Forward-looking Statements

This presentation contains certain forward-looking information, including second quarter and full year 2023 guidance, to help you understand Equifax and its business environment. All statements that address operating performance and events or developments that we expect or anticipate will occur in the future, including statements relating to our future operating results, improvements in our IT and data security infrastructure, the expected financial and operational benefits, synergies and growth from our acquisitions, our strategy, our long-term financial framework, changes in the U.S. mortgage market environment, as well as changes more generally in U.S. and worldwide economic conditions, such as rising interest rates and inflation, and similar statements about our financial outlook and business plans, are forward-looking statements.

We believe these forward-looking statements are reasonable as and when made. However, forward-looking statements are subject to risks and uncertainties that could cause actual results to differ materially from our historical experience and our present expectations or projections. These risks and uncertainties include, but are not limited to, those described in our 2022 Form 10-K and subsequent SEC filings.

As a result of such risks and uncertainties, we urge you not to place undue reliance on any forward-looking statements. Forward-looking statements speak only as of the date when made. We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as required by law.
Non-GAAP Disclosure Statement

This presentation contains certain non-GAAP financial measures, including adjusted EPS and adjusted EBITDA, which reflect adjustments for certain items that affect the comparability of our underlying operational performance.

Adjusted EPS is defined as net income adjusted for acquisition-related amortization expense, legal expenses related to the 2017 cybersecurity incident, fair value adjustment and gain on sale of equity investments, foreign currency impact of certain intercompany loans, acquisition-related costs other than acquisition amortization, income tax effect of stock awards recognized upon vesting or settlement, Argentina highly inflationary foreign currency adjustment, and income tax adjustments.

Adjusted EBITDA is defined as net income excluding income taxes, interest expense, net, depreciation and amortization expense, legal expenses related to the 2017 cybersecurity incident, fair value adjustment and gain on sale of equity investments, foreign currency impact of certain intercompany loans, acquisition-related costs other than acquisition amortization, and Argentina highly inflationary foreign currency impacts.

Local currency is calculated by conforming the current period results to the comparable prior period exchange rates. Local currency can be presented for numerous GAAP measures, but is most commonly used by management to analyze operating revenue without the impact of changes in foreign currency exchange rates.

Organic revenue growth is defined as revenue growth, adjusted to reflect an increase in prior year Equifax revenue from the revenue of acquired companies in the prior year period. This adjustment is made for 12 months following the acquisition.

Organic non-mortgage revenue growth is defined as revenue growth within our non-mortgage verticals adjusted to reflect an increase in prior year Equifax revenue from the revenue of acquired companies in the prior year period. This adjustment is made for 12 months following the acquisition.

These non-GAAP measures are detailed in reconciliation tables which are included with our earnings release and are also posted at www.equifax.com under "Investor Relations/Financial Results/Non-GAAP Financial Measures."

- ✓ USIS Identity & Fraud accelerating
- ✓ New INTL markets driving growth in ID&F
- ✓ Accelerating NPIs
- ✓ Cloud native
EFX more resilient and well positioned for potential recession

Recession Resilient

Recession Growth Levers
1. EWS growth... records, penetration, product, Employer, Talent, Government, UC
2. Cloud benefits... cost savings and share gains
3. NPI growth... cloud leverage, 13% Vitality Index
4. M&A... synergies kicking in

Recession-resistant: Financial (US Market), Mortgage (assumes normalized market), Gov't, Healthcare, Recovery Mgmt and ID&F.
Counter-cyclical: Debt Mgmt, UC, ERC.
EFX2023 – Economic & Market Assumptions

US economy slows moving through 2023... Planning reflects low GDP growth w/o US Recession
● US hiring expected to decline by over ~10% from 2022

International economies also assumed to have slowing growth in 2023.

US Mortgage Market Originations decline ~32% from 2022
● 2Q23 Mortgage market originations down ~38%
● 2H23 Mortgage market originations down over 10% / 4Q23 down slightly

Equifax Non-Mortgage up ~8%+ in 2023
● USIS non-mortgage expected to outperform underlying markets
● EWS non-mortgage, excluding UC & ERC business, expected to significantly outperform underlying markets
  – Talent Solutions and I-9 expected to grow 10%+ – out-growing US Hiring decline by ~20 percentage points
● EWS UC expected to decline by almost -6% in 2023.
● International constant currency growth about 6%, reflecting weaker end-markets

Equifax US Mortgage Revenue down ~8%+ in 2023 despite growing ~22 percentage points faster than overall Mortgage Market

Accelerating Cloud cost savings and Operational Restructuring will in 2023 deliver ~$200M in spending reductions — ~$120M cost & expense reduction and ~$80M capital spending reduction

Note: $200M spending reduction measured as YoY reduction in capital and operational costs reflecting both the acceleration of our cloud transformation benefits and a broader focus on operational improvements aided by our new Cloud capabilities.
**FY23 Guidance - General Corporate Expense, Capital Spending, D&A, Interest Expense and Other Income and Expense, excluding non-recurring costs**

**General Corporate Expense* – 2Q23**
Expected to be ~$125M in 2Q23 compared to 2Q22 of $117 million

**General Corporate Expense* – 2023**
Expected to be $510M in 2023. General corporate expense was $452 million in 2022

The increase in 2023 is principally from higher variable compensation expense and higher depreciation and amortization.

---

**Capital Expenditures** (incurred) in 2Q23 are expected to be ~$150M, down from $152M in 2Q22. **Capital Expenditures** (incurred) in 2023 are expected to be $545M, down from $617M in 2022.

**Depreciation and Amortization** in 2Q23 is expected to be $93M, up from $82M in 2Q22. **Depreciation and Amortization** in 2023 is expected to be $375M, up from $323M in 2022.

**Amortization of acquired intangible assets** in 2Q23 is expected to be $61M, up from $58M in 2Q22. **Amortization of acquired intangible assets** in 2023 is expected to be $244M, up from $237M in 2022.

**Interest & Other Income / (Expense)** in 2Q23 is expected to be $59M, up from $36M in 2Q22. **Interest & Other Income / (Expense)** in 2023 is expected to be $225M, up from $164M in 2022.
