TTM Technologies, Inc. Recognized by Alpine Electronics (China) Co., Ltd. at Their China Region Supplier Conference in Shanghai

COSTA MESA, Calif., July 18, 2016 (GLOBE NEWSWIRE) -- TTM Technologies, Inc. (Nasdaq:TTMI) announced that its printed circuit board manufacturing facility in Shanghai, China was recognized by Alpine Electronics (China) Co., Ltd. (Alpine) on July 8, 2016 for their dedicated support through engineering efforts and advanced technology solutions.

70 key suppliers were invited to Alpine's 13th Annual Supplier Conference recently held in Shanghai for the China region and TTM's Shanghai facility was the only supplier to be presented the Alpine - VE (Value Engineering) award. This award was in appreciation and recognition of TTM's Shanghai facility's commitment, flexibility, innovation, technology and engineering capabilities which contributed to Alpine's competitive advantages with their European customers in 2015.

"With TTM's Shanghai facility's outstanding engineering support, we were able to optimize our design for our European customer base which contributed to Alpine's success," said Mr. Tadashi Kasai, Alpine's Senior Manager of Purchasing.

"We would like to thank Alpine for recognizing TTM as an Alpine – VE Supplier. As a global team, we are dedicated to creating value for our customers through our printed circuit board prototypes, high-volume manufacturing, custom assembly and innovative engineering capabilities," said Jon Pereira, President of TTM's Automotive, Medical and Industrial & Instrumentation Business Unit. "We sincerely appreciate this opportunity to work with Alpine on the VE program and we look forward to enhancing our business relationship with Alpine in the future."

About TTM Technologies, Inc.

TTM Technologies, Inc. is a leading global printed circuit board ("PCB") manufacturer, focusing on quick-turn and technologically advanced PCBs, backplane assemblies and electro-mechanical solutions. TTM stands for time-to-market, representing how TTM's time-critical, one-stop manufacturing services enable customers to shorten the time required to develop new products and bring them to market.
