Amesite Announces Contract for Pilot Program with the EWIE Group of Companies, A Global Leader in Commodity and Chemical Management Services for the Automotive and Other Industries

DETROIT, April 13, 2021 /PRNewswire/ --**Amesite Inc.**, (Nasdaq: AMST), an artificial intelligence software company providing advanced A.I. powered online learning ecosystems for business and higher education, announced today it is launching a pilot program with the EWIE Group of Companies (EGC) to develop and implement an eLearning and eTraining platform for its employees across the globe. This platform will provide program, process and technology learning and training while also allowing managers to assess program and process understanding of their team members. The A.I. based Amesite solution will integrate data from multiple platforms and will enable EGC to harness the full potential of its human resources to create value for its customers and shareholders.

EGC is a supplier group that provides manufacturing, products and supply chain solutions to companies across automotive, aerospace, medical, agriculture and energy industries. Their products and services are used at over 250 manufacturing facilities across the globe.

"We have experienced significant growth and expansion of our customer base over the last few years, and this platform will help us train our workforce to better meet the needs of our customers," said EGC President Jay Mullick. "Amesite is clearly the company of choice to integrate our platforms because of the quality and depth of their A.I driven technology. People are our greatest investment, and we are committed to making sure they are the best prepared in our industry. "

"This contract is another big win for Amesite. We are particularly proud to be partnering with EGC, a global leader in manufacturing and supply chain management services. This opportunity is more evidence that our online content and delivery systems are a best-in-class solution for multiple industries," said Dr. Ann Marie Sastry, founder and CEO of Amesite. "Our easy-to-use platform continues to gain traction in the marketplace because of the capabilities of our A.I. technology. I am excited to move forward with the implementation of our platform for another industry leading company."
