# Athene Among Best Capitalized in the Industry...

Regulatory Capital Backing US Reserves (\$B)

Note: Athene and Industry data as of December 31, 2025. Peers include Allianz, Corebridge, Equitable, Global Atlantic, MassMutual, MetLife, Nationwide (Life insurance Entities Only), New York Life and Prudential. Peers represent the top 10 writers of Athene's core spread products in the U.S. in 2025. 1. For Athene, represents the aggregate capital of its U.S. and Bermuda insurance entities, determined with respect to each insurance entity by applying the statutory accounting principles applicable to each such entity. Adjustments are made to, among other things, assets and expenses at the holding company level. Includes capital from the non-controlling interests in ACRA. For peers, represents U.S. statutory total adjusted capital, plus Bermuda surplus capital backing U.S. business.

## U.S. RBC Ratios

Note: Athene and Industry data as of December 31, 2025. Peers include Allianz, Corebridge, Equitable, Global Atlantic, MassMutual, MetLife, Nationwide (Life Insurance Entities Only), New York Life, Prudential. Peers represent the top 10 writers of Athene's core spread products in the U.S. in 2025. 1. The estimated consolidated risk-based capital ratio of our non-U.S. reinsurance and U.S. insurance subsidiaries calculated by aggregating U.S. RBC and Bermuda RBC, with immaterial adjustments for net assets at the holding company, as defined in Athene's 2025 10-K. There are certain differences between Bermuda statutory and U.S. statutory frameworks that result in Consolidated RBC being approximately 20 RBC points higher as of December 31, 2025. The primary driver of this difference is that Bermuda statutory financial statements require that assets assumed as part of a reinsurance transaction and any assets sold are recorded at their market value, without posting an interest maintenance reserve. 2. The estimated CAL RBC ratio for Athene Annuity and Life Company (AAIA), our parent U.S. insurance company.

Note: Data as of December 31, 2025. 1. The estimated consolidated risk-based capital ratio of our non-U.S. reinsurance and U.S. insurance subsidiaries calculated by aggregating U.S. RBC and Bermuda RBC, with immaterial adjustments for net assets at the holding company. 2. The estimated CAL RBC ratio for AAIA, Athene's parent U.S. insurance company. 3. The estimated risk-based capital ratio of Athene's non-U.S. reinsurance subsidiaries calculated using Bermuda capital as defined in Athene's Form 10-K for the fiscal year ended December 31, 2025 and applying National Association of Insurance Commissioners (NAIC) risk-based capital factors on an aggregate basis, excluding U.S. subsidiaries which are included within Athene's U.S. RBC Ratio. 4. Total estimated deployable capital includes \$3.2 billion in excess equity capital, \$2.6 billion in untapped leverage capacity and \$2.8 billion in available undrawn capital at ACRA. Untapped leverage capacity assumes an adjusted leverage ratio of not more than 30%, subject to maintaining a sufficient level of capital required to maintain our desired financial strength ratings from rating agencies. 5. Cash and cash equivalents excludes restricted cash and the collateral receivable posted for derivative transactions. Cash and cash equivalents is \$6.9B net of the ACRA non-controlling interests. 6. Relates to the \$2.6B liquidity facility, with \$0.5B accordion feature available to Athene Holding Ltd. (AHL)/Athene Annuity Re Ltd. (AARE)/Athene Life Re Ltd. (ALRE)/AAIA and the \$1.25B credit facility, with \$0.5B accordion feature available to AHL. Availability of accordion features subject to lender consent and other factors. 7. Relates to \$7.4B of available Federal Home Loan Bank (FHLB) borrowing capacity. 8. Includes investment grade market value of public corporate bonds (\$57.3B gross, \$40.7B net), U.S. government and agencies (\$14.7B gross, \$11.2B net), state and municipal bonds (\$1.3B gross, \$1.2B net) and agency residential mortgage-backed securities (\$0.4B gross, \$0.2B net); excludes pledged assets, mainly associated with funding agreement and repurchase agreement liabilities, but includes assets held in reinsurance trusts. Highly liquid assets are \$53.3B net of the ACRA non-controlling interest. 9. Total available liquidity net of the non-controlling interests is \$73.5B.

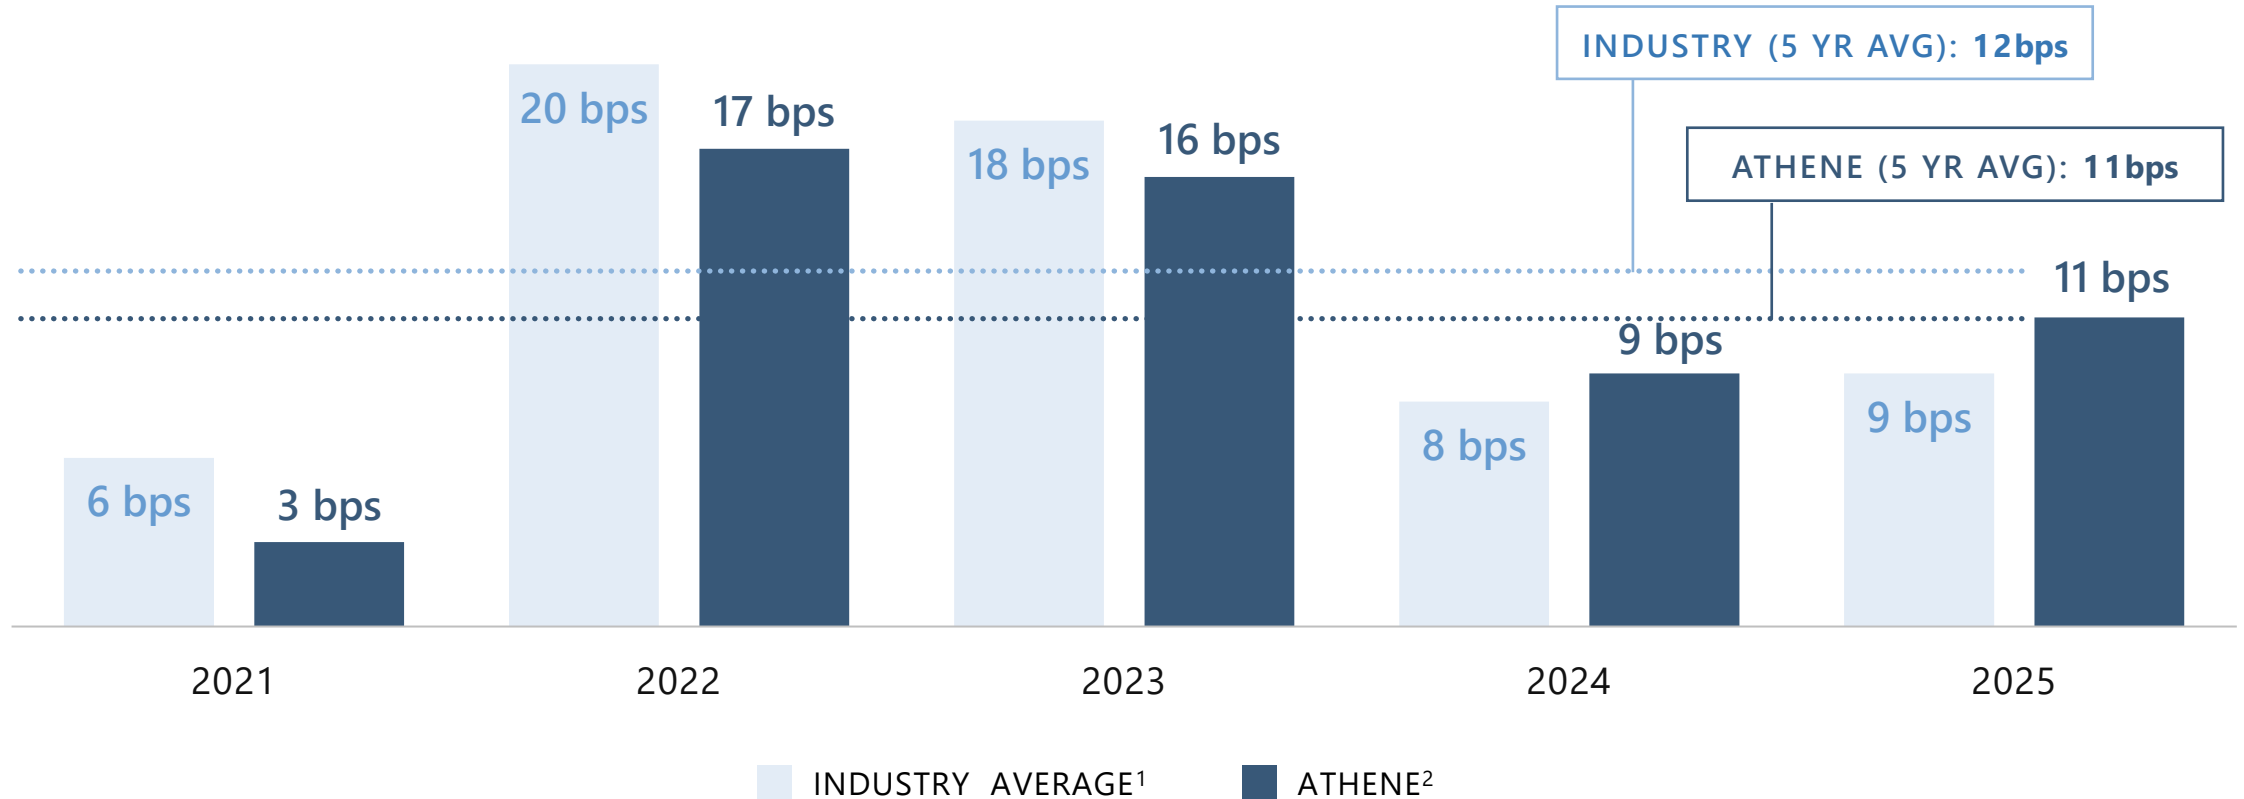

# Balance Sheet Matches Primarily Investment Grade Assets with Long-Dated Funding

Data in this presentation includes 100% of Athene's sidecars, unless otherwise stated

Note: Data presented as of December 31, 2025. Spread-based liabilities represents gross reserve liabilities. The sum of fixed income assets and alts represents gross invested assets of \$387B, which includes \$292B of net invested assets and \$95B of assets associated with the ACRA non-controlling interests. 1. 97% of available-for-sale (AFS) fixed maturity securities, designated NAIC 1 or 2. 2. Capital equal to regulatory capital, which represents the aggregate capital of Athene's U.S. and Bermuda insurance entities, determined with respect to each insurance entity by applying the statutory accounting principles applicable to each such entity. Adjustments are made to, among other things, assets and expenses at the holding company level. Includes capital from the non-controlling interests in ACRA. 3. Other, net includes all other assets as defined by GAAP, excluding gross invested assets, less other liabilities, excluding gross spread-based liabilities, and equity adjustments.

# Athene Asset Impairments Have Historically Been Lower Than Those of Industry

Note: Data as of December 31, 2025. Athene data shown net of ACRA non-controlling interests to align with prior historical disclosures on a net of ACRA non-controlling interest basis. 1. Industry average represents U.S. statutory impairments adjusted to include changes in mortgage loan specific reserves per SNL Financial. Industry average includes Ameriprise, Brighthouse, Brookfield, Corebridge, Equitable, F&G, Lincoln, MetLife, Principal, Prudential, Transamerica and Voya, which is aligned to prior historical disclosure. 2. Athene's statutory fixed income impairments adjusted to include changes in mortgage loan specific reserves in relation to average invested assets of regulated entities in the U.S. and Bermuda.

# Athene's “Private Credit”

# Levered Lending (Below Investment Grade Bank Loans) as a % of Invested Assets

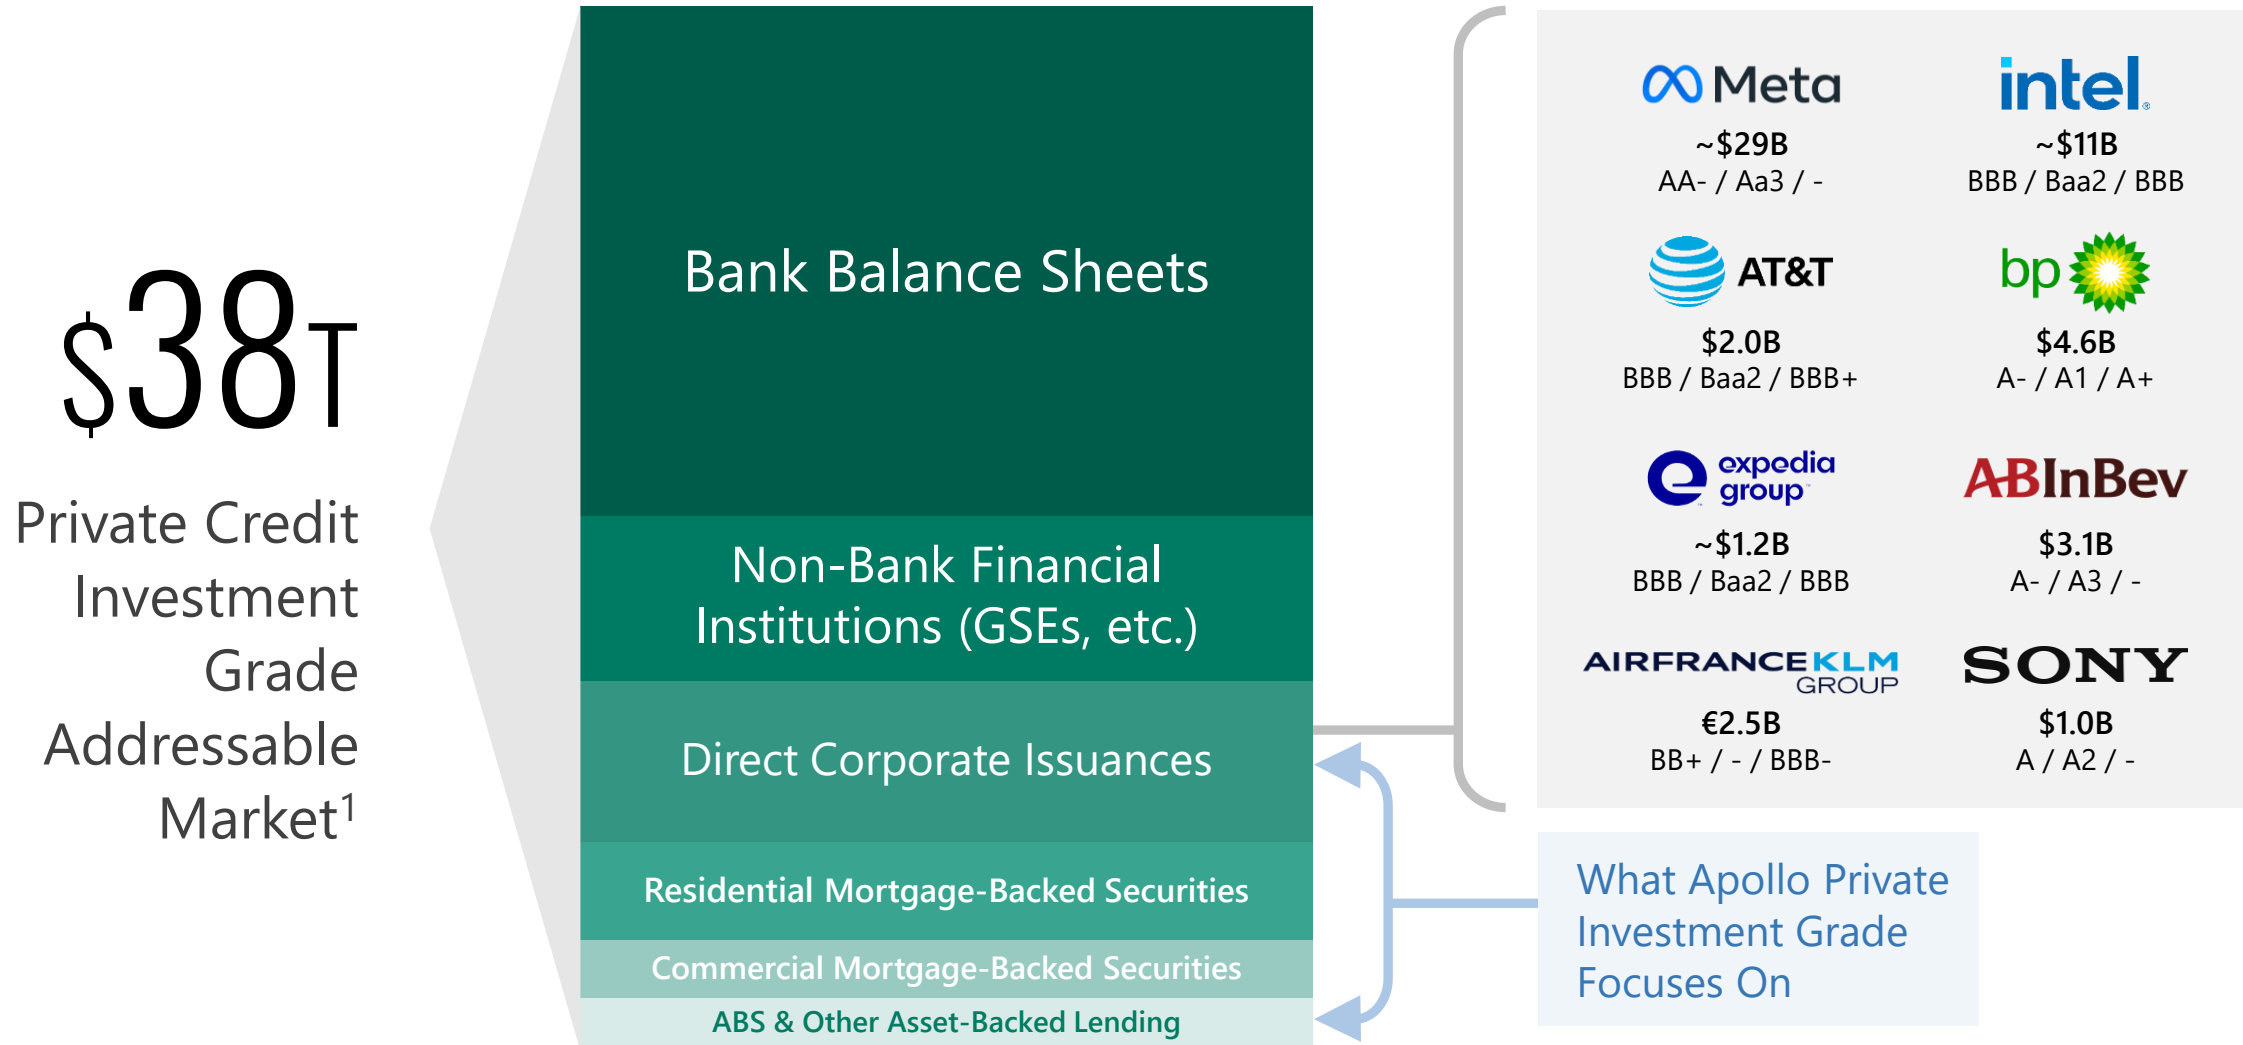

Note: Data as of December 31, 2025 for Athene and peers. Peers include Allianz, Corebridge, Equitable, Global Atlantic, MassMutual, MetLife, Nationwide (Life Insurance Entities Only), New York Life, Prudential. Peers represent the top 10 writers of Athene's core spread products in the U.S. in 2025. For peers, represents unaffiliated and affiliated below investment grade bank loans (rated NAIC 3 and lower) in U.S. statutory entities, as aggregated by SNL financial, divided by total general account U.S. statutory assets. Athene's percentage is 0.40% using below investment grade bank loans aggregated across all entities, including the ACRA non-controlling interests, divided by gross invested assets, and 0.44% using the same methodology as peers.

# Most Private Credit is Investment Grade

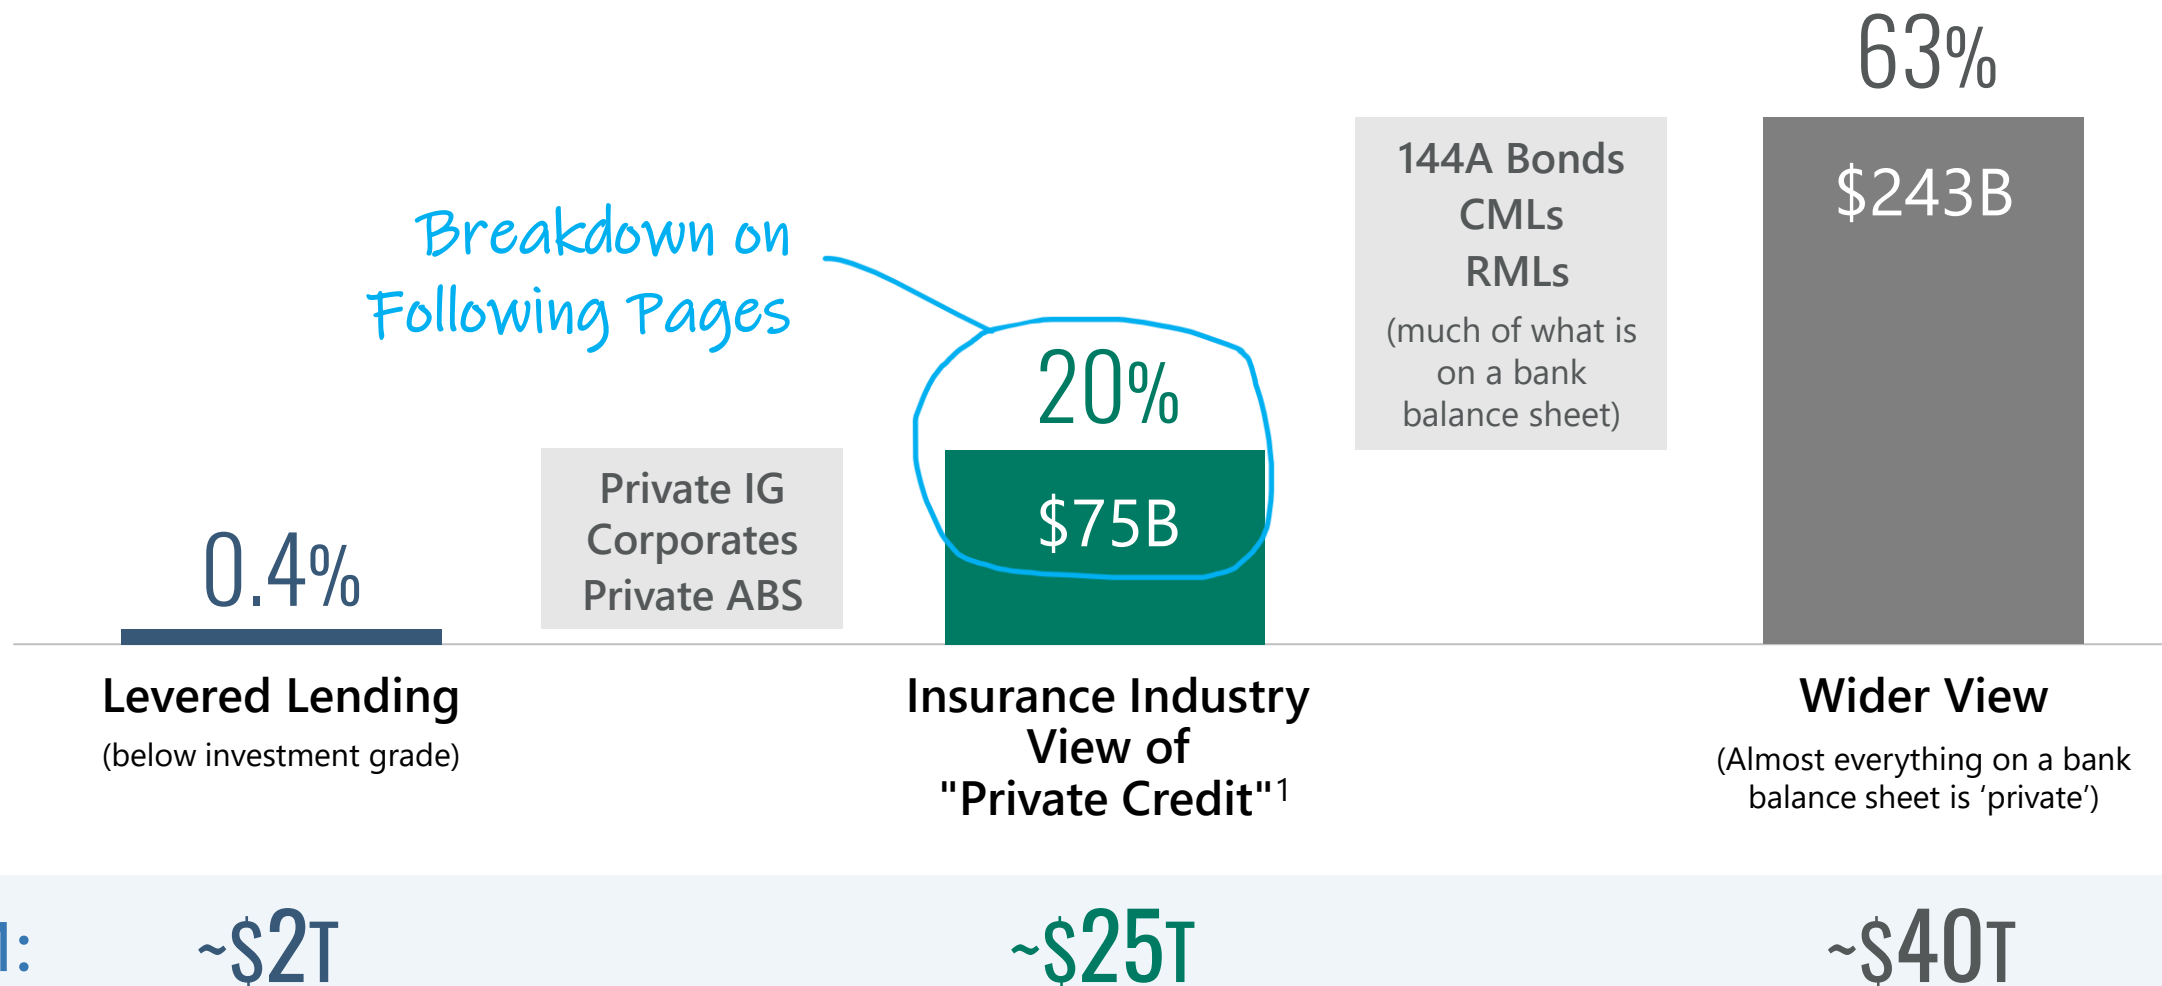

Sources: Federal Reserve Board, PitchBook LCD, Morningstar indexes, SIFMA, ICE BofA, BIS. 1. Represents the views and opinions of Apollo Analysts. Includes European crossover. 2. Reflects the total addressable market as evaluated by Apollo; includes certain assets and asset classes that may be unrated or not rated 'investment grade' by agencies but have investment and risk characteristics that are distinct from levered lending. Such assets and asset classes constitute a small minority proportion of the \$38T.

# What is Private Investment Grade?

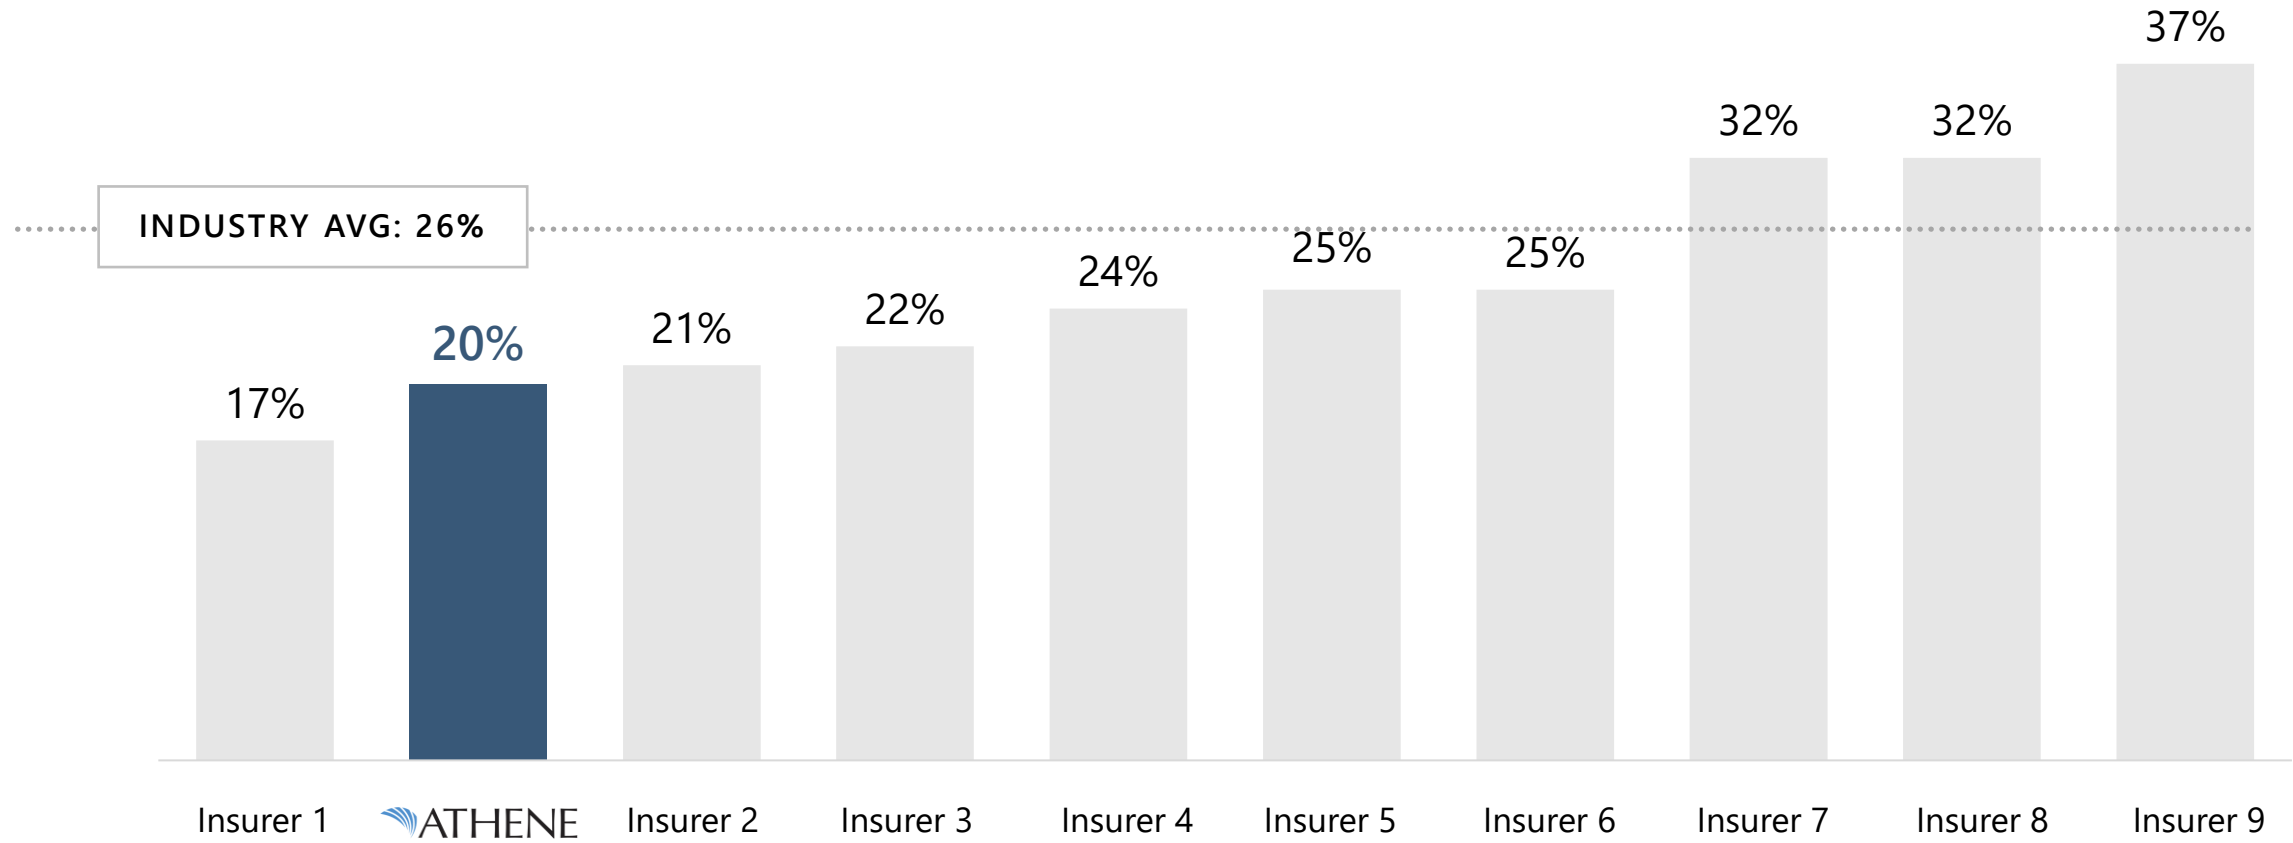

Sources: Federal Reserve Board, PitchBook LCD, Morningstar indexes, SIFMA, ICE BofA, JPM Research, BIS, Public Disclosures. Represents the views and opinions of Apollo Analysts. Ratings in order of S&P / Moody's / Fitch. Ratings reflect latest available disclosure as of November 1, 2025. 1. Reflects the total addressable market as evaluated by Apollo; includes certain assets and asset classes that may be unrated or not rated 'investment grade' by agencies but have investment and risk characteristics that are distinct from levered lending. Such assets and asset classes constitute a small minority proportion of the \$38T.

# Athene's "Private Credit" as a % of Assets Under Three Views

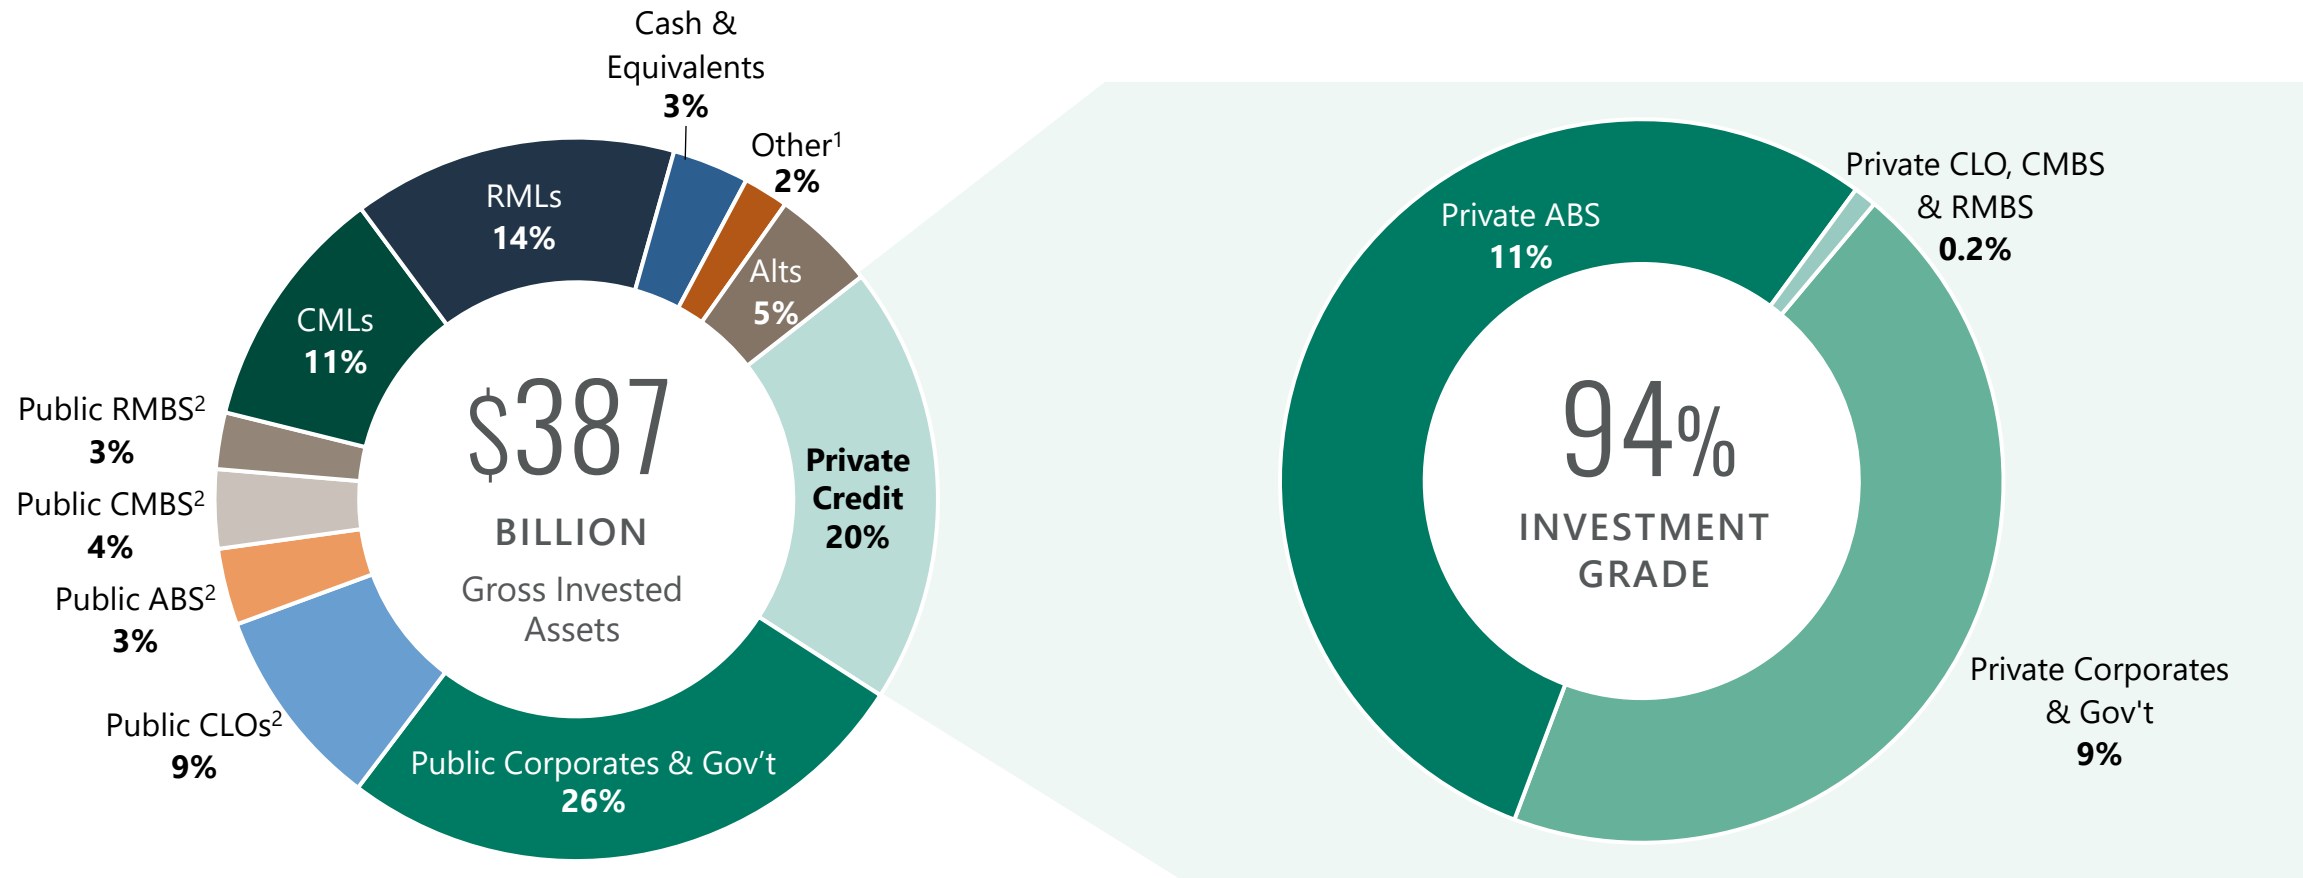

Note: As of December 31, 2025. Refers to gross invested assets, which includes 100% of the non-controlling interests in ACRA. 1. Includes levered lending, corporates and ABS fixed income that is not registered with the SEC and excludes securities issued under Rule 144A or Regulation S.

# Insurance Industry View of Private Credit as % of Invested Assets

Note: Data is as of December 31, 2025 for Athene and peers. Peers include Allianz, Corebridge, Equitable, Global Atlantic, MassMutual, MetLife, Nationwide (Life Insurance Entities Only), New York Life, Prudential. Peers represent the top 10 writers of Athene's core spread products in the U.S. in 2025. Athene data presented on a gross basis including the non-controlling interests in ACRA. For Athene, represents all corporate and ABS fixed income that is not registered with the SEC, and excludes securities issued under Rule 144A or Regulation S, divided by total gross invested assets. For peers, represents total private bonds excluding securities issued under Rule 144A or Regulation S within U.S. statutory entities, divided by U.S. statutory total general account assets. Under the same methodology as peers, Athene's U.S. insurance subsidiaries would have a 19% allocation to private credit.

# Athene's 20% Private Credit is Almost Entirely Investment Grade

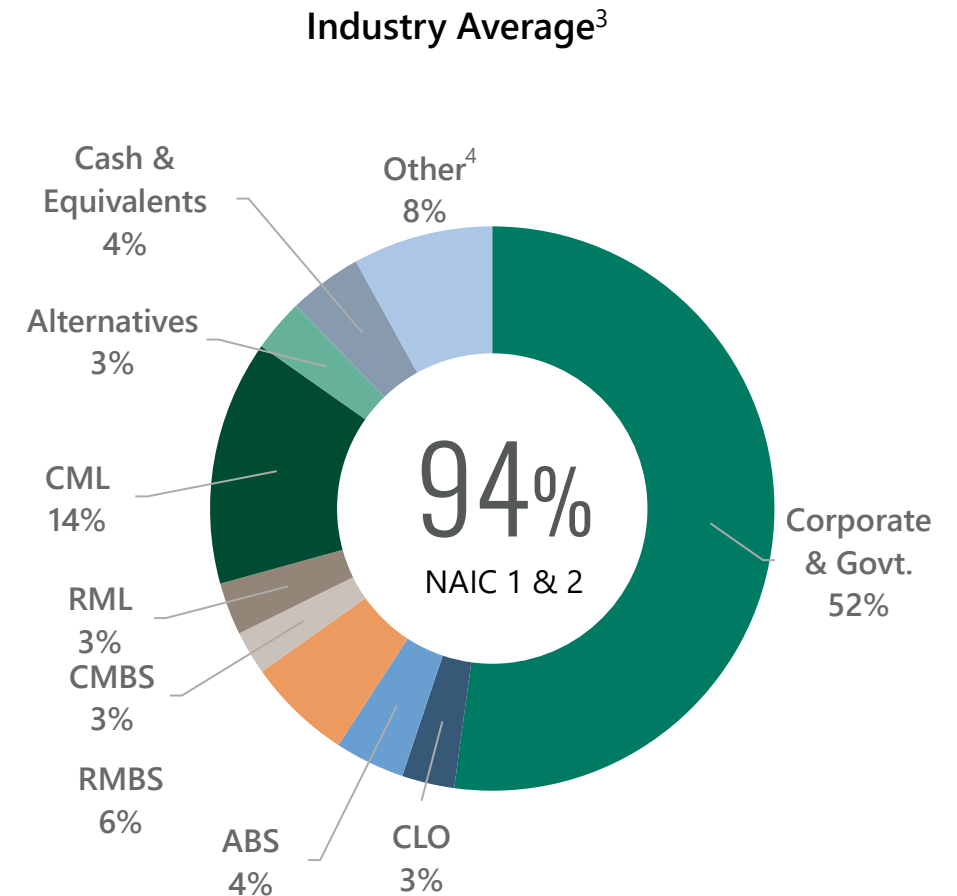

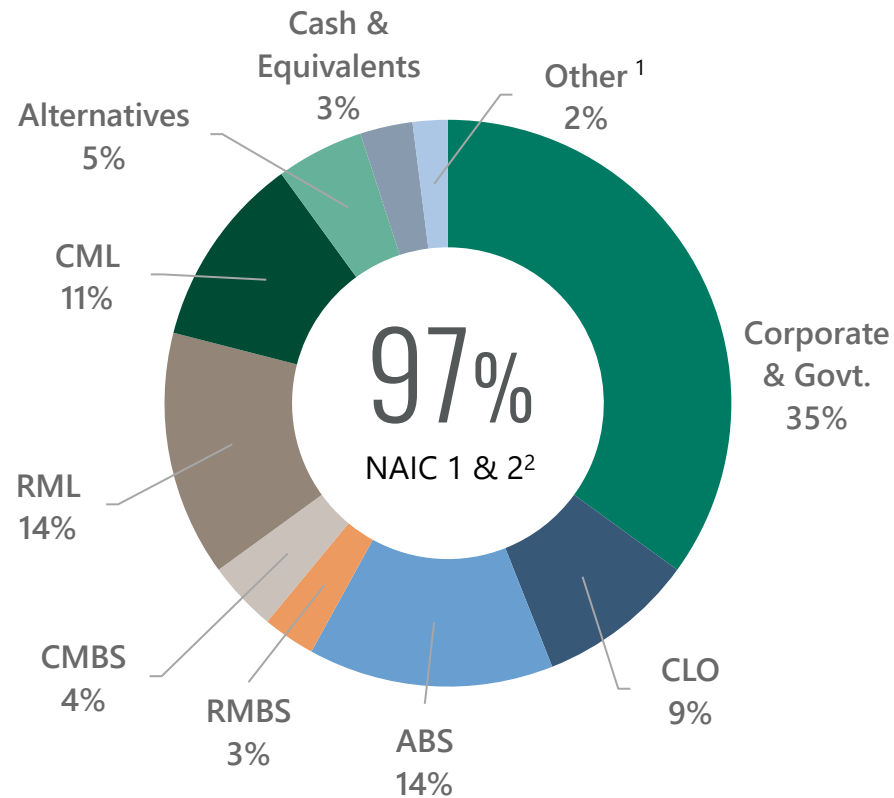

Note: Data as of December 31, 2025. Refers to gross invested assets, which includes 100% of non-controlling interests in ACRA. 1. # ARI Portfolio Purchase: Acquisition of \$9B CMLs from ARI, an Apollo REIT

## Select ARI Portfolio Metrics

## Transaction Summary

- Apollo Commercial Real Estate Finance, Inc. (ARI) is a publicly traded REIT managed by Apollo
- In January, Athene agreed to acquire substantially all of ARI's entire ~\$9B CML portfolio for 99.7% of par<sup>1</sup>
- Valuation was supported by **independent analysis** from financial advisors to Athene's independent audit committee
- Closed on April 24th following ARI shareholder approval by holders of a majority of ARI shares

## Why Suitable for Athene

- Attractive source of **asset origination in scale**
- **Attractive yield:** 50–75 bps of additional spread vs. new-issue CMLs today
- **Deep familiarity:** Athene already owned ~50% of the loans
- **Well-diversified** by property type, geography and vintage

Note: As of December 31, 2025. 1. Par represents total loan commitments net of asset-specific CECL reserves. Portfolio transferred at closing excluded loans that were repaid prior to closing or expected to repay after the closing of the portfolio purchase. 2. Represents weighted average unlevered all-in yield as defined and previously disclosed by ARI – [Link](#). Calculation may differ for Athene. 3. As previously disclosed by ARI – [Link](#). Reflects the LTV at the time the loan was originated; based on amortized cost and excludes risk-rated 5 loans. Calculation may differ for Athene.

# Use of Private Letter Ratings (“PLRs”) Driven by Issuer Confidentiality

## Private Letter Ratings vs. Public Ratings

## Athene Assets with Private Letter Ratings<sup>1</sup>

13%  
of Athene’s  
assets have  
a private

## HOW THEY WORK

Difference between private and public ratings is **confidentiality**

PLR documentation must be accessed via a secure portal, with access provided on a name-by-name basis

## WHY THEY EXIST

- Issuers may want to limit number of investors for tax reasons
- Lenders may want to protect tailored structures for competitive reasons
- In our case, usage of PLRs reflects leadership in proprietary asset origination, providing borrowers with bespoke high-grade capital solutions where elements of confidentiality are paramount

# Definitions and Non-GAAP Reconciliations

# Definitions

- **Gross Invested Assets:** Represent the investments that directly back our gross reserve liabilities, as well as surplus assets. Gross invested assets include (a) total investments on the condensed consolidated balance sheets with available-for-sale securities, trading securities and mortgage loans at cost or amortized cost, excluding derivatives, (b) cash and cash equivalents and restricted cash, (c) investments in related parties, (d) accrued investment income, (e) VIE and VOE assets, liabilities and noncontrolling interest adjustments, (f) net investment payables and receivables, (g) policy loans ceded (which offset the direct policy loans in total investments) and (h) an adjustment for the allowance for credit losses. Gross invested assets exclude the derivative collateral offsetting the related cash positions. We include the underlying investments supporting our assumed funds withheld and modco agreements and exclude the underlying investments related to ceded reinsurance transactions to match the assets with the income received. We believe the adjustments for reinsurance provide a view of the assets for which we have economic exposure. Gross invested assets include our proportionate share of ACRA investments, based on our economic ownership, as well as the proportionate share of investments associated with the noncontrolling interests. While we believe gross invested assets is a meaningful financial metric and enhances our understanding of the underlying drivers of our investment portfolio, it should not be used as a substitute for total investments, including related parties, presented under U.S. GAAP.
- **Gross Reserve Liabilities:** Gross reserve liabilities represent our policyholder and institutional liability obligations net of reinsurance and are used to analyze the costs of our liabilities. Gross reserve liabilities include (a) interest sensitive contract liabilities, (b) future policy benefits, (c) net market risk benefits, (d) long-term repurchase obligations, (e) dividends payable to policyholders and (f) other policy claims and benefits, offset by reinsurance recoverable, excluding policy loans ceded. Gross reserve liabilities include our proportionate share of ACRA reserve liabilities, based on our economic ownership, as well as the proportionate share of reserve liabilities associated with the noncontrolling interests. Gross reserve liabilities are net of the ceded liabilities to third-party reinsurers as the costs of the liabilities are passed to such reinsurers and, therefore, we have no net economic exposure to such liabilities, assuming our reinsurance counterparties perform under our agreements. For such transactions, U.S. GAAP requires the ceded liabilities and related reinsurance recoverables to continue to be recorded in our condensed consolidated financial statements despite the transfer of economic risk to the counterparty in connection with the reinsurance transaction. We include the underlying liabilities assumed through modco reinsurance agreements in our gross reserve liabilities calculation to match the liabilities with the expenses incurred. While we believe gross reserve liabilities is a meaningful financial metric and enhances our understanding of the underlying profitability drivers of our business, it should not be used as a substitute for total liabilities presented under U.S. GAAP.
- **Sales:** Sales statistics do not correspond to revenues under U.S. GAAP but are used as relevant measures to understand our business performance as it relates to inflows generated during a specific period of time. Our sales statistics include inflows for deferred and indexed annuities and align with the LIMRA definition of all money paid into an individual annuity, including money paid into new contracts with initial purchase occurring in the specified period and existing contracts with initial purchase occurring prior to the specified period (including internal transfers). We believe sales is a meaningful metric that enhances our understanding of our business performance and is not the same as premiums presented in our condensed consolidated statements of income.
