Cal Microturbine Announced as Capstone Distributor for All of California

- Cal Microturbine's authorized territory expands to all markets
- Company is well positioned to meet the aftermarket needs of end users in growing California market

Capstone is pleased to announce that Cal Microturbine is expanding its territory to include all market verticals in California. Customers utilizing Capstone equipment in California will now have a single distributor point of contact for Capstone products, parts and service.

With headquarters in Los Angeles, Cal Microturbine has a wealth of experience with Capstone products and supporting end users in oil and gas, CHP, CCHP, and renewable applications. With a skilled team of factory-trained sales engineers and technicians, Cal Microturbine is committed to provide the highest level of customer support possible. This will be further enhanced through Cal Microturbine's investments in personnel and service infrastructure and by working closely with Capstone's factory support team to ensure immediate, local customer support in all areas of the business.

"Cal Microturbine is a trusted and valued distributor of Capstone Turbine Corporation and Capstone is proud to see its commitment to serving customers in California," said Jim Crouse, Executive Vice President of Sales and Marketing.
