## About Neighborhood Pay Services

Neighborhood Pay Services (NPS) specializes in programs that mitigate payment risk in a diverse credit environment where traditional payment tools no longer adequately address the financial needs of millions of Americans. The company pioneered NPS Rent Assurance with NPS Rent From Payroll, the only payroll direct deposit platform providing the multifamily industry with a proven solution for improved payment performance and increased retention from residents who are conditionally approved and/or approved without conditions. This simple, “hands-off” program receives payroll direct deposits from a resident's employer each pay period before rent is due. NPS Rent Assurance is offered exclusively through apartment leasing offices as a key component of conditional lease offers as well as a mechanism to automate work-out plans for existing residents who fall behind in their lease obligations. In 2016, NPS was recognized by NACHA—The Electronic Payment Association® with the Kevin O’Brien ACH Network Award for Excellence in the Advancement of Electronic Payments, and by PYMTS.com as an ACH innovator in direct deposit programming.
