# Duos Technologies Appoints Rail Industry Veteran Matt Keepman as Senior VP of Sales and Marketing to Accelerate Growth

**JACKSONVILLE, FL / ACCESSWIRE / October 6, 2022/ [Duos Technologies Group, Inc.](#)** ("Duos" or the "Company") (NASDAQ:DUOT) through its operating subsidiary Duos Technologies, Inc., a provider of machine vision and artificial intelligence that analyzes fast moving trains and trucks, today announced the appointment of Matt Keepman as its Senior Vice President of Sales and Marketing. In this newly created role Keepman will report directly to CEO Chuck Ferry and will be responsible for leading the Company's commercial strategy with a focus on driving top line growth.

Keepman brings two decades of experience in managing strategic accounts within the North American rail industry. Most recently he was a Key Account Executive for Wabtec Corporation where he led the commercial strategy for the Canadian Pacific Railway across all of Wabtec's business segments.

Keepman will be tasked with advancing Duos Technologies' go-to-market strategy as it expands its offerings to private railcar owners, lessors, and shippers via inspection data subscription plans. He will also assist the executive leadership team in communicating the broader commercial strategy to internal and external stakeholders while further building out the infrastructure for both the sales and marketing teams.

"Matt's addition has been a long time coming. We look forward to his contributions to our targeted commercial growth efforts that lie ahead," said Ferry. "Our team has spent the last two-plus years laser-focused on increasing the quality and reliability of our solutions with that directive now largely completed. As part of the next phase of our plan, we are actively exploring additional revenue streams that call for broader market penetration to a considerably larger list of prospective customers. We expect that Matt and his team will be essential in serving our existing customer base as well as pursuing new lines of business that will support our goals for sustained, consistent revenue growth."

"Duos has entered a key phase of its strategic growth plan that warrants a more targeted sales presence, and I'm energized to be leading those efforts," added Keepman. "I've had a front row seat over the past 20 years as railroads and railcar owners have become more receptive to emerging technologies. Now is the time for Duos' AI inspection solutions to capitalize on that shift. Chuck and the team have built considerable momentum around the Railcar Inspection Portals. I look forward to advancing our efforts to improve both safety and efficiency in our industry."

## **About Duos Technologies Group, Inc.**

Duos Technologies Group, Inc. (NASDAQ:DUOT), based in Jacksonville, Florida, through its wholly owned subsidiary, Duos Technologies, Inc., designs, develops, deploys and operates intelligent vision based technology solutions supporting rail, logistics, intermodal and
