Titan Pharmaceuticals Schedules Conference Call To Review Fourth Quarter And Full Year 2017 Financial Results

Management Team to Host Conference Call April 2 at 4:15 p.m. ET / 1:15 p.m. PT

SOUTH SAN FRANCISCO, Calif., March 26, 2018 /PRNewswire/ --Titan Pharmaceuticals, Inc. (NASDAQ:TTNP), a company developing proprietary therapeutics for the treatment of select chronic diseases utilizing its ProNeura™ long-term, continuous drug delivery technology, today announced that it will host a live conference call at 4:15 p.m. ET / 1:15 p.m. PT on Monday, April 2, 2018 to discuss the company's financial results as of December 31, 2017. The call will be hosted by Sunil Bhonsle, president and CEO; Kate Beebe, Ph.D., executive vice president and chief development officer; Brian Crowley, vice president of finance; and Marc Rubin, M.D., executive chairman. A summary of the fourth quarter and full year financial results and other highlights will be included in a press release to be issued prior to the call.

The live webcast of the call may be accessed by visiting http://www.titanpharm.com/news/events. The call can also be accessed by dialing 1-855-940-9476 (or 1-412-317-5223 from outside the U.S.) five minutes prior to the start time, and asking to be joined into the Titan Pharmaceuticals, Inc. call.

A replay of the call will be available approximately one hour after completion of the call by dialing 1-877-344-7529 (or 1-412-317-0088 from outside the U.S.) and entering passcode 10118521. An audio recording of the call will also be archived on the Titan website.

About Titan Pharmaceuticals

Titan Pharmaceuticals, Inc. (NASDAQ:TTNP), based in South San Francisco, CA, is developing proprietary therapeutics primarily for the treatment of select chronic diseases. The company's lead product is Probuphine®, a novel and long-acting formulation of

buprenorphine for the long-term maintenance treatment of opioid dependence. Probuphine employs Titan's proprietary drug delivery system ProNeura™, which is capable of delivering sustained, consistent levels of medication for three months or longer. Approved by the U.S. Food and Drug Administration in May 2016, Probuphine is the first and only commercialized treatment of opioid dependence to provide continuous, around-the-clock blood levels of buprenorphine for six months following a single procedure. The ProNeura technology has the potential to be used in developing products for treating other chronic conditions such as Parkinson's disease and hypothyroidism, where maintaining consistent, around-the-clock blood levels of medication may benefit the patient and improve medical outcomes. Forward-Looking Statements

This press release may contain "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. Such statements include, but are not limited to, any statements relating to our product development programs and any other statements that are not historical facts. Such statements involve risks and uncertainties that could negatively affect our business, operating results, financial condition and stock price. Factors that could cause actual results to differ materially from management's current expectations include those risks and uncertainties relating to the commercialization of Probuphine, the regulatory approval process, the development, testing, production and marketing of our drug candidates, patent and intellectual property matters and strategic agreements and relationships. We expressly disclaim any obligation or undertaking to release publicly any updates or revisions to any forward-looking statements contained herein to reflect any change in our expectations or any changes in events, conditions or circumstances on which any such statement is based, except as required by law.
