Microchip Technology to Present at the Bank of America 2025 Global Technology Conference

CHANDLER, Ariz., June 03, 2025 (GLOBE NEWSWIRE) -- (NASDAQ:MCHP) – Microchip Technology Incorporated, a leading provider of smart, connected, and secure embedded control solutions, today announced that the Company will present at the Bank of America 2025 Global Technology Conference on Wednesday, June 4, 2025 at 9:20 a.m. (Pacific Time). Presenting for the Company will be Mr. Eric Bjornholt, Senior Vice President and Chief Financial Officer. A live webcast of the presentation will be made available by B of A, and can be accessed on the Microchip website at www.microchip.com.

Any forward looking statements made during the presentation are qualified in their entirety by the discussion of risks set forth in the Company's Securities and Exchange Commission filings. Copies of SEC filings can be obtained for free at the SEC's website (www.sec.gov) or from commercial document retrieval services. Microchip notes that its press release on May 29, 2025 incorrectly stated that the date of the BofA conference was June 3 (not June 4) and that \$1.025 billion was the low of its prior guidance range while it was actually \$1.02 billion.

Microchip Technology Incorporated is a leading provider of smart, connected and secure embedded control solutions. Its easy-to-use development tools and comprehensive product portfolio enable customers to create optimal designs, which reduce risk while lowering total system cost and time to market. The company's solutions serve approximately 112,000 customers across the industrial, automotive, consumer, aerospace and defense, communications and computing markets. Headquartered in Chandler, Arizona, Microchip offers outstanding technical support along with dependable delivery and quality. For more information, visit the Microchip website at www.microchip.com.
