Ingram Micro Expands ProAV/Digital Signage Portfolio With Ten New Vendor Lines and an Exclusive Media Solution

New Technologies and Solutions Provide Channel Partners With IT Industry's Most Comprehensive ProAV/Digital Signage Portfolio

SANTA ANA, CA -- (Marketwired) -- 08/13/14 -- Ingram Micro Inc. (NYSE: IM) today welcomed ten new vendor lines to its growing U.S. ProAV/Digital Signage portfolio. The company also said that it has been named the exclusive provider of innovative media solutions from PROconnect and Sherlock Systems.

The new vendor lines expand Ingram Micro's already robust portfolio of high-end ProAV/Digital Signage offerings and are immediately available in the U.S. Newly available vendors include Epiphan Systems, Jelco, Konftel, Medisplay, NanoTech Entertainment, PROconnect, RelampIt, Vidyo, VS Networks and ZTE.

Separately, Ingram Micro is pleased to be named the first and only technology provider to offer PROconnect's new five-head media player from Sherlock Systems. This innovative and unique solution features the VisionTek multi-port 4K graphics card and can feed up to five independent surround sound audio channels and supports high-performance applications such as video walls and multi-monitor display walls in public venues and business environments. The exclusive media solution is available immediately to Ingram Micro channel partners in the U.S.

"We are always looking to enhance and expand our unified ProAV and digital signage portfolio to ensure we have the fullest breadth of solutions that feature the most in-demand and emerging technologies for our partners," says Kevin Prewett, senior director, ProAV/Digital Signage, Ingram Micro U.S. "These ten new vendors each bring their own industry specializations to the table and will give our partners a competitive edge that will help them expand their ProAV and digital signage practices and drive more business with their existing customers and new prospects."

Ingram Micro's dedicated ProAV/Digital Signage business unit offers channel partners, AV professionals and vendors access to specialized support resources, business enablement tools and field-deployable personnel including market development specialists, sales experts and technical engineers.
