# Pressure BioSciences to Present at the Planet MicroCap Showcase 2022 on May 4, 2022

***Company Invites Investors, Analysts, and Advisors to Attend Its In-Person and Webcast Presentation on Wednesday, May 4, 2022 at 11:30am PDT***

**SOUTH EASTON, MA / ACCESSWIRE / May 3, 2022** /Pressure BioSciences, Inc. (OTCQB:PBIO) ("PBI" and the "Company"), a leader in the development and sale of innovative, broadly enabling, pressure-based instruments, consumables, and specialty services to the worldwide biopharmaceuticals, cosmetics, nutraceuticals, agrochem, and food & beverage industries, today announced the Company's participation as a presenter at the May 3-5 Planet MicroCap Showcase 2022. This on-site investor conference is being held at the Bally's Hotel and Casino in Las Vegas, Nevada, from May 3-5, 2022. The Conference will feature over 80 top public and private companies in the microcap space. In his presentation, PBI's President and CEO, Mr. Richard T. Schumacher, will expand on the Company's recent achievements in the nanoemulsification of CBD and other cannabinoids, as well as with a variety of oil-based, hydrophobic active ingredients used in the biopharmaceutical, cosmetics, agrochemical, health & wellness, and food/beverage areas. Mr. Schumacher will also expand on the Company's planned Fall 2022 commercialization of its revolutionary Ultra Shear Technology™ (UST™) nanoemulsification platform. Mr. Schumacher's presentation information is below:

DATE: Wednesday, May 4, 2022 (11:30am PDT • 2:30pm EDT)

PRESENTATION: In Person and Webcast

WEBCAST: <https://www.webcaster4.com/Webcast/Page/2862/45067>

MEETINGS (1x1): Can be Requested on the Event Website

REGISTER: <https://planetmicrocapshowcase.com>

## **About the SNN Network**

SNN.Network is your multimedia financial news platform for discovery, transparency, and due diligence. This is your one-stop hub to find new investment ideas, check on watchlists, gather the most up-to-date information on the Small-, Micro-, and Nano-Cap markets with the goal to help you towards achieving your wealth generation goals. Follow the companies YOU want to know more about; read and watch content from YOUR favorite finance and investing influencers; create YOUR own watchlist and screen for ideas YOU'RE interested in; find out about investor conferences YOU want to attend - all here on SNN.Network.

## **About Pressure BioSciences, Inc.**

Pressure BioSciences, Inc. (OTCQB: PBIO) is a leader in the development and sale of innovative, broadly enabling, pressure-based solutions for the worldwide life sciences and

other industries. Our products are based on the unique properties of both constant (i.e., static) and alternating (i.e., pressure cycling technology, or PCT) hydrostatic pressure. PCT is a patented enabling technology platform that uses alternating cycles of hydrostatic pressure between ambient and ultra-high levels to control bio-molecular interactions safely and reproducibly (e.g., cell lysis, biomolecule extraction). Our primary focus is the development of PCT-based products for biomarker and target discovery, drug design and development, biotherapeutics characterization and quality control, soil & plant biology, forensics, and counter-bioterror applications. Additionally, major new market opportunities have emerged in the use of our pressure-based technologies in the following areas: (1) the use of our recently acquired, patented technology from BaroFold, Inc. (the "BaroFold" technology) to allow entry into the bio-pharma contract services sector, and (2) the use of our recently-patented, scalable, high-efficiency, pressure-based Ultra Shear Technology ("UST") platform to (i) create stable nanoemulsions of otherwise immiscible fluids (e.g., oils and water) and to (ii) prepare higher quality, homogenized, extended shelf-life or room temperature stable low-acid liquid foods that cannot be effectively preserved using existing non-thermal technologies.

## **Forward Looking Statements**

This press release contains forward-looking statements. These statements relate to future events or our future financial performance and involve known and unknown risks, uncertainties and other factors that may cause our or our industry's actual results, levels of activity, performance, or achievements to be materially different from any future results, levels of activity, performance or achievements expressed, implied, or inferred by these forward-looking statements. In some cases, you can identify forward-looking statements by terminology such as "may," "will," "should," "could," "would," "expects," "plans," "intends," "anticipates," "believes," estimates," "predicts," "projects," "potential" or "continue" or the negative of such terms and other comparable terminology. These statements are only predictions based on our current expectations and projections about future events. You should not place undue reliance on these statements. In evaluating these statements, you should specifically consider various factors. Actual events or results may differ materially. These and other factors may cause our actual results to differ materially from any forward-looking statement. These risks, uncertainties, and other factors include, but are not limited to, the risks and uncertainties discussed under the heading "Risk Factors" in the Company's Annual Report on Form 10-K for the year ended December 31, 2021, and other reports filed by the Company from time to time with the SEC. The Company undertakes no obligation to update any of the information included in this release, except as otherwise required by law.
