# Daniel Cloutier, a Veteran Sales Executive, Joins Brain Scientific as Chief Revenue Officer

## Company Continues to Build Momentum as It Launches Its Disruptive Technologies in the Marketplace

LAKESWOOD RANCH, Fla., Nov. 01, 2022 (GLOBE NEWSWIRE) -- **via InvestorWire -- [Brain Scientific \(OTCQB:BRSF\)](#)**, a Florida-based medical device technology company, announces today that Daniel Cloutier is joining the company as its chief revenue officer (CRO) in a move that will help propel the company forward on its mission to revolutionize the medical industry.

Cloutier brings extensive experience and knowledge in sales strategy and global distribution. He founded LOK Corporation in 2011 after representing CAS Medical System (CASMED) for eight years as international sales director and launching the FORE-SIGHT cerebral oximetry internationally.

Cloutier will lead Brain Scientific's sales and marketing strategy, leveraging his experience in direct and indirect sales channels and deep relationships across distributors, research institutions and regulators in the medical technology space.

"Daniel's decades of leadership are crucial at this juncture for Brain Scientific to continue accelerating its path to revenue," said Hassan Kotob, chairman and CEO of Brain Scientific. "With a growing number of opportunities and partners, Brain Scientific is poised for rapid growth in the immediate future."

Cloutier is also an advisory council member of the Indian Business Organization for Global Investments, a member of the board of directors for the Independent Medical Specialty Dealers Association and Brain Scientific, and a former board member of NeuroFrance Implants and Luminor Medical Technologies. He received his education from HEC Montréal.

"I see huge potential in Brain Scientific's technology and a clear path to making the company a dominant player in the medical industry," Cloutier emphasized. "I'm excited to work with such a highly passionate team as the company continues delivering its products into the marketplace."

### About Brain Scientific

Brain Scientific ([brainscientific.com](http://brainscientific.com)) is a medical technology company with multiple patents and FDA-cleared products. Brain Scientific is committed to developing next-gen solutions that advance the future of neurodiagnostic and OEM medical devices. Brain Scientific has two product lines covering neurology and precision motion. The NeuroCap™ and NeuroEEG™ are smart neurological diagnostic devices that simplify administration, shorten scan time and cut costs. The [Piezo Motion](#) product line consists of ultra-efficient compact precision motors that will drive the next generation of medical devices. ### **Forward-Looking Statements**

*Any statements contained in this press release that do not describe historical facts may constitute forward-looking statements. Forward-looking statements may include, without limitation, statements regarding (i) the plans and objectives of management for future operations, including plans or objectives relating to the design, development and commercialization of EEG products and services and piezo motor technology; (ii) a projection of income (including income/loss), earnings (including earnings/loss) per share, capital expenditures, dividends, capital structure or other financial items; (iii) the company's future financial performance; (iv) the successful integration of Piezo Motion with and into Brain Scientific; and (v) the assumptions underlying or relating to any statement described in points (i), (ii), (iii) or (iv) above. Such forward-looking statements are not meant to predict or guarantee actual results, performance, events or circumstances and may not be realized because they are based upon the company's current projections, plans, objectives, beliefs, expectations, estimates and assumptions and are subject to a number of risks and uncertainties and other influences, over many of which the company has no control. Actual results and the timing of certain events and circumstances may differ materially from those described by the forward-looking statements as a result of these risks and uncertainties. Factors that may influence or contribute to the inaccuracy of the forward-looking statements or cause actual results to differ materially from expected or desired results may include, without limitation, the company's inability to obtain additional financing; the significant length of time and resources associated with the development of products and related insufficient cash flows and resulting illiquidity; the company's inability to expand its business; significant government regulation of medical devices and the healthcare industry; lack of product diversification; volatility in the price of the company's raw materials; and the failure to implement the company's business plans or strategies. Some of these and other factors are identified and described in more detail in the company's filings with the SEC. The company does not undertake to update these forward-looking statements.*
