ICRC Awarded GSA Construction Management Professional Engineering Services Contract

Five-Year Base ID/IQ Contract with 15 Option Years

ALEXANDRIA, Va.-- Integrated Concepts and Research Corporation (ICRC), a wholly owned subsidiary of VSE Corporation (NasdaqGM: VSEC), was awarded an indefinite delivery/indefinite quantity contract from GSA's Management Services Center in Auburn, Washington. The Professional Engineering Services (PES) contract (schedule #GS-10F-0097W) is for Construction Management Services (Special Item Number (SIN) 871-1) in the engineering disciplines of civil and mechanical engineering.

The PES provides a streamlined approach for federal agencies to access qualified firms. The award to ICRC is for 5 base years with 15 option years.

"Construction management customer agencies may utilize PES Construction Managers to advise or manage a construction project regardless of the project delivery method used," said ICRC President Carl Williams. "We have highly qualified people with the construction, design, and management expertise to temporarily augment the customer agency's capabilities, so that they can successfully accomplish their construction projects."

VSE CEO Mo Gauthier said, "This important new contract provides VSE with a strategically important position to support customer agency decisions to ensure complete success in construction project implementation. ICRC's professionals have a proven reputation for superior construction management."

About ICRC

ICRC is a diversified technical and management services company serving the global government market. ICRC has a strong track record of delivering exemplary program management support for the U.S. Maritime Administration. They are currently managing the \$700 million port expansion and modernization project in Anchorage, Alaska. Since 2004 ICRC has been managing the development of 152 acres of new real estate with a new 7,700 foot bulkhead, which will result in nine dedicated berths for industrial commercial use and support for rapid military deployment from Alaska's bases. Additionally, the company has provided design, reconfiguration, and reconstruction of backlands operations, as well as the development of an intermodal rail yard to facilitate a train-sea shipping interchange.

The company's corporate headquarters is located in Alexandria, VA. For more information about ICRC's services, please see ICRC's web site at www.ICRCsolutions.com or contact Steve Martin at (703) 329-4378.

About VSE
