WiSA Technologies Q3 2024 and Recent Operating Highlights

- Hired Stanley Mbugua as Vice President of Finance, who will also assume the role of Chief Accounting Officer, effective November 30, 2024.
- Achieved WiSA E wireless milestone with immersive audio software embedded onto an Amlogic reference design, which became available for customer implementation and showcased the IBC show in Amsterdam.
- Executed licensing agreements with leading HDTV brands, covering 43% of the HDTV market that uses the Android operating system.

Q3 2024 and Subsequent Financial Highlights

- Q3 2024 revenue was \$1.2 million, up 52% from \$0.8 million in Q3 2023. The increase in revenue was a result of an increase in Components sales of \$0.7 million, partially offset by a decrease in Consumer Audio Product sales of \$0.3 million.
- Q3 2024 gross margin as a percentage of sales was 19%, compared to negative 217% in Q3 2023. The improvement in gross margin compared to the prior period is mainly attributable to an increase of \$0.4 million increase in revenue between comparison periods and due to the fact that Q3 2023 included a \$1.4 million increase in inventory reserves whereas Q3 2024 had only a nominal increase in inventory reserves.
- Held \$3.9 million cash at September 30, 2024.
