# MindMed Included in FTSE Russell 3000® Index

NEW YORK, June 28, 2021 /CNW/ -- MindMed(NASDAQ: MNMD) (NEO: MMED) (DE: MMQ), a leading psychedelic-inspired medicine company announced that effective Friday, June 25th, 2021, MindMed has been added to the FTSE Russell 3000® index which measures the performance of the largest 3,000 US companies.

The annual Russell indexes reconstitution process captures the 4,000 largest US stocks in May of every year, ranking them by total market capitalization. Membership in the US all-cap Russell 3000® Index, which remains in place for one year, means automatic inclusion in the large-cap Russell 1000 Index or small-cap Russell 2000 Index, as well as the appropriate growth and value style indexes. FTSE Russell determines membership for its Russell indexes primarily by objective, market-capitalization rankings and style attributes.

Robert Barrow, Chief Executive Officer of MindMed said, "Being included in mature and credible indexes like the FTSE Russell 3000® is a true honor. As we continue building MindMed and continue to achieve our important capital market and development milestones, our entire team remains dedicated and motivated to deliver on the potential positive change we can bring to the treatment of mental health and addiction in the years ahead."

Russell indexes are widely used by investment managers and institutional investors for index funds and as benchmarks for active investment strategies. Approximately \$10.6 trillion in assets are benchmarked against Russell's US indexes. Russell indexes are part of FTSE Russell, a leading global index provider.
