Ensysce Biosciences Releases Updated Investor Presentation Ahead of Corporate Update Call

~ Call to be Held Today, August 17, 2022 at 11am ET ~

SAN DIEGO, CA / ACCESSWIRE / August 17, 2022 [Ensysce Biosciences, Inc.](https://www.ensysce.com/) ("Ensysce" or the "Company") (NASDAQ:ENSC)(OTC PINK:ENSCW), a clinical-stage biotech company applying transformative chemistry to improve prescription drug safety and performance focused on reducing abuse and overdose, today released an updated investor presentation to its investor relations website accessible via <https://ir.ensysce.com/>.

The investor presentation has been updated to reflect the previously [released](#) data from the Part B, Bioequivalence (BE) arm of the PF614-102 study examining the Company's novel Trypsin-Activated Abuse-Protected (TAAP) opioid, PF614. The BE study follows the successful completion of the multi-ascending twice-daily dosing study of PF614 and compared the release of oxycodone from PF614 versus OxyContin® administered to subjects in both fasted and fed states.

About Ensysce Biosciences

Ensysce Biosciences, based in San Diego, CA is a clinical-stage biotech company using its

two novel proprietary technology platforms to develop safer prescription drugs. Leveraging its Trypsin-Activated Abuse Protection (TAAP) and Multi-Pill Abuse Resistance (MPAR™) platforms, the Company is seeking to develop next-generation, tamper-proof opioids that prevent both drug abuse and overdoses. Ensysce's products are expected to provide safer options to treat severe pain and assist in preventing deaths caused by opioid abuse, reducing the human and economic costs. The platforms are covered by an extensive worldwide intellectual property portfolio encompassing a wide array of prescription drugs. For more information, please visit www.ensysce.com.
