# Duos Technologies Expands to Retail Logistics Market

## National Retail Chain Awards Duos Contract to Implement Intelligent Distribution Center Logistics

JACKSONVILLE, FL -- (Marketwired) -- 07/19/16 --

Duos Technologies Group, Inc. (OTCQB: DUOT), a provider of intelligent security analytical technology solutions, announced today that it has been awarded a contract by one of the nation's largest retail chains to implement a multi-phase proof of concept test of an industry leading solution which will automate gatehouse operations within the distribution center environment.

The technology will be based on Duos' successful inspection portal core technology, which will be adapted to truck and intermodal container traffic entering and exiting distribution centers. The cutting edge design will include automation of gatehouse logistics and create comprehensive transactional documentation for vehicles entering and exiting the centers.

"We are very excited to be partnering with a major nationwide retail chain that enables us to expand the use of our portal technologies," stated Felix Krupczynski, EVP & GM for Duos Technologies. "The evolution of our imaging and inspection portals will continue to provide great synergies and operational efficiencies as industries look to utilize intelligent technologies to improve their bottom lines."

The project will also cover integration and correlation of all data with the customers exiting data streams, and consolidation to a single central location. It is anticipated that once the technology has been validated by the customer, the system will be deployed to all distribution centers nationwide. The system architecture will combine Duos' proprietary praesidium™ analytics suite with the Company's centraco™ interface platform.

"The entry to the very significant national retail market is a natural expansion of our intelligent technologies that we have successfully deployed for other transportation sectors," stated Gianni Arcaini, Duos Technologies Group CEO. "Porting our technologies to new markets is consistent with our short and midterm strategic plan, and we expect it to have a significant, positive impact on our revenue horizon," Arcaini said.

### ***About Duos Technologies Group Inc.***

Duos Technologies Group, Inc. (OTCQB: DUOT), based in Jacksonville, FL, through its wholly owned subsidiary, Duos Technologies Inc., provides intelligent security analytical technology solutions with a strong portfolio of intellectual property.
