#### First-Quarter Business Commentary:

- Revenues increased in first-quarter 2013 as compared to both first-quarter 2012 and fourth-quarter 2012. Gains were realized in all core business segments and all major product lines, including Asset management, administration, and distribution fees and Information processing and software servicing fees.
- Net income attributable to SEI increased in first-quarter 2013 as compared to both first-quarter 2012 and fourth-quarter 2012. This was driven by the increase in first-quarter 2013 revenues when compared to both periods. Additionally, the previously disclosed sale of SEI Asset Korea was completed on March 28, 2013 resulting in a gain of \$22.1 million, or \$.08 diluted earnings per share.
- Our average assets under management, excluding LSV, increased \$20.9 billion, or 17 percent, to \$145.0 billion in the first-quarter 2013, as compared to \$124.1 billion during the first-quarter 2012, and increased \$6.5 billion, or five percent, as compared to \$138.5 billion during the fourth-quarter 2012. Ending asset balances for the first-quarter 2013 do not include assets related to SEI Asset Korea (see attached Ending and Average Asset Balances schedules for further details).
- Sales events, net of client losses, during first-quarter 2013 totaled approximately \$19.6 million and are expected to generate net annualized recurring revenues of approximately \$16.8 million when contract values are fully realized.

- Income from LSV increased in first-quarter 2013 to \$27.8 million as compared to \$27.3 million in first-quarter 2012 due to an increase in assets under management. Our ownership interest in LSV was approximately 39.8 percent in first-quarter 2013 and 41.2 percent in first-quarter 2012.
- The effective tax rates were 34.9 percent in first-quarter 2013 and 37.2 percent in first-quarter 2012 and 35.0 percent in fourth-quarter 2012. The first-quarter 2013 tax rate was benefited by the reinstatement of the research and development tax credit partially offset by additional foreign taxes caused by the sale of SEI Asset Korea. The increase in the tax rate in the first-quarter 2012 was due to the expiration of the research and development tax credits. The fourth-quarter 2012 tax rate was benefited by state tax planning.
- In first-quarter 2013, we repurchased 1.3 million shares of our common stock for \$36.2 million.
