 VERSUS SYSTEMS

Versus Systems Appoints Alex Peachey as Chief Technology Officer

LOS ANGELES, Feb. 15, 2019 (GLOBE NEWSWIRE) -- Versus Systems, Inc. ("**Versus**" or the "**Company**") (CSE:VS) (OTCQB:VRSSF) (FSE:BMVA) is pleased to announce that it has appointed Mr. Alex Peachey as Chief Technology Officer of the Company effective immediately.

As Chief Technology Officer, Alex heads the research and development efforts for the Company's Elixir-based platform. Leveraging over two decades of experience building data driven software systems, Alex leads a group of highly talented software engineers in developing the Versus Systems Winfinite challenge platform, and believes that their Elixir applications running on the Erlang/BEAM virtual machine allow Versus to create a highly robust and scalable system.

Matthew Pierce, CEO, comments, "Alex Peachey is an excellent technologist and someone who has proven that he can architect a scalable, effective platform for in-game prizing. I am very excited to have Alex as our Chief Technology Officer and I look forward to working with him as we continue to grow and work with the best content and prizing partners in the world."

About Versus Systems
Versus Systems, Inc. has developed Winfinite - a proprietary in-game prizing and promotions engine that allows game publishers and developers to offer in-game prizing across various platforms including mobile, console, PC games, and streaming media. Brands pay to place products in-game via Winfinite, and gamers compete for those prizes. For more information, please visit www.versussystems.com.

For more information on Versus Systems' new platform, Winfinite, visit www.versussystems.com or visit Versus Systems official YouTube channel.
