NEW YORK, July 31, 2015 (GLOBE NEWSWIRE) -- WisdomTree Investments, Inc. (NASDAQ:WETF), an exchange-traded fund ("ETF") and exchange-traded product ("ETP") sponsor and asset manager today reported net income of $\$ 24.2$ million for the second quarter of 2015 or $\$ 0.18$ per share on a fully diluted basis. This compares to $\$ 10.6$ million in the second quarter of 2014 and $\$ 12.1$ million in the first quarter of 2015.

WisdomTree CEO and President Jonathan Steinberg said, "Our innovative ETF platform attracted $\$ 6.6$ billion in inflows in the second quarter and more than $\$ 20$ billion in the first half of the year, making WisdomTree one of the fastest-growing companies within the ETF and broader asset management industry in 2015 to date. We also delivered industry-leading operating margins and record financial results, demonstrating the increasing scale and strength of our business model."

Mr. Steinberg continued, "I am pleased with our strong execution in the second quarter and excited about the investments and capabilities we are adding to enhance our global ETF franchise and drive future growth."

## Assets Under Management and Net Inflows

U.S. listed ETF assets under management ("AUM") reached a record $\$ 61.3$ billion at June 30, 2015, up $56.1 \%$ from December 31, 2014, primarily due to record inflows of $\$ 20.1$ billion.

European listed AUM was $\$ 611.9$ million, up $237.7 \%$ from $\$ 181.2$ million at December 31, 2014 primarily due to $\$ 368.8$ million of net inflows.

## Performance

In evaluating the performance of our U.S. listed equity, fixed income and alternative ETFs against actively managed and index based mutual funds and ETFs, $90.4 \%$ of the $\$ 60.5$ billion invested in our ETFs and $58 \%$ ( 32 of 55 ) of our ETFs outperformed their comparable Morningstar average since inception as of June 30, 2015.

## Second Quarter Financial Discussion

## Revenues

Total revenues increased $84.8 \%$ from the second quarter of 2014 and $35.6 \%$ compared to the first quarter of 2015 to a record $\$ 81.6$ million primarily due to higher average AUM from strong inflows. Revenues from our European listed ETPs increased to $\$ 0.9$ million from $\$ 0.2$
million in the second quarter of 2014 primarily due to higher inflows from the launch of WisdomTree UCITS ETFs as well as our Boost branded ETPs. The average advisory fee for our U.S. listed ETFs increased to $0.53 \%$ as compared to $0.51 \%$ for the second quarter of 2014 and $0.52 \%$ in the first quarter of 2015 due to the change in the mix of our AUM.

## Margins

Gross margin for our U.S. listed ETFs, which is our total revenues less fund management and administration expenses and third party sharing arrangements, was $86.4 \%$ in the second quarter of 2015 as compared to $82.4 \%$ in the second quarter of 2014 and $83.2 \%$ in the first quarter of 2015. The increase was primarily due to higher average AUM.

Consolidated pre-tax margin was $50.2 \%$ in the second quarter of 2015. Pre-tax margin for our U.S. listed ETFs was $53.2 \%$ on average U.S. listed AUM of $\$ 61.2$ billion.

## Expenses

Total expenses increased 69.3\% from the second quarter of 2014 and $3.8 \%$ compared to the first quarter of 2015 to $\$ 40.6$ million. Included in the quarter was $\$ 2.9$ million of expenses associated with our European listed ETPs.

- Compensation and benefits expense increased $147.2 \%$ from the second quarter of 2014 to $\$ 18.7$ million due to higher accrued incentive compensation due to our record setting inflow levels, increased headcount related expenses to support our growth and higher stock based compensation due to equity granted as part of incentive compensation. Included in the quarter was $\$ 1.2$ million in compensation costs for employees associated with our European listed ETPs.

This expense decreased $4.8 \%$ compared to the first quarter of 2015. Payroll related taxes were higher in the first quarter due to bonus payments and employees exercising stock options.

- Fund management and administration expense increased $43.4 \%$ from the second quarter of 2014 and $10.2 \%$ from the first quarter of 2015 to $\$ 11.2$ million. This increase was primarily due to higher average AUM, inflow levels and number of ETFs. We also incurred additional costs for our European listed ETPs as a result of launching our WisdomTree UCITS ETFs in the fourth quarter of 2014. We had 75 U.S. listed ETFs and 67 European listed ETPs at the end of the quarter.
- Marketing and advertising expense increased $33.1 \%$ from the second quarter of 2014 and $17.9 \%$ from the first quarter of 2015 to $\$ 3.6$ million primarily due to higher levels of advertising related activities to support our growth.
- Sales and business development expense increased $20.2 \%$ from the second quarter of 2014 and $9.3 \%$ from the first quarter to $\$ 2.1$ million primarily due to higher spending for sales related activities for both our U.S. and European listed ETPs.
- Professional and consulting fees decreased $12.8 \%$ from the second quarter of 2014 to $\$ 1.6$ million. In the second quarter of last year, we incurred fees in connection with closing on our acquisition of Boost. This expense increased $9.6 \%$ compared to the
first quarter of 2015 primarily due to headcount recruiting fees.
- Occupancy, communication and equipment expense was essentially unchanged at $\$ 0.9$ million as compared to the second quarter of 2014 and the first quarter of 2015.
- Depreciation and amortization expense was also relatively unchanged at $\$ 0.2$ million as compared to the second quarter of 2014 and first quarter of 2015.
- Third-party sharing arrangements expense increased to $\$ 0.5$ million in the second quarter of 2015 as compared to the second quarter of 2014 and first quarter of 2015 primarily due to higher fees for our marketing agents in Latin America and listing our ETFs on a third party platform.
- Other expenses increased $29.6 \%$ from the second quarter of 2014 and $22.2 \%$ from the first quarter to $\$ 1.5$ million primarily due to higher general and administrative spending.
- Acquisition contingent payment expense was $\$ 0.3$ million in the second quarter. This represents the current expense accrual for expected payments due to the former Boost shareholders related to our acquisition in April 2014 and is primarily driven by increased AUM derived from our European business.
- Income tax expense was $\$ 16.8$ million for the second quarter of 2015. The effective tax rate on our U.S. listed ETF business was $39.1 \%$ in the second quarter. The Company's overall effective tax rate was $41.0 \%$ due to the non-deductibility of losses in our European ETP business. These losses may be recognized in the future after the European business is profitable.

## Balance Sheet

As of June 30, 2015, the Company had total assets of $\$ 265.2$ million which consisted primarily of cash and cash equivalents and investments of $\$ 210.5$ million. There were approximately 136.3 million shares of common stock outstanding as of June 30, 2015. Fully diluted weighted average shares outstanding were 138.0 million for the second quarter.

## Quarterly Dividend and Stock Buyback

The Company's Board of Directors declared a quarterly cash dividend of $\$ 0.08$ per share of the Company's common stock. The dividend will be paid on August 26, 2015 to stockholders of record as of the close of business on August 12, 2015. In addition, during the quarter, the Company purchased approximately 62,000 shares for $\$ 1.2$ million in the second quarter of 2015.

## Cautionary Statement Regarding Forward-Looking Statements

This press release contains forward-looking statements that are based on our management's beliefs and assumptions and on information currently available to our management. Although we believe that the expectations reflected in these forward-looking statements are reasonable, these statements relate to future events or our future financial performance, and involve known and unknown risks, uncertainties and other factors that may cause our actual results, levels of activity, performance or achievements to be materially different from any future results, levels of activity, performance or achievements expressed or implied by these forward-looking statements. In some cases, you can identify forwardlooking statements by terminology such as "may," "will," "should," "expects," "intends," "plans," "anticipates," "believes," "estimates," "predicts," "potential," "continue" or the negative of these terms or other comparable terminology. These statements are only predictions. You should not place undue reliance on forward-looking statements because they involve known and unknown risks, uncertainties and other factors, which are, in some cases, beyond our control and which could materially affect results. Factors that may cause actual results to differ materially from current expectations include, among other things, the risks described below. If one or more of these or other risks or uncertainties occur, or if our underlying assumptions prove to be incorrect, actual events or results may vary significantly from those implied or projected by the forward-looking statements. No forward-looking statement is a guarantee of future performance. You should read this press release completely and with the understanding that our actual future results may be materially different from any future results expressed or implied by these forward-looking statements.

In particular, forward-looking statements in this press release may include statements about:

- anticipated trends, conditions and investor sentiment in the global markets and ETPs;
- anticipated levels of inflows into and outflows out of our ETPs;
- our ability to deliver favorable rates of return to investors;
- our ability to develop new products and services;
- our ability to maintain current vendors or find new vendors to provide services to us at favorable costs;
- our ability to successfully expand our business into non-U.S. markets;
- timing of payment of our cash income taxes;
- competition in our business; and
- the effect of laws and regulations that apply to our business.

Our business is subject to many risks and uncertainties, including without limitation:

- Recent historical growth may not provide an accurate representation of the growth we may experience in the future, which may make it difficult to evaluate our future prospects.
- Challenging global market conditions associated with declining prices of securities can adversely affect our business by reducing the market value of the assets we manage or causing customers to sell their fund shares and trigger redemptions.
- Fluctuations in the amount and mix of our AUM may negatively impact revenue and operating margin.
- We derive a substantial portion of our revenue from a limited number of products - in particular two funds, the WisdomTree Europe Hedged Equity Fund and the WisdomTree Japan Hedged Equity Fund - and, as a result, our operating results are particularly exposed to the performance of those funds, investor sentiment toward the strategies pursued by those funds and our ability to maintain the AUM of those funds.
- Most of our AUM are held in our U.S. listed ETFs that invest in foreign securities and we therefore have substantial exposure to foreign market conditions and are subject to currency exchange rate risks.
- We derive a substantial portion of our revenue from international hedged equity ETFs and are exposed to the market-specific political and economic risks, as well as general investor sentiment regarding monetary policy of those markets.
- We derive a substantial portion of our revenue from products invested in securities of Japanese and European companies and are exposed to the market-specific political and economic risks, as well as general investor sentiment regarding future growth of those markets and currency fluctuations.
- We derive a significant portion of our revenue from products invested in emerging markets and are exposed to the market-specific political and economic risks as well as general investor sentiment regarding future growth of those markets.
- Many of our ETPs and ETFs have a limited track record, and poor investment performance could cause our revenue to decline.
- We depend on third parties to provide many critical services to operate our business and our ETPs and ETFs. The failure of key vendors to adequately provide such services could materially affect our operating business and harm our customers.

Other factors, such as general economic conditions, including currency exchange rate fluctuations, also may have an effect on the results of our operations. For a more complete description of the risks noted above and other risks that could cause our actual results to differ from our current expectations, please see the section entitled "Risk Factors" in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2014.

The forward-looking statements in this press release represent our views as of the date of this press release. We anticipate that subsequent events and developments may cause our views to change. However, while we may elect to update these forward-looking statements at some point in the future, we have no current intention of doing so except to the extent required by applicable law. Therefore, these forward-looking statements do not represent our views as of any date other than the date of this press release.

## Non-GAAP Financial Measurements

In an effort to provide additional information regarding our results as determined by GAAP, we also disclose certain non-GAAP information which we believe provides useful and meaningful information. The non-GAAP financial measurements included in this release include gross margin, gross margin percentage and our operating results for our US and European listed ETF businesses. Our management reviews these non-GAAP financial measurements when evaluating our financial performance and results of operations; therefore, we believe it is useful to provide information with respect to these non-GAAP measurements so as to share this perspective of management. Non-GAAP measurements do not have any standardized meaning, do not replace nor are superior to GAAP financial measurements and are unlikely to be comparable to similar measures presented by other companies. These non-GAAP financial measurements should be considered in the context with our GAAP results. We disclose gross margin as a non-GAAP financial measurement to allow investors to analyze our revenues less the direct costs paid to third parties attributable to those revenues. We disclose the results of our US listed ETF business to allow investors to better compare our results to the prior year as in April 2014, we acquired Boost ETP, a UK based ETP sponsor.
