# TTM Technologies, Inc. Production Site in Guangzhou, China was Recognized as a Green Factory

COSTA MESA, Calif., Dec. 03, 2018 (GLOBE NEWSWIRE) -- TTM Technologies, Inc. (Nasdaq:TTMI), a leading global printed circuit board ("PCB") and radio frequency ("RF") components manufacturer, today announced that its largest manufacturing facility located in Science Park, Guangzhou, China, part of TTM's Mobility Business Unit, has achieved the status to be listed as a "Green Factory" by the Ministry of Industry and Information Technology (MIIT) of China. Achieving this recognition required the manufacturing facility to pass an assessment review by independent third parties and related official organizations from the Chinese Government.

"We are proud of our team for their outstanding effort in promoting environmental conservation and green practices," said Brian Barber, Chief Operating Officer of TTM Technologies. "TTM Technologies is committed to responsible environmental practices and this recognition further demonstrates our continued efforts to help protect the environment."

C.W. Fong, President of TTM Technologies' Mobility Business Unit added, "This is a major accomplishment by our team. The Green Factory certification requires a strict review of all aspects of green manufacturing. This designation demonstrates TTM Technologies' commitment to achieve a balance between economic growth and environmentalism."

## About TTM Technologies, Inc.

TTM Technologies, Inc. is a leading global printed circuit board manufacturer, focusing on quick-turn and volume production of technologically advanced PCBs, backplane assemblies and electro-mechanical solutions as well as a global designer and manufacturer of radio frequency (RF) and microwave components and assemblies. TTM stands for time-to-market, representing how TTM's time-critical, one-stop manufacturing services enable customers to shorten the time required to develop new products and bring them to market.
