Cardinal Resources Working With the Blacksmith Institute to Solve Environmental Problems Around the Globe

PITTSBURGH, PA -- (Marketwired) -- 01/20/15 -- Cardinal Resources proudly supports Barbara Jones, one of our most senior and experienced professionals, in the work she does through Blacksmith Institute (<http://www.blacksmithinstitute.org/>), an organization that works with the UN, European Union, and other groups around the world to solve pollution problems and clean up polluted sites. Ms. Jones has worked for Blacksmith Institute in pollution problems as far-ranging as lead contamination from artisanal mining in Nigeria to pesticide contamination in former Soviet Union countries in Central Asia.

Kevin Jones, Chief Executive Officer of Cardinal Resources, said, "We applaud Blacksmith Institute's important and impactful work, and encourage our employees to share their time and talents, in keeping with our mission of *Clean Water Clean Environment Worldwide*. The Company has a strong resume of work cleaning up challenging sites around the globe. This work is continuation of our proud history of environmental Assessing a pesticide landfill in Kyrgyzstan work on some of the most challenging problems."

Forward-Looking Statements

Safe Harbor Statement Under the Private Securities Litigation Reform Act of 1995: Certain statements in this presentation constitute forward-looking statements for purposes of the safe harbor provisions under The Private Securities Litigation Reform Act of 1995. We have based these forward-looking statements largely on our current expectations and projections about future events and financial trends that we believe may affect our financial condition, results of operations, business strategy and financial needs but they involve risks and uncertainties that could cause actual results to differ materially from those in the forward-looking statements, such as business and political conditions in the geographic areas in which we sell our products, weather and natural disasters, changing interpretations of generally accepted accounting principles; outcomes of government reviews; inquiries and investigations and related litigation; continued compliance with government regulations; legislation or regulatory environments, requirements or changes adversely affecting the businesses in which we are engaged.

The information set forth herein should be read in light of such risks. You are urged to consider these factors carefully in evaluating the forward-looking statements herein and are cautioned not to place undue reliance on such forward-looking statements, which are qualified in their entirety by this cautionary statement. The forward-looking statements made herein speak only as of the date of this presentation and the Company undertakes no duty to update any forward-looking statement to conform the statement to actual results or changes in the Company's expectations."

Cardinal Resources brings a unique blend of experience, technology, and focus to projects worldwide and across the United States from their offices in the Pittsburgh, Pennsylvania area. Their commitment to **Clean Water, Clean Environment, Worldwide** includes the patented Red Bird System, a solar-powered community-sized drinking water system, and the Grey Bird Approach to wastewater treatment and green infrastructure as well as a depth of traditional environmental and engineering services.
