SEI Reports First-Quarter 2010 Financial Results

OAKS, Pa., April 28 /PRNewswire-FirstCall/ -- SEI Investments Company (Nasdaq: SEIC) today announced financial results for first-quarter 2010, reporting an increase in net income attributable to SEI, and diluted earnings per share compared to first-quarter 2009. Diluted earnings per share were \$0.31. Earnings were positively affected as a result of an increase in value of Structured Investment Vehicle (SIV) securities held on the company's balance sheet due to cash flow from, and market appreciation of, the securities. First-quarter 2010 results reflect the deconsolidation of LSV Asset Management (LSV) returning to the equity method of accounting. This change in accounting treatment had no impact on net income attributable to SEI. Without LSV, revenues grew \$13 million or six percent compared to first-quarter 2009.

Diluted Earnings Per Share	\$0.31	\$0.18	72%

"Compared to a year ago, our first-quarter results reflect improving capital markets, the effects of last year's cost reduction initiatives, and cash and non-cash enhancements to the value of the SIVs on our balance sheet," said Alfred P. West, Jr., SEI Chairman and CEO.

"Our new sales activities are beginning to show results in a healthier economic climate, and we believe there are opportunities in all our segments to achieve growth in new business. In

addition, we continue to make key investments in our company that will create long-term growth opportunities for us and for our clients."

First-Quarter Business Commentary:

- In January 2010, LSV was deconsolidated due to the adoption of newly issued accounting guidance. Our ownership interest in LSV was unchanged and our proportionate share in the earnings of LSV is reflected in "Equity in earnings of unconsolidated affiliate" on our Consolidated Statements of Operations. The deconsolidation of LSV had no impact on net income attributable to SEI or diluted earnings per share.
- Revenues in first-quarter 2009 include \$40.2 million from LSV. Excluding these revenues, revenues in first-quarter 2010 increased \$13.1 million or six percent compared to first-quarter 2009. This increase was due to higher asset balances under management and administration from existing clients because of improved capital markets.
- Revenues in fourth-quarter 2009 include \$62.5 million from LSV. Excluding these revenues, revenues in first-quarter 2010 were essentially flat versus fourth-quarter 2009.
- First-quarter 2010 revenues in the Private Banks segment decreased compared to first-quarter 2009 due to lower trade-execution fees from reduced trading activity as well as lower investment processing fees from bank clients previously reported to be involved in mergers and acquisitions.
- Expenses in the Private Banks segment during the first-quarter 2010 include a one-time charge of \$1.8 million related to a reduction in workforce.
- The first-quarter 2010 net income attributable to SEI and diluted earnings per share results include gains of \$17.3 million associated with SIV-related issues, of which \$10.7 million is from cash distributions received for note principal payments, whereas results in first-quarter 2009 included losses of \$14.4 million. SEI has recognized cumulative losses of \$171.7 million associated with these SIV-related issues through March 31, 2010. Additional information pertaining to SIV-related issues involving SEI-sponsored money market funds is contained in SEI's 2009 Form 10-K filed February 25, 2010.
- Assets under management increased by \$3.0 billion during the first-quarter 2010 to \$161.9 billion, primarily due to market appreciation.
- In the first quarter, SEI purchased 1,020,000 shares of its common stock for \$19.5 million.
