Third-Quarter Business Highlights:

- Revenue growth was primarily driven by higher Asset management, administration, and distribution fees from improved cash flows from new and existing clients and the favorable market conditions which prevailed during the first six months of 2015. The recent market volatility during third-quarter 2015 negatively impacted our asset-based fee revenues and partially offset our revenue growth.
- Sales events, net of client losses, during third-quarter 2015 totaled approximately \$20.8 million and are expected to generate net annualized recurring revenues of approximately \$19.5 million when contract values are fully realized.
- Despite the unfavorable market conditions during third-quarter 2015, our average assets under management, excluding LSV, increased \$4.4 billion, or three percent, to \$172.8 billion, as compared to \$168.5 billion during the third-quarter 2014 (see attached Average Asset Balances schedules for further details).
- Our average assets under administration increased \$37.4 billion, or ten percent, to \$397.8 billion in the third-quarter 2015, as compared to \$360.4 billion during the thirdquarter 2014 (see attached Average Asset Balances schedules for further details).
- Our earnings from LSV decreased by \$4.6 million, or 12 percent, to \$33.6 million in third-quarter 2015 as compared to \$38.2 million in third-quarter 2014. The reduction in earnings was due to lower assets under management from market volatility in third-quarter 2015 as well as reduced performance fees earned by LSV.
- We wrote off approximately \$6.0 million, or \$0.02 diluted earnings per share, in previously capitalized software development costs and purchased software related to the SEI Wealth Platform in the third-quarter 2015. The expense associated with this write off impacted the Private Banks segment by \$3.6 million and the Investment Advisors segment by \$2.4 million, and is reflected in Facilities, supplies and other costs on the Consolidated Statement of Operations.
- Amortization expense related to the SEI Wealth Platform was \$10.8 million during the third-quarter 2015 as compared to \$9.8 million during the third-quarter 2014 due to continued enhancements.
- Our operating expenses related to personnel costs in our Investment Advisors and Investment Managers segments increased. These increased operational costs are mainly related to servicing new and existing clients.
- Our effective tax rates were 34.1 percent in third-quarter 2015 and 34.7 percent in third-quarter 2014.
- We repurchased 1.7 million shares of our common stock for \$85.8 million during the third-quarter 2015.
