# Algernon Presents “The Science of Ifenprodil” on a Special BioPub Webcast Hosted by Dr. KSS, MD, PhD

VANCOUVER, British Columbia, April 29, 2020 (GLOBE NEWSWIRE) -- Algernon Pharmaceuticals Inc. (CSE: AGN) (FRANKFURT: AGW) (OTCQB: AGNPF) (the “**Company**” or “**Algernon**”), a clinical stage pharmaceutical development company, is pleased to announce that Dr. Mark Williams, Chief Science Officer of Algernon, will be making a presentation entitled “The Science of Ifenprodil” on a special **BioPub** webcast today April 29th, 2020 hosted by Dr. KSS, MD, PhD at Noon EDT. The Company invites interested shareholders, investors, members of the media and the public to log on for a complimentary webcast of the interview.

Join us as Dr. Williams explains:

- The target and mechanism of action of Ifenprodil, an NMDA receptor agonist.
- The Company’s Ifenprodil animal data for idiopathic pulmonary fibrosis (IPF) and chronic cough.
- The independent Chinese study of Ifenprodil in H5N1 infected mice.
- Additional research showing Ifenprodil’s potential to reduce the cytokine storm.
- The scientific rationale for Ifenprodil as a potential therapeutic agent for diseases that cause acute lung injury (ALI), including COVID-19.
- Additional promising therapeutic applications beyond COVID-19 and IPF.

**BioPub** has been analyzing small-cap special situation biotech investments for 7 years to readers in over 40 countries.

### **About BioPub**

[BioPub.co](https://www.biopub.co) is a biotech investment discussion website. Our goal is to be the secret weapon and unfair advantage of every subscriber. What you will find is an education including interviews others don't get and presence at meetings others don't bother to attend. We promote what we consider best in class companies and follow them closely to ensure that management is executing their business plan faithfully and that development trials proceed as expected. We leverage the knowledge brought to the table by our professional members to see if the products being brought to market make sense financially in a world whose rules are changing daily.

### **About Algernon Pharmaceuticals Inc.**

Algernon is a drug re-purposing company that investigates safe, already approved drugs for new disease applications, moving them efficiently and safely into new human trials, developing new formulations and seeking new regulatory approvals in global markets. Algernon specifically investigates compounds that have never been approved in the U.S. or Europe to avoid off label prescription writing.

Algernon has filed new intellectual property rights globally for NP-120 (Ifenprodil) for the treatment of respiratory diseases and is working to develop a proprietary injectable and slow release formulation.
