

SoundThinking Expands into Latin America with Launch of ShotSpotter in Montevideo, Uruguay

Summary: *Leading public safety technology company, SoundThinking, Inc., announced the deployment of ShotSpotter® in Montevideo, Uruguay.*

FREMONT, Calif., Dec. 14, 2023 (GLOBE NEWSWIRE) -- [SoundThinking, Inc.](#) (Nasdaq: SSTI) (formerly ShotSpotter, Inc.), a leading public safety technology company, today announced the deployment of ShotSpotter, its industry-leading acoustic gunshot detection system, in Montevideo, the capital city of Uruguay. The deployment marks the expansion of ShotSpotter into the large Latin American market.

“We’re excited to announce our partnership with SoundThinking for the implementation of the ShotSpotter system in Montevideo,” said Nicolás Martinelli, Minister of the Interior of Uruguay. “Gunshot detection is a key part of our strategy for enhancing public safety by promptly identifying gunshot sounds and enabling quick police response. We believe this partnership will complement our other violence reduction efforts and help make communities safer.”

ShotSpotter will be integrated with existing technologies in Montevideo that help police respond more effectively to gun violence, including video cameras and the city’s computer-aided dispatch (CAD) system. The installment of the system is part of Uruguay’s comprehensive approach to addressing growing gun violence among the approximately 1.38 million people residing in Montevideo. The deployment also includes the rollout of a Spanish-language version of the ShotSpotter InSight application to meet regional user needs.

“We are thrilled to bring SoundThinking’s public safety technology to Latin America,” said Ralph Clark, President and CEO of SoundThinking. “This deployment reflects our commitment to providing innovative solutions for public safety in places that need it, and our goal of making neighborhoods safer worldwide.”

Safe Harbor Statement

This press release contains “forward-looking statements” within the meaning of the “safe harbor” provisions of the Private Securities Litigation Reform Act of 1995, including but not limited to statements regarding the integration and impact of ShotSpotter with existing technologies and other violence reduction efforts in Montevideo. Words such as “expect,” “anticipate,” “should,” “believe,” “target,” “project,” “goals,” “estimate,” “potential,” “predict,” “may,” “will,” “could,” “intend,” variations of these terms or the negative of these terms and similar expressions are intended to identify these forward-looking statements. Forward-looking statements are subject to a number of risks and uncertainties, many of which involve factors or circumstances that are beyond the company’s control. Actual results could differ materially from those stated or implied in forward-looking statements due to a number of

factors, including but not limited to the effective use of the company's technology and achieving its intended benefits, as well as other risk factors included in the company's most recent annual report on Form 10-K and quarterly report on Form 10-Q and other Securities and Exchange Commission filings. These forward-looking statements are made as of the date of this press release and are based on current expectations, estimates, forecasts and projections as well as the beliefs and assumptions of management. Except as required by law, the company undertakes no duty or obligation to update any forward-looking statements contained in this release as a result of new information, future events or changes in its expectations.
