Ingram Micro Cloud Named AWS Training Partner

Ingram Micro Cloud expands its ability to deliver expert skills training to customers for AWS solutions in North America

IRVINE, Calif.--(BUSINESS WIRE)-- Ingram Micro Cloud is now an Amazon Web Services ([AWS](#)) [Training Partner \(ATP\)](#). The new designation allows Ingram Micro Cloud to deliver [AWS-authored courses](#) to channel partners across North America to improve their AWS skills.

Ingram Micro Cloud is an AWS Advanced Consulting Partner and global AWS Distributor, and recently [announced](#) a global Strategic Collaboration Agreement (SCA) with AWS. The agreement builds upon this long-standing relationship by accelerating the training and enablement of Ingram Micro Cloud partners to improve their AWS skills and better equip them to serve end customers. By qualifying to become an ATP to deliver AWS skills development training with accredited technical instructors, Ingram Micro Cloud is offering a simplified path to help channel partners achieve their learning goals and gain the cloud skills they need to grow and further their AWS business.

“Ingram Micro is pleased to be named an authorized AWS Training Partner (ATP),” said Greg Richey, Director of Professional Services overseeing the Training Division at Ingram Micro. “Our reseller partners can now easily access AWS training through our online portal to educate and certify their staff and end customers as well. The ATP designation is a significant addition to our training portfolio.”

The new evolution of the AWS Training Partner Program was announced in July and combines the previous three programs: AWS Training Partners, Digital Training Partners, and Resellers.
