

Equinix Political Contributions Report

Under Equinix’s Political Contributions Policy, we are committed to reporting the details of any contribution—including identification of the organization or candidate, and amount contributed—in a political contributions report published on a semi-annual basis. This report also discloses details of our trade associations with membership dues of \$50,000 or more.

July 2022

The following report reflects political contribution activities by Equinix for the six months between **January 1, 2022 and June 30, 2022**.

Political contributions:

- Equinix currently does not have a corporate Political Action Committee (PAC).
- For the time period between January 1, 2022, through June 30, 2022, Equinix did not make any contributions at any level of government to political campaigns, political parties, or other organizations that are involved in political campaigns.
- As required under the Lobby Disclosure Act, Equinix filed its Lobbying Contribution Report (report form LDA-203) with the U.S. Congress in July 2022. This filing covers activities from January 1, 2022 through June 30, 2022. The Lobby Contribution Report requires entities to disclose PACs that they control as well as contributions of more than \$200 made to federal candidates and other PACs, federal campaigns, and party committees. Entities are also required to disclose contributions made to events or organizations that are named for or are in honor of congressional or executive branch officials.
- The Equinix Lobby Contribution Report, accordingly, indicates that no political contributions were made in the specified time period. The report can be found [here](#).

Trade association participation:

- Equinix belongs to three trade associations to which it pays membership dues of \$50,000 or more. The Information Technology Industry Council (ITI; www.itic.org). The Data Center Coalition (DCC; <https://www.datacentercoalition.org/>). The National Association of Real Estate Investment Trusts (NAREIT; <https://www.reit.com/nareit>).
