BurgerFi and Gopuff Expand Pilot to Deliver Fresh Made Burgers and Fries to Customers Nationwide

Following a successful 90-day pilot program in Tallahassee, brands enter into an extended agreement

MIAMI, July 7, 2022 /PRNewswire/ -- [BurgerFi](#), one of the nation's fastest-growing, premium fast-casual concepts, and [Gopuff](#), the go-to platform for immediate delivery of customers' everyday needs, today announced plans to expand the delivery of BurgerFi items on the Gopuff platform to more customers nationwide, following a successful pilot program. In the coming months, Gopuff will begin delivering fresh-made BurgerFi burgers and fries to customers in more than a dozen cities, including Miami, New York City, Nashville and Philadelphia.

Following a successful 90- "The synergy between BurgerFi and Gopuff remains

day pilot program in Tallahassee, brands enter into an extended agreement unrivaled, and the continuation of this partnership is a natural next step in raising the bar for our guests who value convenience and delivery," said Ophir Sternberg, Executive Chairman of BurgerFi. "As we look to redefine the way the world eats burgers, we can't think of a better partner to grow this late-night option nationwide."

Following a successful 90-day pilot program in which BurgerFi's "Fi on the Fly" food truck was stationed outside of a Gopuff location in Tallahassee, the new agreement will fully transition operations, food preparation and distribution to Gopuff's local teams and facilities. BurgerFi products will soon be available for delivery from more than 30 Gopuff Fresh Food Halls across the country – including in locations where no other BurgerFi restaurant exists, instantly expanding BurgerFi's national presence by leveraging Gopuff's local logistics network, teams and infrastructure.

"Having seen how much Gopuff customers in Tallahassee loved accessing BurgerFi for delivery, we look forward to expanding our partnership to bring their delicious, fresh and quality food to more customers in minutes," said Amelia Riba, VP Kitchens, Gopuff. "With our nationwide infrastructure, trained teams, and control over inventory and cooking prep, we have the ability to truly partner with restaurants like BurgerFi to curate menu and help them reach more customers instantly – without putting added stress on their restaurants for delivery. As we continue to build out the Fresh Food Hall offering, we are thrilled to be able to deliver BurgerFi food alongside thousands of everyday items we bring to our customers daily."

Products available to Gopuff customers in select markets will include:

- **A-Grade Burgers:** Double-up on 100% all-natural Beef patties, American cheese and loads of premium, thick-cut bacon in the sizable and juicy Ultimate Bacon Burger or keep it classic with the popular BurgerFi Cheeseburger. Both options are available in Junior sizes as well.
- **Freshly-Prepared Fries:** BurgerFi's perfectly seasoned fries will be delivered with speed as part of Gopuff's instant delivery.

About BurgerFi International (Nasdaq: BFI, BFIW)

Established in 2011, BurgerFi is among the nation's fastest-growing better burger concepts with 116 BurgerFi restaurants domestically and internationally as of September 30, 2021. The concept is chef-founded and is committed to serving fresh food of transparent quality. BurgerFi uses 100% American Angus Beef with no steroids, antibiotics, growth hormones, chemicals, or additives. BurgerFi's menu also includes high quality wagyu beef, antibiotic and cage-free chicken offerings, fresh, hand-cut sides and custard shakes and concretes. On November 3, 2021, BurgerFi completed the acquisition of Anthony's Coal Fired Pizza & Wings with 61 company-owned locations in eight states. BurgerFi was named QSR Magazine's Breakout Brand of 2020, Fast Casual's 2021 #1 Brand of the Year, a "Top Restaurant Brand to Watch" by Nation's Restaurant News in 2019 and is included in Inc. Magazine's Fastest Growing Private Companies List. In 2021, in Consumer Report's Chain

Reaction Report, BurgerFi was praised for serving "no antibiotic beef" across all of its restaurants and Consumer Reports awarded BurgerFi an "A-Grade Angus Beef" rating for the third consecutive year.
