -- SEI (Nasdaq: SEIC) today announced that the company received commitments from nine new nonprofit clients, adding \$450 million in new foundation and endowment assets under management in the first half of 2007. Among SEI's new North American nonprofit clients are Jewish Federation of San Antonio, Jewish Community Foundation of Southern Arizona, Southwest Florida Community Foundation, The Orchard School and The Sir Mortimer B. Davis Jewish General Hospital Foundation. In the past 18 months, SEI has added 22 new nonprofit clients and close to \$1.5 billion in new nonprofit assets under management, further validating the ongoing investment management outsourcing trend among larger nonprofit organizations.

"Nonprofit investment committees continue to realize the value that a partner like SEI can bring towards helping their organization achieve their investment goals and overall mission," said Carolyn McLaurin, Vice President and Managing Director of SEI's Nonprofit Group. "This growth is a clear indication that committees understand the benefits of outsourcing manager selection in an effort to allow them to focus more on strategic investment decisions and oversight."

SEI's nonprofit business continues to expand as the organization now has over 100 nonprofit institutional clients and \$5.5 billion in nonprofit institutional assets under management. One factor influencing SEI's growth is the emerging outsourcing trend among investment committees for larger nonprofit organizations. In the past 18 months, four new clients each outsourced more than \$150 million in assets to SEI.

SEI's new nonprofit clients pointed to several key differentiators in the decision-making process, including the company's successful track record in helping a variety of nonprofit organizations including community foundations and educational institutions. Additional differentiators included SEI's customized solutions designed to provide additional fiduciary protection, increased diversification, access to global investment products and research and strategic advice aligned with clients' objectives.

About SEI's Institutional Group

SEI's Institutional Group delivers integrated nonprofit, healthcare and retirement solutions to over 490 global institutional clients in seven different countries (320 of which are U.S. institutional clients).
