## SEI Named Best Service Provider in Hedge Funds World Awards Middle East

OAKS, PA -- (Marketwire) -- 04/23/12 -- SEI (NASDAQ: SEIC) today announced that it was named "Best Service Provider" at the 2012 Hedge Funds World Awards Middle East, recently held in Dubai, UAE. The awards, organized by Terrapinn, celebrate the achievements of individuals and companies that have positively contributed to the generation of absolute returns for Middle East investors. The award is recognition of SEI's technologically-advanced solutions, along with its experience in servicing investment managers in the Middle East.

"We're pleased to be named Best Service Provider as it is an independent recognition of the dedication of our employees and the high level of service we provide to our clients," said [Steve Meyer](#), Executive Vice President and Head of SEI's [Investment Manager Services](#) division. "We've always believed that operations, done right with a strategic focus, can be a differentiator and a competitive advantage for investment managers. As a technology-driven platform provider, we've invested in creating services that help managers increase transparency, mitigate their risks, and deliver more meaningful reporting and communications across all fund structures and asset classes -- indeed, across all aspects of their business. Our goal is to help make our clients succeed, and if we do that, we in turn will be successful. We're proud to see that focus paying off."

SEI provides investment managers with a comprehensive outsourcing solution that includes front-, middle-, and back-office services. Among the reasons SEI was selected include its ability to provide managers of systematic and high-frequency trading strategies with a more automated and scalable infrastructure. SEI incorporates automation, workflow processes, and controls to facilitate a straight-through-processing environment that currently processes up to 120,000 trades per day for some of its high-volume clients.
