Update: Cardinal Resources Equity Financing With Chinese Firm and Distribution JV With Global Support and First China Mobile Red Bird System

HANGZOU, CHINA and PITTSBURGH, PA -- (Marketwired) -- 01/11/16 -- Cardinal Resources Inc. (OTC PINK: CDNL), a global producer of patented, solar powered, community-scale drinking water systems, and China-based Hangzhou Sky Valley Water Technology Co., Ltd. ("HSVW") are completing a series of meetings focused on the completion of the two tranche \$7.5 million equity investment and the establishment of a China Joint Venture as well as evaluating the site for the first system deployment near Suzhou City. On December 16, 2015, Cardinal Resources announced it had signed a definitive Stock Purchase Agreement with HSVW.

Cardinal Resources and HSVW have been meeting in Xiamen, Hangzhou and Suzhou City with government officials, key suppliers, distributors, and investors. The key results of this first week of meetings include:

- A Strategic Agreement was signed between HSVW and China Merchant Bank (<http://english.cmbchina.com>) to establish the availability of financing for Cardinal's goods and services. This agreement expands the ability to market and commercialize Cardinal Resources' water treatment technologies in Asia and other international markets.
- Transfer of the funds for the first tranche investment has passed the first regulatory step.
- Key suppliers have been identified and screened for the production of the patented Red Bird System. Potential manufacturing locations have been identified.
- Significant new opportunities have been identified for the sale of Cardinal's goods and services. Cost and technical proposals are being prepared for those opportunities.
- The location for the installation of the first Red Bird System is a high visibility location near Suzhou City that will provide water for a growing community as well as a demonstration of the technology.

"We are excited about the continued expansion and progress of the opportunities provided by this HSVW transaction for China and global expansion," said Cardinal Resources CEO, Kevin Jones. "We are thrilled with the progress HSVW has made in moving the transaction and commercial opportunities forward and will continue to provide updates."

About the China Market

The United Nations reports as of June, 2015, 381 million people in China lack access to piped, treated water, and the US Dept. of Commerce ITA estimated the total addressable market in China for this sector at \$29 billion in 2010.
